Solicitation Amendment 008 is being issued to respond to questions received on solicitation No. 23440-181318/A

Question 1: Will they just be photographs in .tif or .pdf format? Or will an autocad extraction of the shoreline and upper flooding contour also be provided?

Response 1: 2017 imagery is available in either jpg or geoTIFF formats.

It is uncertain what format the 2011 data from the First Nations' contractor will be provided in.

Question 2: Can the Client please expand on what is meant by 'contour line extractions'? Does this mean there are already surfaces created for all IR's? If the contour lines are provided, are they to be used for creating the upper and lower limit of the flood easement?

Response 2: Those words were used by the First Nations' representative when describing what will be provided. NRCan does not have the data. Any contour lines so provided cannot be used for the lower limit.

It is expected that the accuracy of any data provided by third parties will be verified in the field.

If your bid has already been submitted, you may wish to revise it. Revisions to your bid must be submitted in a sealed envelope with the contents clearly identified on the outside of the envelope. Any revisions to your bid must be received by the Bid Receiving Unit on or before the time and date stated on page 1 of this document. Any revisions to your bid received after the closing date and time will be considered late and will be returned unopened.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME AND IN FULL EFFECT
