## AMENDMENT 005

This solicitation amendment is raised to extend the bid solicitation period, to respond to a question from a bidder and to amend the Purchase Description.

The bid solicitation period is hereby extended from 02:00 PM EDT 17 May 2018 to 02:00 PM EDT 24 May 2018.

---

### Q14.

A13. in Amendment 003 states:

- a. The nozzle must have sufficient pressure and flow to meet the requirements of Section 3.10.
- b. The remote must be able to control nozzle flow and direction.

*We would like to know what make and model of 'remote control nozzles' are required? Are you looking for a turret rather than a nozzle? It is almost impossible to 'guess' at what DND is looking for in this requirement. Most of these 'nozzles' are between \$5 - \$8,000.*

### A14.

DND has no specific make and model of nozzle in mind. Bidders are to find nozzles that meet the requirements set out in the Purchase Description.

Please refer to the Purchase Description Amendment below.

---

The Purchase Description is hereby amended as follows:

- Delete Section 3.10 and replace it with:

### 3.10 Discharge Nozzles

- a) Four discharge nozzles **must** be provided with common incremental adjustable flow control.
- b) Each nozzle **must** have independent on/off control.
- c) Two nozzles **must** be positioned on the front of the truck, one on the driver side and one on the passenger side.
- d) Two nozzles **must** be positioned at the middle point of the chassis in front of the rear wheels one on each side of the vehicle.
- e) Each nozzle **must** spray water to cover an area that is at minimum 3.05 m (10 ft) in radius and at minimum 145 degrees in arc.

CCC No./N° CCC - FMS No/ N° VME

---

- f) The total of coverage of the four nozzles **must** form a continuous area around the side and forward areas of the truck of minimum radius 3.05 m (10 ft).
- g) All nozzle controls **must** be located in the truck cab in reach of the driver.
