Description of Work:

DIAND requires additional specialized resources for up to 4 resource categories at various levels to supplement internal capacity. This includes:

- Expertise for the Branch and providing recommendations by placing emphasis on the go-forward Information Architecture, in consideration of program design, implementation and measurement requirements (e.g., performance indicator traceability to and across programs).
 - Identify data owners and their accountabilities
 - Select and implement DM tools and provide data quality assessment services
 - Support performance management of programs (i.e., improved data for performance indicators) and manage the INAC's Open Government responsibilities.
- Bidders may submit a bid for one or all resource categories.
 - The work is currently not being performed by a contracted resource
