This solicitation amendment 9 is to answer questions from industry. New versions of all updated documents can be downloaded under the "Attachments" section at the bottom of the Tender Notice as file "amend_9_updated_docs.zip" Yellow highlighted text in these updated documents identify where changes have been made as a result of Canadas clarifications, or questions from bidders.

QUESTION 1

Question:

The foundations has the size to 36 x 15 meters, but in the tender is about 45 x 15 is mentioned for the modular range. Is this still correct for the range size? Do we have to calculate extra foundation support if we use a longer size then the 36 meters?

Answer:

Yes.

As indicated in Volume 2 Annex B Article 5.1.2.1 f, Article 5.1.2.2 g, and Article 5.1.2.8, the infrastructure support requirements including minimum foundation requirements for the range must be provided.

Canada has decided that the acquisition optional requirements cost is no longer considered part of the evaluated costs in the cost per point calculation. As such the following changes have been made:

1) DELETE Volume 1 Part 1 Article 1.3 Mandatory Acquisition Budget Threshold, in its entirety;
and

REPLACE the above-mentioned deleted article with the following:

1.3 Maximum Funding

The resulting acquisition contract requirement (excluding optional requirements) must not exceed the stated Maximum Funding Amount. For further details please refer to Part 4 of this Volume 1.

2) DELETE Volume 1 Part 4 Article 4.1 Evaluation Procedures, in its entirety; and

REPLACE the above-mentioned deleted article with the following:

4.1 Evaluation Procedures

Please refer to Volume 1 - Bidders Instructions and Requirements, Annex A - Evaluation Procedures and Basis of Selection.

4.1.1 Maximum Funding Amount (Resulting Acquisition Contract)

The maximum funding available for the Acquisition Contract resulting from the bid solicitation is **\$5,050,000.00** Canadian Dollars (applicable taxes extra). Bids valued in excess of this amount will be considered non-responsive. This disclosure does not commit Canada to pay the maximum funding available.

4.1.2 Mandatory Acquisition Budget Threshold

For a bid to be deemed responsive, the Mandatory Acquisition Budget Threshold Verification amount (MABTV), must not exceed **the Maximum Funding Amount under 4.1.1**:

- a) The MABTV amount is defined as the **bidders** total cost of Volume 2 Resulting Acquisition Contract Schedule A, **Article 2 Item N°s 1 through 3**. The MABTV amount will be calculate by Canada using Volume 1 Annex A Appendix 1 Financial Evaluation.

- 3) DELETE Volume 1 Annex A, Article 6 Basis of Selection, in its entirety; and
REPLACE the above-mentioned deleted article with the following:

6. Basis of Selection

1. To be declared responsive, a bid must:

- a) **comply with all the requirements of the bid solicitation;**
b) **meet all mandatory evaluation criteria.**

2. **Bids not meeting (a) or (b) will be declared non-responsive.** Neither the responsive bid that receives the highest number of points nor the one that proposed the lowest price will necessarily be accepted. The responsive bid with the lowest evaluated price per point will be recommended for award **of the contracts, provided that the Mandatory Acquisition Budget Threshold Verification amount does not exceed the Maximum Funding Amount as per Volume 1 Part 4 Article 4.1 Evaluation procedures.**

6.1 Lowest evaluated price per point

- a) For each responsive bid, the lowest evaluated price per point calculation will be determined as follows:

Bidders lowest evaluated price per point =

$$\frac{\text{Responsive bid total evaluated price}^*}{\text{Responsive bid total points awarded}^{**}}$$

* Total Evaluated Price is defined in Volume 1 Annex A Appendix 1 Financial Evaluation **and does not include optional requirements cost.**

** Total Points **awarded** is defined in Volume 1 Annex C Technical and Management Proposal Requirements and Evaluation Plan for the Modular Indoor Range.

- b) When a calculation includes a decimal answer, calculations will be rounded to the nearest hundredth value.

Example:

(i) 7.254 to the nearest hundredth = 7.25

(ii) 7.255 to the nearest hundredth = 7.26

- c) The responsive Bidder with the lowest evaluated price per point calculation will be recommended for the award of both contracts (Acquisition contract, and the In-Service Support contract).

6.2 Evaluation Examples

Three (3) bids were received in response to a competitive solicitation. The following bids were evaluated:

Bidder A

Bidder A was deemed non responsive at the conclusion of Phase III since they failed to show compliance with one (1) mandatory requirement. Bidder A submitted missing information under Phase II (Compliance Assessment Report or "CAR") which satisfied the bid evaluation team, resulting in a responsive bid. Bidder A achieved a total point rated score of 1000 points out of a possible 1000 points. Bidder A's total bid price is \$500,000.00 and is the highest priced bid of the three (3) responsive bids received.

$$\frac{\$500,000.00}{1000 \text{ points}} = \$500.00 \text{ per point}$$

Bidder B

Bidder B submitted a responsive bid at the conclusion of Phase III and achieved a total point rated score of 750 points out of a possible 1000 points. Bidder B's total bid price is \$350,000.00

$$\frac{\$350,000.00}{750 \text{ points}} = \$466.67 \text{ per point}$$

Bidder C

Bidder C also submitted a responsive bid at the conclusion of Phase III and achieved a total point rated score of 625 points out of a possible 1000 points. Bidder B's total bid price is \$300,000.00

$$\frac{\$300,000.00}{625 \text{ points}} = \$480.00 \text{ per point}$$

Therefore, Bidder B's bid represents the lowest evaluated price per point and will be recommended for the award of both the Acquisition contract, and In Service Support contract.

- 4) DELETE Volume 1 Annex A Appendix 1 Financial Calculation "Total Evaluated Price" section, in its entirety; and
- REPLACE the above-mentioned deleted section with the following:
