**TITLE : Aerial Application of Mosquito Larvicide and Areal Surveys
AMENDMENT 003**

Included in the present Amendment :

- Questions and Answers 3 to 8.

Questions and Answers

Question 3

Can Contractor park an RV/motor home onsite?

Answer: Contractor camping is not authorized as this is a national defence base and has controlled access.

Question 4

Can potential bidders obtain the map in special formats (i.e. .SHP)?

Answer: Yes. Other formats are available and can be sent upon request.

Question 5

Positioning states approx. 3 hours to get to base for the winter aerial survey, is that a hard timeframe?

Answer: Section 1.3 of the Specification states it shall not to exceed 12 hours total, with a hard timeframe of maximum 4 hours in-flight survey time over CFB Borden. This leaves 8 hours for fueling & positioning.

Question 6

Does the contractor require special permission for jet fuel onsite?

Answer: Section 1.8(.2) Gasoline may be kept for ready use quantities not exceeding 45 Liters. Flammable liquids exceeding 45 liters will require special permission from CFB Borden Fire Chief.

Question 7

Has the option of 200 ha (summer application) already been exercised in past years for this requirement?

Answer: It has only been exercised once in past years. This requirement is influenced by the seasonal precipitation / temperature along with fiscal budget restraints.

Question 8

Can a portion of the work be done by drone with the same product, namely the VectoBac 200G?

Answer: Not at this present time due to CFB Borden having a no-drone airspace policy. Contractor would have to request special authorization in order to fly drones for application and there is no guarantee it will be supported.

***** All the other clauses and conditions remain unchanged *****
