Amendment 06

This amendment is being raised to distribute the answers to bidder questions.

A) QUESTIONS

Q35 Section 32 92 19.16 does not include the specific seed mix. Can you provide this information?

A35 The seed mix type is indicated as "Type B" in the Basic Impact Analysis Document. Type B mix is as follows:

Agrostis scabra	Tickle grass	40%
Poa palustris	Flow bluegrass	40%
Agropyron trachycaulus var. subsecundus	Awne d wheat grass	20%

Q36 At the site meeting, I understood that an estimate would be provided in the Addendum for quantities of cut, backfill and excess native material based on the Lidar and/or survey data.

I do not see any mention of this topic in the Addendum #2. Is this material to be given in a later Addendum, was it accidentally forgotten from the Addendum #2, or has the project authority decided that it will not be providing this information to the bidders?

A36 This information will not be provided to bidders.

Q37 I'm also wondering about excess common excavation.

In Section 31 14 13 – 3.1.5 – Unused topsoil is to be disposed at Pit 69

Section 31 23 33.1 – 3.9.10 - Surplus excavated material to dispose of off-site

Section 01 14 0 – 1.8.2 – Surplus excavated material to be remove from Banff Park

Is all surplus excavated native material to be removed from Banff Park, or is it to be disposed at 69?

A37 Excess native material is to be stockpiled at the location indicated in Item 3.1.5 of Specification 31 14 13. The provisions of Item 1.8.2 of Specification 01 14 00 applies to disposal of items not specified to be disposed of otherwise in the Specifications.

Q38 Can you please confirm the size of the transmitter panel enclosure, as the BOM on drawing 3084-01-E-501 dictates a width of 60"; however detail #1 on the same drawing notes a 48" wide enclosure.

A38 Revise the dimension indicated in the Bill of Materials on Drawing 3084-01-E-501 to 48" wide from 60" wide.

All other terms and conditions remain unchanged.
