## **Solicitation Amendment #02**

### **I. This document is raised to respond to the following industry questions:**

Q2: How important are the specified footprint requirements?

R2: CCG has reviewed the area and although the height and width dimensions must remain as stated at 41" and 25" respectively, we can allow a length increase of 12 inches to a maximum of 52" as long as all other mandatory requirements are met.

Q3: Per your RFQ, the dimensions are limited to 41" H x 25" wide x 40" L per compressor. My question is, how "firm" are you in this case on dimensions?

R3: CCG has reviewed the area and although the height and width dimensions must remain as stated at 41" and 25" respectively, we can allow a length increase of 12 inches to a maximum of 52" as long as all other mandatory requirements are met.

### **II. For further clarification, the following changes have been made:**

At Annex A:

Delete:

- The footprint of the compressor shall not exceed 41" height x 40" length x 25" width

Insert:

- The footprint of the compressor shall not exceed 41" height x **52"** length x 25" width

**All other terms and conditions remain unchanged.**
