2.3 Former Public Servant

Contracts with former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts with FPS, bidders must provide the information required below.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. "lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means, a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c.P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c.S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c.C-17, the [Defence Services Pension Continuation Act](#), 1970, c.D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c.R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c.R-11, the [Members of Parliament](#)

[Retiring Allowances Act](#), R.S., 1985, c.M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c.C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes** () **No** ()

If so, the Bidder must provide the following information, for all FPS in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Reduction Program

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of a work force reduction program? **Yes** () **No** ()

If so, the Bidder must provide the following information:

- a. name of former public servant;

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

2.4 Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority at least seven (7) calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

2.5 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

PART 3 - OFFER PREPARATION INSTRUCTIONS

3.1 Offer Preparation Instructions

Canada requests that offerors provide their offer in separately bound sections as follows:

Section 1: Technical Offer: two (2) hard copies;
Section 2: Financial Offer: two (2) hard copies; and
Section 3: Certifications: one (1) hard copy.

Prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Standing Offer.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section 1: Technical Offer

In their technical offer, offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section 2: Financial Offer

Offerors must submit their financial offer in accordance with Annex "B" - Basis of Payment. The total amount of Applicable Taxes must be shown separately, if applicable.

Section 3: Certifications

Offerors must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

To be considered compliant, the offer must meet all of the mandatory criteria. In other words, the proposal must demonstrate in writing that the Offeror satisfies all of the mandatory requirements set out below, without exception. If an Offeror does not meet all of the mandatory requirements, the offer will be non-compliant and will not be considered.

Mandatory criteria		Met	Not met	Cross-reference to proposal
M1	Offeror must supply a full list of its inventory that includes ALL the following details: <ul style="list-style-type: none"> a) size b) footprint c) electrical requirements d) delivery method for trailer-mounted units or special units e) pictures for all types of units available

M3	Contractor must demonstrate its capacity to provide service 24 hours a day and 7 days a week in order to respond to emergency calls within 60 minutes.			
M4	Contractor must demonstrate having a minimum of four (4) pumping trucks in order to limit travelling in the streets (e.g. Canada Day).			
M5	Contractor must demonstrate having the necessary equipment to maintain a unit 80 feet away from its pumping truck.			

4.2 Basis of Selection

4.2.1 To be declared responsive, an Offer must:

- (a) Comply with all the requirements of the Request for Standing Offer; and
- (b) Meet all the mandatory technical criteria.

Offers not meeting (a) or (b) will be declared non-responsive. The responsive Offer with the lowest evaluated price as per Annex "C" - Price Evaluation Grid, will be recommended for issuance of a standing offer. The Evaluated price includes the initial period, as well as all option years.

4.2.2 Offerors should note that all contracts are subject to PCH's internal approvals process, which includes a requirement to approve funding in the amount of any proposed contract. Notwithstanding that an Offeror may have been recommended for Standing Offer award, issuance of any Standing Offer will be contingent upon internal approval. If such approval is not given, no Standing Offer will be awarded.

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Offerors must provide the required certifications and additional information to be issued a standing offer.

The certifications provided by offerors to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare an offer non-responsive, will have the right to set-aside a standing offer, or will declare a contractor in default if any certification made by the Offeror is found to be untrue whether made knowingly or unknowingly during the offer evaluation period, during the Standing Offer period, or during the contract period.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Standing Offer Authority will render the offer non-responsive, result in the setting aside of the Standing Offer or constitute a default under the Contract.

5.1 Certifications Required with the Offer

Offerors must submit the following duly completed certifications as part of their offer.

5.1.1 Integrity Provisions - Declaration of Convicted Offences

In accordance with the Integrity Provisions of the Standard Instructions, all offerors must provide with their offer, **if applicable**, the declaration form available on the [Forms for the Integrity Regime](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html) website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

5.2 Certifications Precedent to the Issuance of a Standing Offer and Additional Information

The certifications and additional information listed below should be submitted with the offer, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the offer non-responsive.

5.2.1 Integrity Provisions – Required Documentation

In accordance with the section titled Information to be provided when bidding, contracting or entering into a real procurement agreement of the [Ineligibility and Suspension Policy](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>), the Offeror must provide the required documentation, as applicable, to be given further consideration in the procurement process.

5.2.2 Federal Contractors Program for Employment Equity - Standing Offer Certification

By submitting an offer, the Offeror certifies that the Offeror, and any of the Offeror's members if the Offeror is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list) available at the bottom of the page of the [Employment and Social Development Canada-Labour's](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#s4) website (<https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#s4>).

Canada will have the right to declare an offer non-responsive, or to set-aside a Standing Offer, if the Offeror, or any member of the Offeror if the Offeror is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of issuing of a Standing Offer or during the period of the Standing Offer.

Canada will also have the right to terminate the Call-up for default if a Contractor, or any member of the Contractor if the Contractor is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](#)" list during the period of the Contract.

2. Offerors are reminded to obtain the required security clearance promptly. Any delay in the issuance of a standing offer to allow the successful Offeror to obtain the required clearance will be at the entire discretion of the Standing Offer Authority.
3. For additional information on security requirements, offerors should refer to the [Contract Security Program](http://www.tpsgc-pwgsc.gc.ca/esc-src/introduction-eng.html) of Public Works and Government Services Canada (<http://www.tpsgc-pwgsc.gc.ca/esc-src/introduction-eng.html>) website.

ANNEX "A"

STATEMENT OF WORK

1. SCOPE

1.1 Title

Rental, delivery and maintenance of sanitary equipment.

1.2 Introduction

Canadian Heritage (PCH) is seeking a Contractor capable of providing sanitary equipment rental, delivery and maintenance services during large-scale events in the National Capital Region. The Contractor shall provide, among other things: portable toilets (standard and universally accessible), urinal trees (four urinals), hard wall toilets (with heating, lighting and sink), hand-washing stations, food preparation stations, and clean water and waste water tanks.

1.3 Needs Objectives / Standing Offer Period

The services will be rendered over a period of three (3) years from the date of issue of the standing offer through August 31, 2021, with the possibility of two (2) option years.

For each event, PCH will prepare a precise list of requirements, including the types and quantities of units, the delivery and pick-up dates, and the maintenance needs. Once confirmed, the Contractor will:

- supply clean units in good working order;
- provide deliveries, maintenance and pick-ups according to established schedules;
- provide contact information for a contact person, available 24 hours a day, 7 days a week (name and cellular telephone number);
- provide onsite service within sixty (60) minutes of receiving an emergency call.

1.4 Background

Every year, Canadian Heritage organizes major events in Canada's capital in order to promote active citizenship through civic participation, recognize Canadians' shared values and celebrate the people and events that shape Canada.

Flagship events are Winterlude, Canada Day and Christmas Lights. The purpose of this requirement is to offer sanitary services to visitors and participants during those events. Other punctual events may be added to the requirement on an as-and-when requested basis, in which case, PCH would check the supplier's availability and confirm the requirement through a call-up against the standing offer.

Every event has various sites and locations where sanitary equipment and services are required. As part of some events, the work may have to be carried out simultaneously on more than one site at a time. As a result, two work teams may be required.

The rental period of the equipment ranges from one (1) day to over one (1) month depending on the event and location.

Additionally, the dates and lengths of the events may be adjusted. The Contractor will be notified at least one month prior to the event.

2. Requirements**2.1 Specifications, Tasks and Activities**

All equipment shall be delivered and serviced according to a pre-established timetable that will be provided to the Contractor before every event.

For units that require electricity, the supplier must provide specifications related to the electrical requirements of each unit prior to delivery.

Units may be added, removed and/or modified each year, with no penalties.

2.1.1 Maintenance Services

A maintenance service for any type of unit signifies a septic tank cleanout and refill with deodorizer/disinfectant liquid, complete cleaning of the units and re-stocking of toilet tissue, paper towels and soap or hand sanitizer, as required. The Contractor must be able to provide the cleanout service at a distance of up to 80 feet from its pumping truck.

2.1.2 Janitorial Service

This service is to be provided on the busiest days (e.g. Canada Day). The role of the janitor will then be to ensure the units are kept clean and stocked with paper towels, toilet paper, hand sanitizer and hand soap. This service may be required for longer than eight (8) consecutive hours. The janitor will report to either the site coordinator or the project authority, depending on the site.

2.1.3 Standard Toilet

Industry standard unit that includes a non-flush tank with seat, urinal, hand sanitizer dispenser and toilet paper. There must be an option to have a latch upon specific request.

2.1.4 Universally Accessible Toilet

A UA unit is larger than a standard unit to permit access with a wheelchair or other mobility device. Dimensions should be of at least 62 inches x 62 inches. It includes a non-flush tank with seat, at least one grab bar, a hand sanitizer dispenser and toilet paper. There must be an option to have a latch upon specific request.

2.1.5 Urinal Tree

Unit containing four (4) urinals, that can only accommodate four (4) people at a time.

2.1.6 Single Deluxe Unit

All-season unit with heating, lighting and sink with hot and cold running water. Unit must also include soap, paper towels, toilet paper, mirror and coat hook. The Contractor must provide for the unit's electrical power needs before the event.

2.1.7 Double Deluxe Unit

Trailer-mounted, all-season unit that includes two (2) separate washrooms with heating, lighting and sink with hot and cold running water. Unit must also include soap, paper towels, toilet paper, mirror and coat hook. The Contractor must provide for the unit's electrical power needs before the event.

2.1.8 Hand-Washing Station

Unit consisting of a free-standing station that allows washing of hands. The unit must include a fresh water tank and a separate waste water tank, paper towel and soap dispenser. The unit must not require electrical power.

2.1.9 Double Sink Food Preparation Unit (Hot and Cold Water)

Unit including two (2) sinks, a clean water tank, a hot water tank and a waste water tank. This unit is used for food preparation.

2.1.11 Clean Water and Waste Water Tanks

Tanks with capacities of more than 200 gallons that can be used for food-related or other purposes. They are equipped with heating elements.

The Contractor must fill the clean water tank at delivery.

In winter, the Contractor must provide a heating element to prevent the contents from freezing, for both the clean water and waste water tanks.

2.2 Events

See Annex "C" for estimated requirements for each event.

2.2.1 Canada Day

On July 1st, the Capital comes alive with entertainment, on stage and in the street, concerts and other memorable activities for the whole family. Hundreds of thousands of Canadians get together at the various sites to celebrate Canada's birthday.

Installations are required for an average of 15 days.

For Canada Day, because the circulation in the streets of Ottawa's downtown core can be very difficult, it is required that the Contractor has a minimum of four (4) pumping trucks dispatched at the various sites to limit travelling as much as possible.

The Contractor may need to leave a pumping truck in a "Toilet City" section on Wellington Street for the day, to be able to perform maintenance without having to move the vehicle through the closed streets.

2.2.2 Winterlude

Winterlude celebrates the joys of winter with three fun-filled weeks in February. Canada's favourite winter activities are featured across Ottawa and Gatineau at this annual event.

Installations are required for an average of 30 days.

2.2.3 Christmas Lights Across Canada

During the first week of December, the Christmas Lights Across Canada program kicks off with an official illumination ceremony held on Parliament Hill. Thousands will gather for this annual ceremony.

Installations are typically required for one (1) day.

2.3 Contractor Responsibilities

The Contractor shall:

1. Provide tools, equipment and all personnel needed to transport, install, remove and maintain the sanitary equipment in its entirety;
2. Take precautions to avoid all types of spills and report any spills to a PCH representative immediately, and submit Contractor's policy and full procedure for spills and incidents. PCH shall not be held responsible in the event of a spill. The Contractor undertakes to pay for all the necessary cleaning expenses, as indicated by PCH or the competent authorities, as applicable;
3. Ensure that delivery methods are safe and that vehicles and equipment are clean and in good working order;
4. At all times, exercise good judgement and drive safely on all sites. When driving on an official site during a day of operations, all emergency and warning lights must be operating, a back-up alarm must sound when reversing the vehicle, someone must escort it on foot (wearing a safety vest), and the driver must yield to pedestrians and members of the public;
5. Install the sanitary units at the times and places indicated in the call-up (PCH reserves the right to ask the Contractor to relocate a sanitary unit, at the Contractor's expense, if directions are not followed);
6. Have access to at least one vehicle that can clean a unit at a distance of 80 feet;

7. Ensure that all sanitary equipment is installed safely, and is stable and properly levelled. It is the responsibility of the Contractor to ensure that units remain in this condition for the duration of the event;
8. Respond to emergency calls within sixty (60) minutes at all times and at any hour for the duration of the contract;
9. Be available, as required, to meet with the technical authority and/or site coordinator(s) prior to installation of the sanitary equipment;
10. Make diligent use of event vehicle passes and comply with all rules thereto;
11. Comply with the specific access rules for each of the various sites;
12. Provide the documentation and information needed to enter sites with limited access (Parliament Hill);
13. Provide the documentation and information for vehicles and employees that will need access to sites requiring such documentation and information (Parliament Hill);
14. Submit a list of all cleaning/chemical product used (Material Safety Data Sheets) and a list with basic specification of consumable (e.g. toilet paper, hand towel);
15. Provide sufficient consumables (i.e. toilet paper, towels, soap) to avoid shortage during events.

2.4 Locations of Work

2.4.1 Canada Day sites include, but are not limited to:

- Jacques Cartier Park, QC
- Canadian Museum of History, QC
- Major's Hill Park, ON
- Parliament Hill, ON
- Wellington Street, ON (Toilet City and other facilities)
- Astrolabe, ON
- Victoria Island, ON

2.4.2 Winterlude sites include, but are not limited to:

- Jacques Cartier Park, QC
- Confederation Park, ON
- Rideau Canal Skateway (RCS), ON

2.4.3 Christmas Light Across Canada ceremony site is, but is not limited to:

- Parliament Hill, ON

2.5 Other Site Specifics

To access Parliament Hill, the Contractor will have to provide PCH with relevant vehicle information such as vehicle type and model, licence plate number, drivers' names and time of entry at least 48 hours before the access is required. This information will be forwarded to the authorities in order to permit access.

Toilet City is the site located on Wellington Street in the parking lot of the old US Embassy. The equipment (more than 30 units) for this location is to be delivered after 5 p.m. on June 30 and picked up before 6 a.m. on July 2 (these dates and times may be modified based on each year's requirements).

2.5 Technical Environment

The Contractor shall understand that, for summer and winter events, they are expected to adapt and work under variable and unpredictable weather conditions. The sanitary equipment will be installed on a variety of surfaces, particularly on paved, grassed, snow or ice-covered surfaces. The Contractor may need to level the units depending on the terrain.

The Contractor shall provide equipment that is clean and in good working condition. This includes the vehicles that are to be used for deliveries and services.

The Contractor shall understand that they are also expected to work on variable schedule, in large crowds and that safety must remain a priority for all deliveries or maintenance services on the event sites. The Contractor may be asked to provide an escort (wearing a safety vest) for the vehicle when moving through crowds. If a security issue should arise, the Contractor may need to replace an employee who has been denied access to a site.

During events, some streets surrounding the sites are closed to traffic. The Contractor will receive passes to have access within street closures for the purpose of the work related to this standing offer only. Without exception, each vehicle must have a copy of the pass; otherwise it may be denied entry.

3. Other Terms and Conditions

3.1 Safety Requirements

Any Contractor working for PCH shall comply with all federal, provincial and municipal legislation and regulations concerning occupational health and safety. In the event of a discrepancy between any of said legislation or regulations regarding the same topic, the most stringent of the provisions shall apply.

The Contractor acknowledges that some work sites, or delivery sites may be considered construction sites according to federal, provincial and municipal legislation and regulations, and that, as such, the Contractor is bound to apply the occupational health and safety legislation and regulations that apply to the construction industry.

The Contractor must ensure that its team members have the necessary equipment (work boots with protective plates, safety vests and safety helmets). Personnel not in compliance with the safety rules may be denied access.

The Contractor is responsible for all expenses related to compliance with federal, provincial and municipal occupational health and safety legislation and regulations (including those provisions that apply to the construction industry).

3.2 Special Requirements – Parliament Hill

For security reasons, the installation of all units delivered on or around Parliament Hill may need to occur separately from their initial filling with deodorizer/disinfectant liquid so that the authorities may inspect the units before the product is filled. The Contractor will be informed of such a requirement at least 24 hours prior to delivery.

On Parliament Hill, Public Services and Procurement Canada (PSPC) acts as the “designed Constructor” of the site. Therefore, PSPC requires specific (mandatory) documentation from all of PCH’s contractors.

The following documents will be required from the Contractor at least four (4) weeks before any work (or delivery) is done on Parliament Hill. Up-to-date documents will have to be supplied for every year of the Agreement:

- WSIB Certificate (or proof of coverage from a private company);

- Names and dates of birth of all employees;
- WHMIS & Fall Protection Cards (all employees);
- First Aid Certification Card;
- Other certificates where required (Confined Space, Man Lift, Asbestos, etc.).

Additionally, any units requiring an electrical connection will need to have recognized certification from the manufacturer or, if the electrical assembly was designed and installed by the Contractor, it must prove that the unit meets standards by means of prior inspection by the competent authorities (Canadian Standards Association – CSA, Underwriters Laboratories of Canada – ULC, ETL(c), TUV certification, Electrical Safety Authority – ESA, etc.).

3.3 Language of Work

English or French. No specific language is required, as the Contractor will not have to deal directly with the public.

4. Resources Required

The Contractor must supply the manpower, transportation and equipment needed to deliver, install, maintain and dismantle some or all of the requirements.

The Contractor will be responsible for housing, feeding and/or providing allowances to those employees.
