## **REVISION 005**

This Revision answers questions.

### **A. Questions & Answers**

- Q34.** For the Senior Scientist – specialized in Chemistry, is a Professional Chemist designation required? Is a different professional accreditation sufficient (e.g. geoscientist), with a specialization in contaminant chemistry?
- A34.** Yes, a certified chemist or scientist with appropriate experience is acceptable.
- Q35.** Can Parks Canada indicate at what end point a risk assessment project is deemed complete? Would it be considered complete at the time of report completion, or is regulatory approval and/or site certification required?
- A35.** At the time of completion of the report.
- Q36.** Can Parks Canada provide details as to what the expectations are for the Senior Environmental Technician role? Would this be a senior field supervisory role or a senior technical office role?
- A36.** Senior field supervisory position.
- Q37.** Can Parks Canada confirm if past experience (SRE 3.2.3) can include projects completed by sub-contractor(s), if the sub-contractor(s) are key personnel as per SRE 3.2.4?
- A37.** Yes, a subcontractor can be used as a key staff member of the sponsor. Past experience may therefore include projects carried out by subcontractors.

***All other terms and conditions remain the same.***
