### Answers

- A1. Only the existing light and batteries from each existing tower are to be returned to CCG in Parry Sound.
- A2. A drawing of the daymarks to be retrieved by contractor has been included with this amendment, please refer to it for dimensions. Assume that each daymark will be fabricated in one piece and that they will each weigh approximately 250 lbs (114 kg). Only the two (2) daymarks and their associated hardware are required to be retrieved by contractor at CCG Base Parry Sound.
- A3. Contractor shall be responsible for setting up the temporary aid, as per section 133613 of the SOW. The temporary tower will not require anchors but a suitable base, likely to be made of timber shall be provided by contractor.
- A4. Coast Guard is responsible to install and connect all electrical equipment on the towers. As such, time for these activities shall be included in the schedule as per the contract documents.
