Amendment 001

This amendment is issued to revise Optional Site Visit date and time and to provide response to a question.

SI03 OPTIONAL SITE VISIT

Delete: in its entirety

Insert :

1. It is recommended that the Bidder or a representative of the Bidder visit the work site. Arrangements have been made for the site visit to be held at Fireside Maintenance Camp Remediation, KM 839, Alaska Highway, BC on **05 July 2018**. The site visit will begin at **14:00 PDT**, in Fireside Maintenance Camp Entrance.
2. Bidders may be requested to sign an attendance sheet. Bidders who do not attend or do not send a representative will not be given an alternative appointment but they will not be precluded from submitting a bid. Any clarifications or changes to the bid solicitation resulting from the site visit will be included as an amendment to the bid solicitation.
3. Safety Attire: In order to be guaranteed access to the site visit all persons should have the proper personal protection equipment (safety glasses, footwear, vests and hard hats etc.). Contractor's personnel/individuals who do not have the proper safety attire may be denied access to the site. (to be confirmed with PM)

Question and Answer:

Question: I would like to inform you that we have colleagues in who are involved in the consulting project and risk assessment of the site. The project has just started and are within the data review and knowledge transfer stage between the previous consultant and our consulting team.

The personnel involved with the bid for both solicitations EZ897-190488/A are not, will not, and have not been involved in the consulting project. Furthermore, bid team will not communicate or have any interactions with our consulting team. I trust these measures will address any conflict of interest concerns and will allow us to submit a bid response that will not be rejected.

Answer: In light of GI17 Conflict of interest—unfair advantage, what contractor is proposing appears reasonable and the bid will not be rejected.

All other terms and conditions remain unchanged.
