**This amendment is being issued in response to Bidder's questions and Canada's responses.**

Annex B

Q1. The table is set as if the cost per site would be standardize and not specific to the list of equipment to evaluate in each location. The work required for testing an equipment is type dependent; it is therefore difficult to come up with a single cost no matter the site. Even though, is this what you're are looking for?

A1. Yes, this is what we're looking for.

Q2. Travel time (and cost) is different from site to site and may represent an important part of the total cost. Do you require us to fix a mean cost and apply it to each site?

A2. Yes, we are looking for a firm unit price, which includes all associated costs (such as travel) as specified in Annex B, regardless of the site.

Annex E

Q3. Do we understand that this annex list all type of equipment that could be found at least at one site?

A3. Yes

Q4. Is a specific inventory per site available? If not, can we have an estimate number of equipment per site?

A4. Yes, a specific list is available per site and will be made available by the site representative upon award of the contract. Additionally we provide the following chart to show both the current # of equipment per site as well as the potential number of equipment (Range) per institution/site. Bidders should consider both aspects in the formulation of their firm unit prices.

Institution/site	Current # Equipment	Potential # Equipment (Range)
Bath Institution	33	30-40
Fenbrook Institution (clustered site)	32	30-40
Collins Bay Institution (Minimum security)	19	15-25
Collins Bay Institution (Medium security)	54	50-60
Grand Valley Institution for Women	29	25-35
Joyceville Institution (Minimum security)	27	20-30
Joyceville Institution (Medium security)	32	30-40
Millhaven Institution	35	30-40
Regional Hospital (located at Millhaven Institution)	25	20-30
Regional Treatment Centre	46	40-50
Warkworth Institution	54	50-60
<b>TOTAL</b>	<b>386</b>	<b>340-450</b>
