

**Part 1 General**

**1.1 SUMMARY**

- .1 This section specifies requirements when roadway traffic is to be accommodated during construction.

**1.2 REFERENCE STANDARDS**

- .1 Do traffic regulation in accordance with Manual of Uniform Traffic Control Devices for Canada, 2014. (distributed by Transportation Association of Canada), except where specified otherwise.

**1.3 PROTECTION OF PUBLIC TRAFFIC**

- .1 Comply with requirements of Acts, Regulations and By-Laws in force for regulation of traffic or use of roadways upon or over which it is necessary to carry out Work or haul materials or equipment.
- .2 When working on temporary access roads:
  - .1 Place equipment in position to present minimum of interference and hazard to travelling public.
  - .2 Keep equipment units as close together as working conditions will permit.
  - .3 Keep temporary roads well graded, free of pot holes and of sufficient width.
  - .4 Provide and maintain reasonable road access and egress to roads in the vicinity of the Work under Contract.
- .3 When working on travelled way:
  - .1 Place equipment in position to present minimum of interference and hazard to travelling public.
  - .2 Keep equipment units as close together as working conditions will permit and preferably on same side of travelled way.
  - .3 Do not leave equipment on travelled way overnight.
- .4 Do not close any lanes of road or highway without approval of Departmental Representative. Before re-routing traffic erect suitable signs and devices in accordance with instructions contained in Manual of Uniform Traffic Control Devices for Canada, 2014. Provide sufficient crushed gravel to ensure a smooth riding surface during Work.
- .5 Keep travelled way well graded, free of pot holes and of sufficient width that required number of lanes of traffic may pass.
- .6 Provide and maintain reasonable road access for public traffic and egress to property fronting along or in vicinity of Work under Contract unless other reasonable means of road access exist.

**1.4 OPERATIONAL REQUIREMENTS**

- .1 Maintain existing conditions for on-site traffic movement throughout period of Contract.
- .2 Contractor is responsible for provision of all necessary controls when working on or in the vicinity of public roadways. This includes but is not limited to signs, flag men, permits etc.

**1.5 INFORMATIONAL WARNING DEVICES**

- .1 Provide and maintain signs and other devices required to indicate construction activities or other temporary and unusual conditions resulting from project work which may require road user response.
- .2 Supply and erect signs, delineators, barricades and miscellaneous warning devices as specified in Manual of Uniform Traffic Control Devices for Canada, 2014.
- .3 Place signs and other devices in locations recommended in the preceding clause.
- .4 Meet with Departmental Representative prior to commencement of work to prepare list of signs and other devices required for project.
- .5 Continually maintain traffic control devices in use by:
  - .1 Checking signs daily for legibility, damage, suitability and location. Clean, repair or replace to ensure clarity and reflectance.
  - .2 Removing or covering signs which do not apply to conditions existing from day to day.

**1.6 BASIS FOR PAYMENT**

- .1 No separate payment will be made for items specified under this section.

**Part 2 Products**

**2.1 NOT USED**

- .1 Not Used.

**Part 3 Execution**

**3.1 NOT USED**

- .1 Not Used.

**END OF SECTION**
