**RE: RCMP RESOURCE CENTRE - INTERIOR RENO  
S+A PROJECT # 17342.001.E  
LUMINAIRE PACKAGE**

Dear Mrs. Gagnon:

We have reviewed the request for approval for the luminaires L1 through L6 on the above project. We find this equal to be acceptable.

Because of the wide ranges of products and options available from each manufacturer, it is the responsibility of each supplier to ensure that the items quoted meet or exceed the standards of the specified product. This includes such areas as appearance, size, weight, performance, noise generation, efficiency and options.

The manufacturer, if successful, shall be required to meet all requirements of the projects' General Conditions. Products not meeting all specified standards will not be acceptable.

Yours truly,

SMITH + ANDERSEN

Andrei Aroutiounov, P.Eng.

Senior Project Manager - Electrical
