

ADDENDUM
CONTRACT W0106-19-EMQ/1

TO ALL BIDDERS

Please note that buildings below will be added to the contract on these dates below :

– April 1st, 2019

85, 93, 97, 98, T-142, 143, 236, 306, 333, 334, 501, 502, 503, 505, 538, 539, 540, T-548, T-551,
596-597, T-596D, 628, 633, 657, 693, 694, 695, CSEM 3 and CSEM 4.

– May 1st, 2019

5, 7, 10, 76, 103, 104, 117, 202, 302, 504, 510A, 510B, 510C, 511A, 511B, 511C, 515, 521, 531,
532, 533, CSEM 1, CSEM 2, CC9, CC15, CC101, CC102, CC103, CC104, CC105, CC106,
CC107, CC108, CC109, CC110, CC111, CC112, CC113, CC114, CC115, CC116, CC117,
CC118, CC119 and CC120.

– July 1st, 2019

260, T-261, 274, 276, 308, 310, 311, 312, 313, 314, 323, 362, 363, 364, 366 and 367.

Annex A

MINISTER OF NATIONAL DEFENCE Real Property Operations Unit (Quebec)

**BID SOLICITATION FOR SPECIALIZED SERVICES
No: W0106-19-EMQ/1
FOR SANITARY MAINTENANCE
ESTABLISHMENT – 100**

CFB Valcartier 2019

<BID PACKAGE>

***Real Property Operations Detachment Valcartier*
Housekeeping
PO Box 1000, Station Forces
Courcelette, QC
GOA 4Z0**

Note: Masculine pronouns used in this document refer to both male and female persons. Similarly, the singular includes the plural and vice versa.

SECTION 3: <Financial bid> from bidder
Breakdown of costs associated with the technical specifications
Summary table of periodic work costs by sector
Breakdown of periodic work costs by sector
Price forms for set-rate work

SECTION 1

DEFINITIONS

1.1 Definitions

In this <bid package>, the terms and expressions, unless it is otherwise indicated or they are incompatible with the context, can be defined as follows:

<**Book of basics**> refers to the general and specific conditions related to the work to be performed in this <contract>.

<**Bid package**> refers to this document, which includes the submission requirements, procedures and bid evaluation as well as the <financial bid>.

<**Contract**> refers to the sanitary maintenance <contract>.

<**Foreman**> refers to the person in charge of all the sanitary maintenance activities in the building. Specifically, he/she is responsible for

- Planning and organizing maintenance activities.
- Ensuring that the work is performed.
- Checking the quality of the work.
- Supplying the service effectively.

<**Bid or proposal request**> refers to the entire document and includes the instructions to bidders and the annexes for which the bidders submit a bid.

<**Technical specification by prototype**> refers to the tasks related to the routine, monthly and periodic work.

<**Contractor**> refers to the person or body who was issued the sanitary maintenance <contract>.

<**FTE**> is an acronym that stands for FULL-TIME EQUIVALENT, which is defined as the number of part-time or full-time personnel work hours equivalent to one person working **40 productive hours** over one work week in order to perform the routine work described in the specifications. The <FTE> is calculated by the <PROPRE software> based on the detailed information on the work to be performed and the spaces to be cleaned.

<**PROPRE software**> refers to the software used by Canada to assess standard times, the production needs required based on the area, the type of floor, and the tasks and task schedule for maintaining the various premises. In addition, it makes it possible to establish financial performance in addition to reaching the requested level of performance.

<**Financial bid**> refers to all prices included by the bidder in section 3 of the <bid package>.

<**Cleaning personnel**> refers to the employees assigned to the heavy duty work associated with the routine and monthly tasks.

<Maintenance personnel> refers to the employees assigned to the light duty work associated with the routine and monthly tasks.

<Prototype> refers to all of the spaces (premises) with similar or identical functions that require the same type of maintenance at the same cleaning frequencies, unless the specification includes specific instructions by sector and/or space.

<Flooring> refers to the floor covering.

<Bid> refers to all of the information quoted by the <bidder>, including the technical bid and the <financial bid>.

<Bidder> refers to the person or body who submitted the <bid> in the aim of winning the sanitation <contract>.

The **<successful bidder>** refers to the person or body whose <bid> has been retained for the execution of the sanitation <contract>.

<Surface area> refers to the floor <surface area>.

<Supervisor> refers to the <foreman>'s assistant. He/she is responsible for supervising the regular and annual work teams. The <supervisor> can be part of the work routes, and he/she is responsible for ensuring that the work is executed and that it is of a high quality.

<Routine and monthly work> is identified in the <technical specifications by <Prototype>> (section 7.6 in the <book of basics>)

<Set-rate work> is identified in section 3, page 138, of the <bid package>.

<Periodic work> refers to the tasks associated with the annual work (see the BREAKDOWN OF COSTS ASSOCIATED WITH <PERIODIC WORK> tables).

SECTION 2

SUBMISSION REQUIREMENTS

<BID> PROCEDURES AND EVALUATION

- 2.1 In his/her technical <bid>, the <bidder>s must meet all of the mandatory technical requirements of this request for proposal and supply the documentation that proves his/her compliance with those requirements.
- 2.2 The <bidder> must fill out all of the cells of the <bid package> table (section 3, page 2), save for those that are highlighted:
 - ✓ The annual time and cost (see minimum required hours, based on the <PROPRE software>, of the <cleaning personnel> and <maintenance personnel> for the routine and the monthly work).
 - ✓ The annual cost of chemical products and equipment.
 - ✓ The annual cost of sanitary supplies.
 - ✓ The annual time and cost for the <periodic work> planned annually.
 - ✓ Supervision, if applicable.
 - ✓ The cost of the hotel service, if applicable.
- 2.3 The <bidder> is responsible for assessing the work requested in the specification before entering the number of hours in the appropriate box. In addition, the <bidder> must take into account the work assessment to determine the annual usages and must not limit the assessment to the <FTE> or the minimum supervision ratios, as those are minimum requirements.
- 2.4 The <FTE> corresponds to the annual minimum number of work hours (routine, monthly or periodic) that must be performed by the <cleaning personnel> and the <maintenance personnel> on site in order to perform the routine work described in the specification. The <PROPRE software> calculates the <FTE> based on detailed information about the work to be performed and the areas to be cleaned. The software does not account for indirect costs (vacations, sick leave, travel time, meal breaks and any other non-productive time).
- 2.5 The minimum <FTE> is a mandatory financial obligation aimed at ensuring fairness for all <bidder>s and Canada for the entire duration of the requirement in question. The <bidder> is responsible for submitting an adequate number of hours to perform the routine work and adhere to the minimum number of annual <FTE>s for the duration of the <contract>. If the supplier has not specified the number of hours required to perform the routine work in his/her bid, Canada will not grant the bidder extra hours for that purpose.
- 2.6 Concerning the supervision ratio, 15 <FTE>s cannot be counted for a <supervisor> who is supervising 15 people on site. The number of <supervisor>s is determined based on the organizational structure of the supplier's workforce (permanent or part-time personnel, periodic work, hours during the weekend or overtime hours).
- 2.7 The prices quoted in the <financial bid> of the <successful bidder> and the annual cost of chemical products and equipment for the routine and monthly work related to the <technical specification by <prototype>> will be broken down by <prototype> on the basis of the standard times in the <PROPRE software>.
- 2.8 This breakdown, set out in paragraph 2.7 above, will make it possible to properly

adjust the costs in the event of amendments to the <technical specification by <prototype>> of certain <prototype>s based on their unit costs rather than on an average unit cost for the entire establishment, as described in sections 3.2 and 3.3 of the <book of basics>.

2.9 **EVALUATION PROCEDURES**

2.9.1 The <bid>s are evaluated based on all of the requirements of the <bid> request, including the technical and financial evaluation criteria.

2.9.2 The <bid>s that does not meet all of the mandatory technical and financial criteria will be deemed non-compliant and given no further consideration.

2.10 **TECHNICAL EVALUATION**

Mandatory technical criteria

2.10.1 Supplier possesses 2 consecutive years of janitorial services experience within the last 5 years on contracts of similar size and scope to the requirement indentified in the solicitation. Similar in size and scope is defined as:

- A space that is a minimum of 50% of the size (m2) and;
- A space of similar use or type (e.g. office space, lab space)

2.11 **FINANCIAL EVALUATION**

Mandatory financial criteria

2.11.1 The <bidder> must provide all of the required information in the non-highlighted cells of the tables in section 3 of this <bid package>. If any information is omitted, the <bid> will be deemed non-compliant and will not be given any further consideration (if a simple addition or multiplication is omitted, it will not be considered an omission).

The <bidder> must not change the format or distribution units in the table.

2.11.2 The number of hours that the <bidder> writes in section 3, page 2, line 1, under routine and monthly work (<maintenance personnel> and <cleaning personnel>), may exceed but must not be less than the number of <FTE> hours (hours per year).

2.11.3 The number of hours that the <bidder> includes in section 3, page 2, line 5, under <periodic work> (<maintenance personnel> and <cleaning personnel>), must not be less than the number of <FTE> hours (hours per year).

2.11.4 The number of hours that the <bidder> puts in section 3, page 2, line 6,

under supervision and support (<Foreman>), may exceed but must not be less than the number of <foreman> hours (hours per year)

2.12 **SELECTION METHOD**

A <bid> must meet all of the requirements of the <bid> request (technical and financial evaluation criteria) to be considered responsive (compliant). The lowest responsive (compliant) <bid> will be recommended for the awarding of the <contract>.

See Excel file in attachment for:

SECTION 2

INFORMATIONS FOR BIDDER

2.0 **INFORMATIONS FOR BIDDER**

2.1 **GENERAL**

The instructions for BIDDER, the general and specific terms and conditions, the bid documents and the technical specifications are an integral part of this proposal.

2.2 **DEFINITIONS**

2.2.1 **Manager**

Manager means the technical authority, who is the Contract Officer of the Real Property Operations Detachment Valcartier, Department of National Defence, representing the Minister, or his designated representative.

2.3 **FORMS**

CONTRACTORS should use the bidding forms prepared by the CANADA for the purpose, complete them legibly and include all the information requested.

2.4 **MEASUREMENTS OF FLOOR SURFACES AND IDENTIFICATION OF BUILDING AREA**

Measurements of floor surfaces provided in the document are approximate.

2.5 **KNOWLEDGE AND INTERPRETATION**

The BIDDER shall take cognizance of all and every clauses(s) of technical specifications and bid package.

2.6 **PRICE**

It is the responsibility of the BIDDER to take into account in their bids the possibility of an amendment to the Decree Respecting Building Service Employees in the Montréal or Québec Region (c. D-2, r.15 or r.16), with regard to either pay or benefits. The CANADA will not, at any time during the year covered by the contract, make any financial adjustment to compensate for such an increase, except under the conditions specified in paragraph 2.7.

2.7 **INDEXATION**

The prices bid will be indexed every year, from the first day of an extension to the new contract year as per the corresponding contractual clause.

SECTION 3

GENERAL REQUIREMENTS

3.0 **GENERAL REQUIREMENTS**

3.1 **BUILDING AREA TO BE MAINTAINED**

The CONTRACTOR shall undertake to maintain all the physical premises included in the list of spaces. The CONTRACTOR shall undertake to supply all materials, equipment and labour required to carry out the work described in the technical specifications by prototype and the contract documents and all other work that, although not specifically mentioned, may be implicitly understood to form part of the work.

3.2 **BREAKDOWN OF QUOTED PRICES FOR ROUTINE AND MONTHLY WORK**

The prices quoted for routine and monthly maintenance as well as chemical products and equipment set out in the technical specifications by the CONTRACTOR (the winning contractor) will be broken down per prototype based on standard times of PROPRES software under the responsibility of the manager. This breakdown will later be used in the course of the contract to calculate adjustments as necessary should changes be made to the list of areas and/or to the specifications.

The CANADA will apply the following rules to the breakdown of the successful bid and its financial impact on changes that occur during the term of the contract.

3.2.1 **Information about the Breakdown Method for Routine and Monthly Work (example: section 3, page 3)**

The purpose of this formula is to ensure equity and a fiscal balance at all times with regard to the prices proposed by the CONTRACTOR in the event that changes are made during the term of the contract. The manager will break down (subdivide) the total amount submitted by the CONTRACTOR for costs associated with routine and monthly maintenance as well as chemical products and equipment listed in the documentation of the present demand:

- area by prototype (m²)
- the bid amount (\$/year)

This will be done using PROPRES software that will calculate and present this breakdown by prototype, based entirely on the price bid by the CONTRACTOR. The exercise involves breaking down the global price for routine and monthly maintenance by prototype in order to determine the annual unit cost of each one.

EXAMPLE

CONTRACT PRICE BREAKDOWN BASIC ANALYSIS CONDUCTED June 1st 2018 THIS CONTRACT IS FOR \$50,000.00					
CODE	DESCRIPTION OF PROTOTYPE	AREA		AMOUNT	
0100	VEHICLE SHEDS, HANGARS AND TRAFFIC	73.20 m ²	0.26%	\$95	0.19%
0150	INDOOR MILITARY EXERCISE ROOMS	2,662.20 m ²	9.14%	\$3,548	7.10%
1070	TOILETS, BATHROOMS AND/OR SHOWERS	59.44 m ²	0.20%	\$926	1.85%
1110	UTILITY STORAGE AREAS (eg, stationery)	19.40 m ²	0.07%	\$29	0.06%
1140	LOUNGES AND REST ROOMS	29.72 m ²	0.10%	\$180	0.36%
1150	DINING ROOMS	31.58 m ²	0.11%	\$210	0.42%
1240	EXAMINATION, TREATMENT OR THERAPY ROOMS	20.50 m ²	0.07%	\$189	0.38%
1311	RECEPTION, ADMISSION AND SECRETARIAL ROOMS	54.20 m ²	0.19%	\$449	0.90%
1320	OFFICES AND OFFICE SPACE	3,188.17 m ²	10.95%	\$10,170	20.34%
1340	MEETING ROOMS, CLASSROOMS OR COMPUTER ROOMS	817.24 m ²	2.81%	2,067\$	4.13%
1390	CAFETERIAS AND SNACK BARS	89.60 m ²	0.31%	\$942	1.88%
1430	ARCHIVES AND FILM LIBRARIES	15.80 m ²	0.05%	\$50	0.10%
1510	LIBRARIES	94.74 m ²	0.33%	\$309	0.62%
1530	GYMNASIUMS AND PALESTRAS	137.10 m ²	0.47%	\$443	0.87%
1531	SQUASH COURTS	172.00 m ²	0.59%	\$394	0.79%
1600	LOBBIES, ENTRANCE TUBES AND ENTRANCE HALLS	114.80 m ²	0.39%	\$673	1.35%
1611	CORRIDORS AND EMERGENCY EXITS	1,157.70 m ²	3.98%	\$3,828	7.66%
1620	MAIN STAIRS	121.99 m ²	0.42%	\$650	1.30%
1630	SECONDARY AND EMERGENCY STAIRS	17.40 m ²	0.06%	\$37	0.07%
1651	TOILETS	540.20 m ²	1.86%	\$7,480	14.96%
1660	SHOWER ROOMS	36.00 m ²	0.12%	\$846	1.69%
1681	MESSES, COMMON ROOMS AND KITCHENETTES	3,279.74 m ²	11.26%	\$12,088	24.18%
1700	<u>Amphitheatres and auditoriums</u>	63.20 m ²	0.22%	\$320	0.64%
1710	CLOAKROOMS AND LOCKER ROOMS	188.90 m ²	0.65%	\$1,382	2.76%
1730	HOISTS	4.40 m ²	0.02%	\$93	0.19%
1740	SANITARY MAINTENANCE ROOMS	132.82 m ²	0.46%	\$1,883	3.77%
1760	QUARTER MASTERS, DEPOTS AND STORES	223.80 m ²	0.77%	\$114	0.23%
1820	MECHANICAL AND ELECTRICAL ROOMS	13.00 m ²	0.04%	\$1	0.00%
1991	SERVICES ON REQUEST (Frequency indicated)	823.78 m ²	2.83%	\$615	1.23%
1999	SELF-CONTAINED SPACES	14,937.43 m ²	51.30%	\$0	0.00%
TOTAL		29,120 m²	100%	\$50,000	100%

In short, this formula allows full compliance with the amount quoted by the CONTRACTOR (the winning BIDDER) and to break it down by prototype in a balanced manner. It also allows for an appropriate adjustment of costs when the list of areas and/or specifications for certain prototypes are amended, using as a basis the standards time of PROPRE software. This applies only to routine and monthly maintenance.

3.3 **ADDITIONS OR REMOVALS**

3.3.1 **Preamble**

During the term of the contract, the Manager may make changes to the original maintenance specifications. Although these changes may vary, they have a similar effect on the total price bid for the technical specifications (routine and monthly maintenance) of the contract (upward or downward effect).

It is up to the Manager, with the approval of Public Works and Government Services, to determine the financial impact of the desired changes and to notify the CONTRACTOR accordingly when submitting the new maintenance specifications.

The financial impact is calculated on the basis of the pre-established rules described below. The PROPRES software program is used to make these calculations in a manner equitable to both parties.

The following rules apply to the calculation of contract price adjustments when changes are made in the specifications.

3.3.2 **Size of area to be maintained**

If the Manager wishes to make changes to the size of the area to be maintained, the software will automatically compute the new cost of maintenance for the prototypes concerned and for the overall contract by making a new analysis of the workload expressed in terms of cost, while continuing to comply with the amount quoted initially for the technical specifications (routine and monthly maintenance).

3.3.3 **Change in use made of an area**

In the same way, when the use of a given area changes (example: warehouse changed for washroom), the Manager assigns a new prototype to it and the software will automatically compute the new cost of maintenance of the prototypes concerned and of the overall contract by making a new analysis of the workload expressed in terms of cost.

3.3.4 **Specific changes in the specifications**

The Manager can also request other changes. The change that is the most often requested is a change in the interval between work tasks in the specifications of a prototype.

In such cases, the annual cost of the prototype in question and the overall price stated in the technical specifications (routine and monthly maintenance) of the contract will be readjusted up or down to reflect the change in the maintenance work request.

How is the new price calculated?

The formula used to calculate the new price is very simple because the software works by comparison. It begins by determining the workload in relation to the original specifications which it then compares to the workload related to the new specifications. The result of this comparison makes it possible to identify the variation of the request for maintenance work

and to make the necessary adjustments to the price of the prototype and the overall price of the contract for the technical specifications section.

For example, if the software estimates that the change to the specification will mean a 10% increase in the workload, the price will be automatically increased by 10%. The same principle applies if there is a decrease in the workload.

Workload estimates made by the software are used to weight the importance of each task in the specification and determine the relative impact should any of them be changed. These before and after estimates ensure absolute fairness for both parties when contract costs are adjusted because users cannot intervene in any way to change the criteria used by the software.

The parties also agree that financial adjustments associated with the addition or subtraction of tasks in the specifications take effect only on the 30th day of each month.

However, interior work involving space fit-up changes, repairs and maintenance will not be added to the work included in the contract.

3.4 **PERIODIC WORK**

3.4.1 In these specifications, PERIODIC work, for which the job description can be found in the bid submission kit, shall be carried out only at the request of the Manager with a purchase order. The successful bidder must have this work carried out by a special team other than the employees assigned to daily tasks.

3.4.2 **Cost of PERIODIC Work**

The successful bidder must include a cost for each annual task associated with each area in the bid submission kit. The costs submitted must include materials, tools, labour, supervision, administration and profits.

3.4.3 **Changes to the Frequency of PERIODIC Work**

The CANADA does not commit in any way to carrying out the PERIODIC work either in whole or in part. However, the Manager could use the annual prices to have certain tasks carried out more than once per year.

3.4.4 **Modification to the Area of PERIODIC Work**

If the Manager wishes to make changes to the surface area to be cleaned, or add new areas, the new maintenance cost of PERIODIC work shall be modified based on the cost per m² tendered in the summery table of PERIODIC work included in the bid submission kit.

It is the Manager's responsibility to determine the monetary impact of the desired changes and to notify the CONTRACTOR accordingly.

3.4.5 **Other work**

In cases where the Manager has to have work of any kind carried out, the CONTRACTOR shall in no way hamper the proper execution of this work. He shall comply with the Manager's orders.

3.4.6 **Maintenance of construction zones or work area**

The maintenance of the work area shall be the responsibility of the CONTRACTOR at all times. However, the CONTRACTOR may stop maintaining construction zones or work area only when the instructions are clearly defined by the Manager.

No compensation will be paid for extra work due to construction zones or work area, even with respect to area that are indirectly affected, except if exceptional situations occur.

3.5 **INVOICING INSTRUCTIONS**

- 3.5.1 Payment under this contract shall be made according to the following criteria:
- 3.5.2 **Payment of work stated in the technical specifications:** Payment for routine and monthly maintenance and for chemical products and equipment listed in the bid's technical specifications shall be made in twelve (12) equal consecutive instalments.
- 3.5.3 **Invoicing of additional costs:** Additional payment for sanitary supplies shall be paid out in twelve (12) equal consecutive instalments.
- 3.5.4 **Invoicing of periodic work:** Periodic sanitary maintenance, shall be invoiced on demand according to the requisition number (work order) sent by the Manager. In other words, annual maintenance for an area will only be paid after work has been completed and signed off by the Manager, and only as bid in the breakdown of costs by area for annual work, as listed in the bid submission kit.
- 3.5.5 An invoice must be submitted at the end of every month, using the contractor's form, and the invoice must contain the following information:
 - a. Name and address of company
 - b. Contract number
 - c. File number
 - d. Destination and date of delivery of services
 - e. Invoice serial number and date of the day
 - f. Cost of services provided under the specifications (breakdown of contract price)
 - g. Cost of sanitary products
 - h. IPC (If applicable)
 - i. Any modification of the contract (if applicable)
 - j. Sub-total before GST and QST
 - k. Amount of GST and QST
 - l. Total of invoice
 - m. GST registration number

3.5.5.1 The contractor shall provide with his monthly invoice a list of all employees in this contract.

3.5.6 Invoicing for periodic work includes the information listed in the preceding paragraph as well as the following items:

- a. the requisition number (work order)
- b. the work performed;
- c. the area where the work was performed;
- d. the date the work was performed.

3.5.7 The **original invoice** and the reports must be sent to:

Mme France Larin
Cleaning Inspector
Valcartier Garrison
Building 72
PO Box 1000 – Station Forces
Courcelette, P.Q. G0A 1R0

3.6 **CONDITION OF BUILDING AREA**

When the CONTRACTOR is awarded the contract, he has already seen and accepted the condition of the buildings to be maintained. It is clearly understood that the Manager will not pay the CONTRACTOR any additional money for errors and/or omissions in sanitary maintenance of the premises made by the previous CONTRACTOR.

Should the CONTRACTOR notice abnormalities or defects, he must notify the Manager in writing within thirty (30) days of the contract being awarded to avoid being held responsible later on.

3.7 **SET-RATE WORK AND ADDITIONAL WORK NOT STIPULATED IN THE SPECIFICATION**

Only set-rate work and additional work requested in a purchase order by the Manager shall be paid for based on unit prices or rates specified in the bid package. The CONTRACTOR, on the manager request, must provide, with the invoice, a list of hours worked for each employee.

3.8 **REQUIREMENTS AND RESPONSIBILITIES**

3.8.1 **CONTRACTOR'S Responsibilities**

3.8.1.1. Further to the principal responsibility of providing sanitary maintenance services for Real Property Operations Det Valcartier, Department of National Defence, which involves maintaining a standard of quality with respect to the cleanliness of the buildings areas, the CONTRACTOR undertakes, in meeting the terms and conditions of the contract, to do everything in his power to properly discharge this responsibility.

- 3.8.1.2. The CONTRACTOR shall take full responsibility for buildings sanitary maintenance activities in order to maintain the premises in accordance with the terms and conditions of the contract.

3.8.2 **Role of the Foreman**

- 3.8.2.1 The CONTRACTOR'S Foreman shall have the competence, experience, and knowledge required to discharge his responsibilities. He must be proficient in French.
- 3.8.2.2 The Foreman must master the software application of MS Office to answer E-mail etc...
- 3.8.2.3 The Foreman shall, as required, submit a report of sanitary maintenance activities to the Manager.
- 3.8.2.4 The Foreman is responsible for all building sanitary maintenance activities, specifically the following:
- planning and organizing maintenance activities,
 - ensuring that work is done,
 - checking the quality of the work,
 - providing the sanitary maintenance service with supplies in an efficient manner.
- 3.8.2.4 The Foreman must be on-site during regular daytime hours, from 8:00 am to 16:30 pm, five days per week. He must notify the Manager if he is going to be absent for more than two (2) hours.
- 3.8.2.5 The Foreman **shall not be** part of the work procedures or replace absent personnel.

3.8.3 **Role of the Supervisor**

- 3.8.3.1 Because of the size of the buildings covered by the contract , the CONTRACTOR must appoint and identified a Supervisor on daily and night shift.
- 3.8.3.2 The Supervisor acts as an assistant to the foreman. He is responsible for supervising the regular work team as well as the PERIODIC work team. He must be able to express himself properly in French.
- 3.8.3.3 The supervisor may be part of the work routes.

3.9 **MANAGEMENT OF CONTRACTOR'S STAFF**

- 3.9.1 The CONTRACTOR shall be solely responsible for the management of his staff.
- 3.9.2 He shall be responsible for providing his staff with training in work methods.

- 3.9.3 The CONTRACTOR shall accept full responsibility for his employees' actions while carrying out the contract.
- 3.9.4 The CONTRACTOR shall meet his occupational safety and health obligations to his employees.
- 3.9.5 The CONTRACTOR agrees that his staff shall respond to and be trained for emergencies in the building.

3.10 **REQUIREMENTS AND RESPONSIBILITIES**

3.10.1 **Liaison Officer**

The CONTRACTOR shall designate a member of his corporate management staff as Liaison Officer for the purposes of the contract. This Liaison Officer shall visit the buildings **once a month** and ascertain that services stipulated in the contract are properly carried out. The Liaison Officer shall meet with the Manager once a month and whenever the latter requests a meeting. He must be proficient in French.

3.11 **STAFF INTEGRITY**

- 3.11.1 Upon signing the contract, the CONTRACTOR shall provide a complete list of his employees who have undergone the required security check and who are to be assigned to the contract. This list must be accompanied by a copy of the valid security clearance for each of the employees.

It is the CONTRACTOR's responsibility to keep up to date its list of employees with security clearance for security screening purposes.

CONTRACTOR personnel who need to access protected information or assets or institutions with restricted access must **all** hold a current and valid reliability status security clearance, granted or approved by the Canadian and International Industrial Security Directorate (CISD) of Public Works and Government Services Canada (PWGSC).

In addition, the successful contractor must, upon receipt of the employee's reliability ratings, submit an application for a Visit Permit (SAR) to PWGSC CISD. This application for a Visit Permit (SAR) must be renewed annually.

Any employee who does not meet security standards will be refused access to the institutions at the CONTRACTOR'S expense.

- 3.11.2 The CONTRACTOR shall ensure that his employees are not given authorization to take anything that does not belong to them, including found items, out of the building
- 3.11.3 In addition, the Manager reserves the right to search all packages or containers belonging to the employees and their equipment and storage areas (lockers or cloakrooms). The Security Services Manager or his authorized personnel shall carry out these searches.
- 3.11.4 Neither the CONTRACTOR nor his employees may perform any tasks in the work area other than those set out in this document.

3.11.5 The CONTRACTOR shall ensure that his employees comply with the regulations with respect to confidentiality of building information or any other written or oral information.

3.12 **WORK ACTUALLY PERFORMED**

3.12.1. **Evaluation of hours required**

It is agreed that the hours quoted by the CONTRACTOR in the bid were evaluated by him/her in accordance with the workload of each regular, monthly and periodic task and based on the <surface area>s identified. In the event that the number of hours is insufficient to perform the tasks, the CONTRACTOR will be required to perform the additional hours of work at his/her own expense.

Given that this contract is based on performance results, the CONTRACTOR must adhere to all of the activities identified in the specifications. Consequently, the CONTRACTOR must, on a daily basis, divide up all of the hours of work as fairly as possible to meet all of the work requirements.

3.12.2 Given that the prices quoted by the CONTRACTOR are based on the current FTE data presented herein, it is possible that modifications or adjustments could change the number of annual production hours required to perform the work.

As such, the CONTRACTORS accept that the potential changes could increase or decrease the requested price. The new annual price will be calculated based on the method described in section 3.3 of the book of basics. The requested hourly rates cannot be changed.

3.12.3 **Minimum number of on-site personnel**

The CONTRACTOR may exceed the FTE levels set out for on-site personnel but must at all times meet the minimum requirements stated in this clause. The CONTRACTOR must have for day, evening, night and week-end shift a minimum number of on-site personnel. The general clauses are in the specifications and include the following:

On-site management personnel

One (1) Foreman (see para. 3.8.2.5 above)

One supervisor on site for every 15-person workforce for the cleaning and maintenance work.

When the routine workload is amended, the manager can increase or decrease the minimum workforce size required for the cleaning and maintenance work. In that event, the technical authority notifies the contractor in writing.

The minimum size of the cleaning and maintenance workforce does not include the contractor's personnel on or off site, ie, management personnel or cleaning and maintenance personnel performing periodic work or additional work authorized through a purchase order. **Under no financial compensation will be allowed to manage the contract. Contract management is the sole responsibility of the contractor.**

The contractor must at all times have an adequate number of supervisors on site (including for night time and weekend teams) to ensure that there is at least one supervisor for every 15 cleaning people.

"Full-time equivalent" (FTE) is defined as the number of part-time or full-time personnel work hours equivalent to one person working **40 productive hours** over one work week on site in order to perform the routine work described in the specifications. When personnel are absent or on holidays, they must be replaced to maintain the required minimum FTE level. Meal breaks are not included in the calculation of the FTE by the contractor. Rest breaks are included in the calculation of the FTE by the contractor when the personnel are on site a sufficient number of continuous hours that they would be entitled to those breaks in accordance with the decree respecting building service employees.

When the contractor is non-compliant with the required minimum on-site personnel levels set for cleaning, maintenance and supervisory personnel, an adjustment may be made. The adjustment will be calculated by multiplying the number of hours of unsatisfactory work for the month by the applicable hourly rate in effect.

3.12.4 **Competence**

The CONTRACTOR shall provide during the term of the contract all of the qualified workers required to properly carry out the work in accordance with the Manager's regulations. If necessary, a list of regulations will be provide to the CONTRACTOR.

When the contract is signed, the CONTRACTOR must submit to the Manager a complete list of employees assigned to the contract. The list shall include the name, social insurance number and address of all of the employees and information on their competency and experience. This list is subject to the Manager's approval. The Manager reserves the right and privilege of requesting a review. The CONTRACTOR shall also inform the Manager of any changes made to this list within the contract period.

3.12.5 **Communication**

The CONTRACTOR shall provide a cellular for the Foreman and the Team Leader, or for the employee in charge of the daytime service if there is no Team Leader. By this obligation, the Manager may be sure that the CONTRACTOR has a person in charge at the work site at all times to respond to all requests, emergencies or other needs. This person shall also be authorized to take, on behalf of the CONTRACTOR, instructions from the Manager.

The CONTRACTOR must provide a computer for the Foreman to facilitate the communication between himself and the manager.

3.12.6 **Instructions**

Any questions of technical work aspect must be discussed and treated directly with the manager.

3.12.7 **Contact with building users**

The CONTRACTOR's staff shall not under any circumstances disturb the occupants of the buildings or Department of National Defence employees. If problems of this kind arise, the Manager shall be notified. The same applies if the CONTRACTOR's employees are disturbed.

3.12.8 **Uniforms**

All of the CONTRACTOR's employees shall wear uniforms, the colours and tailoring of which shall be approved by the Manager. The type of uniform shall be a smock, coverall or shirt and pants. The employees shall wear identification badges provided by the Manager (if required).

3.13 **WORK METHODS**

3.13.1 **General**

The CONTRACTOR shall use whatever cleaning methods he considers most appropriate for his work, except in the case of floor maintenance (resilient surfaces). As a general rule, he shall use the buffing technique to clean the floors.

Floor surfaces must accordingly be swept and washed beforehand. The CONTRACTOR shall also ensure that furniture is dusted after the floors have been buffed. Care shall be taken to ensure that the methods used do not damage the CANADA'S property. The CONTRACTOR shall be responsible for any damage he causes thereto. The Manager reserves the right to require that the cleaning method be changed, if he feels it is inappropriate or detrimental.

The CONTRACTOR shall consult the Manager regarding the cleaning techniques usually used to clean certain surfaces, such as marble, wood panelling, ceramics and wool carpets, and the care of furniture, ornaments and other items.

All work requiring the use of alkaline products shall be done carefully to ensure that no residue is left on the surfaces after cleaning.

When carrying out general, full-scale carpet cleaning, the CONTRACTOR's employees shall allow enough time for the carpets to dry completely. The products and work methods used shall be the responsibility of the CONTRACTOR and in accordance with the manufacturer's recommendations.

When carrying out general cleaning, the CONTRACTOR's employees shall move all furniture (including screens, plants and other items) and put it back in the same place. The CONTRACTOR must take every precaution necessary to prevent rust stains.

3.13.2 **Rectification of incomplete or unsatisfactory work**

If through negligence on the part of his regular staff, certain daily tasks are not cleaned or are poorly cleaned in the morning, the CONTRACTOR shall provide, at his own expense, during the day (that same day) at the Manager's request, the necessary staff, over and above the staff that is regularly required, to respond promptly to any complaints received. Following the reception of the Manager's request, the CONTRACTOR is granted three (3) hours in which to respond to the complaint.

3.13.3 **Manual and work program**

The CONTRACTOR's foreman shall have in his possession a manual of work methods, such as technical procedures, work plans, a list of equipment and products, and instructions on their use. A copy of this manual shall be given to the Manager no later than 30 days after the awarding of the contract.

3.13.3.1 **DAILY TASKS WORK PLANS**

The CONTRACTOR shall be required to seek the Manager's approval for the work plans **within 30 days following the signing of the contract**. The Manager reserves the right to amend or reject the plans.

3.13.3.2 **Planification for PERIODIC cleaning work**

The CONTRACTOR shall ensure that the PERIODIC work plan is approved by the Manager within 30 days of the signing of the contract. PERIODIC work shall be performed by space, building and/or area in order to facilitate strategic planning.

3.13.3.3 **Performance of PERIODIC work**

Maintenance shall be planned to ensure that all work is completed as soon as possible. Work might be performed on Saturdays and Sundays so as not to disturb operations. The CONTRACTOR shall provide a work force **that differs** from the one that performs day-to-day maintenance.

The Manager **may require** that the work be carried out at other times without any changes to the costs.

The CONTRACTOR shall also make provision for coordinating times with the use of the spaces (key, work schedule, movement of equipment, etc).

3.13.3.4 **PERIODIC Work Report**

In accordance with work programs, the Contractor must inform the Manager in writing that PERIODIC work has been completed as soon as the said PERIODIC work is completed in order that the Manager may give his approval in writing. All periodic work that is not approved will be considered as having not been carried out and a penalty shall be applied, as the case may be, according to the terms and conditions of the technical specifications.

3.13.4 **New methods**

The Manager may require the CONTRACTOR to use any new, proven sanitary maintenance method that may improve the quality of the work and productivity.

3.13.5 **Restrictions**

The CONTRACTOR's employees shall not move any papers, documents or objects left on desks or other furniture. The CONTRACTOR's employees shall not be allowed under any circumstances to open desk drawers, filing cabinets or other pieces of furniture. Electrical appliances, computer hardware and telephones must never be unplugged.

Placing chairs, wastepaper baskets and other items on the desks and tables is strictly prohibited, unless the desks and tables have been covered with suitable protective cloth coverings beforehand. The CONTRACTOR's employees shall not at any time use the office equipment, such as tables, filing cabinets, chairs and other items as scaffolding to carry out their work or for other purposes. In addition, the employees are not authorized at any time to use the telephones or other objects left on the desks for personal reasons.

The use of personal cell phones and headphones on one or two ears is prohibited in military buildings.

3.13.5.1 **Forbidding to unlock doors**

The CONTRACTOR's employees shall not at any time open doors to persons seeking entry. If necessary, they shall refer persons to the building manager.

3.14 **FOUND ITEMS**

The CONTRACTOR's employees shall give all found items to the foreman, who shall give them to the building security officer.

3.15 **BREAKAGE AND MALFUNCTIONS**

3.15.1 **Breakage**

The CONTRACTOR shall promptly notify the Manager or his designated representative of any damage caused accidentally or otherwise by his employees.

3.15.2 **Malfunctions**

During the cleaning activities, the employees shall note malfunctions in the equipment or the building and report them to the foreman. Depending on the seriousness of the defects, the foreman shall report them promptly to the Manager.

In winter, the CONTRACTOR shall promptly notify the Building Manager of any room in which windows have been left open, causing the indoor temperature to drop to unacceptable levels.

3.16 **AREAS ASSIGNED TO THE CONTRACTOR (for cleaning service products storing)**

The Manager shall provide the CONTRACTOR with suitable space for storing the necessary machinery and equipment.

The CONTRACTOR shall keep such areas clean and keep containers closed to prevent odours and prevent products, cloths and other supplies from accumulating and becoming a potential fire hazard. He shall keep all inflammable materials in containers approved for storage purposes by the competent authorities. He shall also make provision for and equip, if necessary **and at his own costs**, such areas with shelving, lockers, desks, file cabinets and anything else he deems necessary to make the space functional.

3.17 **KEYS**

3.17.1 **Distribution**

The Manager shall provide the CONTRACTOR's employees with all necessary keys to allow them to do their work in a normal fashion. However, the CONTRACTOR shall comply with the Manager's standard administrative practices regarding the use of keys. We will talk about this subject at the time of the visit.

3.17.2 **CONTRACTOR's Responsibility**

Given the importance of keys for security purposes, the CONTRACTOR shall take whatever action is required to protect himself against any loss or theft of keys. He shall be held fully responsible for any negligence resulting in the loss of one or more keys. The CONTRACTOR shall therefore return, at the end of each shift, all bunches of keys to the place designated by the Manager and pick them up from there at the beginning of the shift. However, while the work is being carried out, the CONTRACTOR shall keep extra keys (eg, keys he may have due to the absence of one or more employees or for other reasons) in a locked cabinet. The Manager reserves the right to make such inspections as he deems necessary.

All expenses for the changing of locks as a result of lost keys and all other related expenses shall be borne by the CONTRACTOR.

3.17.3 **Additional keys**

The CONTRACTOR is not authorized under any circumstances to make keys or have additional keys made. The CONTRACTOR shall further maintain strict control over keys to ensure that his employees do not make additional keys.

3.18 **STRIKES AND LOCKOUTS**

3.18.1 **The CONTRACTOR and his employees**

In the event of a strike by the CONTRACTOR's employees or a lockout imposed on those employees by the CONTRACTOR, the CONTRACTOR shall, with the assistance of his supervisory staff, provide full services, failing which the CANADA reserves the right to terminate the contract.

3.18.2 CANADA'S employees

In the event of a strike by CANADA'S employees or a lockout imposed on those employees the Manager may, on giving notice, suspend the activities of the contract or at least substantially reduce the scale thereof.

3.19 MISCELLANEOUS**3.19.1 Leap Years**

In leap years, the CONTRACTOR shall change his schedule to include February 29, using the hours stipulated in the contract, and shall not receive additional compensation therefor.

3.19.2 Legal Holidays

During legal holidays mentioned below, the contractor must execute the work required 7 days/week and the tasks assigned for the weekend.

- a. New Year's Day
- b. Good Friday
- c. Easter Monday
- d. Victoria Day
- e. St. John the Baptist
- f. Canada Day
- g. Labour Day
- h. Thanksgiving Day
- i. Remembrance Day
- j. Christmas Day
- k. Boxing Day

3.19.3 Parking

The CONTRACTOR and his employees shall comply with the parking regulations and amendments in effect on property belonging to the Department of National Defence. A copy will be provide, if necessary.

3.19.4 Services provided by the building

The Manager shall provide, at his own expense, the following services, for which the successful contractor shall take immediate, full responsibility:

- 3.19.4.1 All office furniture;
- 3.19.4.2 A space reserved for the foreman's office and a telephone (if required). Telephone installation and service fees shall be borne by the CONTRACTOR;
- 3.19.4.3 No toilets, changing rooms, showers or dining room facilities will be made available to the employees of the sanitary maintenance service;

3.19.4.4 Space reserved for the sanitary maintenance staff inside or near each building maintenance area where they can store carts, equipment and products they need. Such spaces shall be fitted up to facilitate sanitary maintenance work in those areas (as required);

3.19.4.5 The necessary keys and access cards to allow the staff to carry out their daily duties. However, the CONTRACTOR shall comply with Department of National Defence administrative standards and regulations. Additional operating procedures will be explained when the contract is signed.

3.19.5 **Rent and fees**

The CANADA shall not require any payment of rent or fees.

3.19.6 **Telephone service**

The successful contractor shall reimburse the CANADA for telephone expenses on a monthly basis, including long distance charges and any other telephone expenses. Any changes shall be subject to the Manager's approval.

3.19.7 **Medical treatment**

The successful contractor is responsible for providing and installing a first aid kit and ocular kit in the sanitary maintenance area assigned to his staff as a precaution in the event of minor accidents. In the event of serious accidents, he is responsible for taking steps to obtain immediate treatment for the injured person or persons, regardless of whether they are his employees or building users.

3.19.8 **Laundry**

The successful contractor shall make arrangements for the cleaning of clothing and personal items (uniforms, clothing, cloths and other items) that he and his employees require to carry out the activities specified in the contract.

3.19.9 **Operating procedures**

The successful contractor shall take care not to disrupt building activities. He shall therefore carry out his sanitary maintenance activities according to a schedule that allows building activities to proceed smoothly.

The successful contractor shall comply with the Manager's procedures and requirements in order to carry out his sanitary maintenance activities in special-use areas.

3.19.10 **Inspections of Security**

The CANADA authorized Manager shall have the privilege at all times of inspecting the areas and equipment assigned to the successful contractor. The Manager shall have the right to make any recommendations he considers appropriate. These shall be complied with and followed up immediately by the successful contractor, notwithstanding any sanitary maintenance activities outlined in the technical specifications.

3.19.11 **Cleaning at the end of the contract**

At the end of the contract, the CONTRACTOR must leave the premises in perfectly good order. A quality control will be conducted with the Manager and the CONTRACTOR one month prior to the end of the contract to list any anomalies and take the necessary corrective action. The CONTRACTOR shall be notified in writing of the adjustments he will have to make to meet the tolerance threshold. All corrective work that is not completed will result in a financial penalty as set out at section 4.

SECTION 4

STANDARD QUALITY PROVISIONS WITH RESPECT TO SANITARY MAINTENANCE

4.0 **STANDARD QUALITY PROVISIONS WITH RESPECT TO SANITARY MAINTENANCE**

4.1 **QUALITY MANAGEMENT**

4.1.1 **Preamble**

Once the sanitary maintenance contract has been awarded, the CONTRACTOR shall provide quality services in compliance with the standard provisions outlined below.

The objective of the quality management procedures outlined below is to ensure that the work is monitored to meet the set objectives.

These procedures will be implemented gradually during a one-month breaking-in period at the start of the contract.

This mechanism also sets out specific procedures to be followed in the event the CONTRACTOR fails to comply with his service quality commitments.

4.1.2 **Quality controlled routine and monthly maintenance**

The Manager shall unilaterally, or jointly with the CONTRACTOR (depending on what the Manager have agreed), inspect the premises in accordance with the instructions on the quality control form. The Manager shall be fully responsible for the frequency of the inspections. He shall provide the CONTRACTOR with results of the inspections.

4.1.3 **Tolerance threshold by prototype**

The Manager shall allow the CONTRACTOR a tolerance threshold, according to which he considers the sanitary maintenance work to be in compliance with specified requirements. This tolerance threshold varies from one prototype to another and is determined by their strategic importance. The various tolerance thresholds are outlined in section 4, pages 13 and 14.

4.1.4 **Non-compliant results**

In the event that the results of the Manager's quality control report show non-compliance with the tolerance threshold, the CONTRACTOR shall be considered in non-compliance.

If this is the first instance of non-compliance, the CONTRACTOR shall receive from the Manager written notice setting out the changes required in order to comply with the tolerance thresholds. No penalty will be implemented, but the situation shall be rectified within 48 hours.

If the changes requested are not done within the required time, the CONTRACTOR shall be sent a notice of non-compliance by Email or FAX from the Manager. The notice will state the type of penalty that will be applied to the bill for that month. In addition, the CONTRACTOR shall remedy the shortcomings within 48 hours.

If the penalty is negligible, the Manager reserves the right to decide whether to apply the penalty. However, the CONTRACTOR shall rectify the situation within forty-eight (48) hours.

If the required corrective work is not carried out by the CONTRACTOR within the set time limit, or if he does not meet the standards, a redress process shall be initiated and shall include the hiring of a third party that will carry out the non-compliant work at the expense of the original cleaning CONTRACTOR.

4.1.5 **Non-compliance for routine and monthly maintenance**

The adjustments shall be calculated separately for each prototype deemed non-compliant. The amount of these adjustments is a percentage of the prototype maintenance cost.

The monetary amount of the adjustment is calculated per prototype as follows: $(1 - (\text{control \% divided by tolerance \%})) \times \text{prototype maintenance cost}$.

For example, the monthly sanitary maintenance cost of the offices prototype is \$17,000 and the selected service level is **. After inspections (quality control) are carried out that month, the Manager assesses the quality of the sanitary maintenance in the offices at 70%, which is below the applicable tolerance threshold of 75%. The amount of the adjustment will therefore be \$1,133, which is arrived at by calculating: $(1 - (70\% \text{ divided by } 75\%)) \times \$17,000$.

To give another example: The monthly maintenance cost for the toilets prototype is \$8,200 and the level of service is ***. After inspections (quality control) are carried out that month, the Manager assesses the quality of sanitary maintenance in the toilets at 85%, which is below the applicable tolerance threshold of 90%. The amount of the adjustment will therefore be \$455, which is arrived at by calculating: $(1 - (85\% \text{ divided by } 90\%)) \times \$8,200$.

The total of adjustments applicable to the various prototypes is the total monthly adjustment.

4.2 **CONTROL**

The quality control form is a page of prototype spaces to be inspected. The choice of prototypes and spaces to be inspected is entirely at the Manager's discretion. Each space selected is assessed according to a set of sections and criteria.

A section is defined as a surface, a piece of equipment or an accessory to be cleaned, while a criterion is the state of a section. These sections and criteria vary and are adapted to each space prototype. The outcome of each criterion is based on the inspector's judgment and rated using the following symbols: Y: compliant; N: non-compliant; N/A: not applicable (if the criterion does not apply). The sections are weighted relative to one another, as are the criteria in each section so that more importance is given to dominant elements in the calculation of the results. Two reports will be produced under the quality rating section: an analysis by prototype and an analysis by section, which means that the results are analysed from two different, but complementary, angles.

4.3 **QUALITY CONTROL OF PERIODIC WORK**

4.3.1 The Manager will inspect area after PERIODIC work has been completed either with the CONTRACTOR or alone. The Manager will forward the inspection results to the CONTRACTOR.

4.3.2 **Evaluations of quality control reports for PERIODIC work**

PERIODIC work will be evaluated by sampling quality control reports from various area, spaces and tasks. The Manager will divide the samples according to two (2) criteria; namely, whether they comply or do not comply with the technical specifications.

4.3.3 **Non-compliant PERIODIC work**

In the event that the results of the Manager's quality control report show non-compliance with the tolerance threshold, the CONTRACTOR shall be considered in non-compliance.

If this is the first instance of non-compliance, the Manager shall send a written notice to the CONTRACTOR outlining the work required to meet the tolerance thresholds. No payment for the work shall be made until the corrective measures are deemed compliant. Corrective measures must be completed within seven (7) working days.

If this is a second instance of non-compliance, the Manager will send a notice of non-compliance to the CONTRACTOR by Email indicating that unless the CONTRACTOR corrects the problems listed within four (4) working days, a monetary adjustment for non-compliance shall be imposed.

If the CONTRACTOR has not performed the corrective work within the time limit or if the corrective work is non-compliant, the Manager shall send a written notice of non-compliance to the CONTRACTOR by Email or fax stating the type of penalty to be imposed for non-compliance.

4.3.4 **Non-compliance clause**

The penalty shall be calculated separately according to the workload evaluated to rectify the situation that was found non-compliant in the area being inspected. This penalty amount shall be equal to the number of work hours needed multiplied by an hourly rate of \$25.00, which includes supervision, labour, equipment and supplies.

The Manager will evaluate the corrective workload required using certain statements of work performed and the pertinent details.

This financial penalty shall serve to pay for the corrective process that must be undertaken, starting with the hiring of a third party who will carry out the corrective work. Should the corrective work cost less than originally estimated by the Manager, the amount of the maintenance CONTRACTOR'S penalty will be readjusted.

For example purposes only: Let us say that during the quality control inspection of section 101, the shampoo cleaning of carpeted surfaces was deemed non-compliant. The Manager estimates the corrective workload to be one hundred (100) hours. The adjustment will be calculated as follows:
100 hours X \$25.00 = \$2,500.00

The total adjustment penalty imposed on the CONTRACTOR will be the sum of all adjustments applied to the various tasks.

4.3.5 **Evaluation form for PERIODIC work**

An example of a quality control report for PERIODIC work can be found in section 4, page 16.

The report will reflect the work required for the area being evaluated.

4.4 **DEFINITION OF STANDARDS**

The Manager and the CONTRACTOR shall agree on current standards for quality assessments.

4.4.1 **Maintenance of floors**

- Floors shall be swept or cleaned with mops and stains shall be removed
- Dirt or rubbish shall not be left in corners, behind or under radiators, under furniture or behind doors.
- There shall be no layers of dust on the floors.
- Swept areas shall be free of dust, traces of dirt and stains (road salt, coffee, soft drinks, scuff marks, etc.)
- Grooves shall be cleaned (boot scrapers, thresholds, etc).
- The use of salt neutralizer or calcium is required in winter.

4.4.2 **Wet and damp mopping**

- All mopped areas shall be clean, spotless and free of mop strands and mop prints.
- There shall not be water or splash marks on walls, skirting boards and other surfaces.
- There shall not be any water or other cleaning liquid left underneath the feet of furniture or metal filing cabinets.
- Boot trays shall also be cleaned at this time.

4.4.3 **Floor stain removal**

- All stains, dirt or residue (salt stains, coffee, soft drinks, scuff marks, etc.) shall be removed from the floor on a daily basis.
- All stains that resist normal cleaning shall be removed using appropriate stain removers. The manufacturers' stain removal instructions shall be followed. Stain removal products shall not harm finished surfaces.

4.4.4 **Spray buffing**

- There shall not be any dust or dirt on the floors.
- There shall not be any marks or streaks caused by excessive spray buffing.
- The floors shall have a clean appearance.
- There shall not be any spray splashes on the skirting boards, equipment or furniture.

4.4.5 **Brushing and stripping**

- There shall not be any spots on brushed surfaces.
- There shall not be any traces of wax left on floor surfaces after stripping.
- Furniture, except filing cabinets, shall be moved.
- There shall not be any water or splash marks or streaks left by the equipment on walls, skirting boards and other surfaces.

4.4.6 **Floor finishes (application of)**

- Floors shall be free of loose strands.
- Floors, including corners and areas beneath furniture, shall be clean and shiny.
- There shall not be any splash marks on walls, skirting boards, furniture or other surfaces.
- Furniture shall be put back in place after the work is finished.
- The type of wax chosen shall leave the floor slip resistant.
- A minimum of three (3) coats of wax shall be applied.

4.4.7 **Vacuuming**

- The carpets and rugs shall be clean and free of dust, dirt, stains and other debris.
- Doormats shall be free of dust and dirt.
- Floor areas beneath carpet edges shall be free of dust and dirt.
- Floor areas around carpets shall be clean. Dirt shall not be left in corners, under furniture or behind doors.

4.4.8 **Miscellaneous**

- Chairs, wastepaper baskets and other objects shall not be placed on the desks or tables during the cleaning operation.
- Furniture and equipment shall be put back in place.

4.4.9 **Walls**

There shall not be any marks, dirt or other grime on the walls up to 2.6 meters in height .

4.4.10 **Glass doors and glass side panels**

- There shall not be any streaks or marks on glass panels and all frames shall be clean.

- There shall not be any water on the sills or ledges.

4.4.11 **Polishing of metal surfaces**

Push bars, protective plates, balustrades, doors and other metal surfaces shall be clean and polished.

4.4.12 **Miscellaneous**

- Boot scrapers and doormat receptacles shall be free of dirt and debris after they have been cleaned.
- Doormats shall be clean and dry.
- Lobbies and entrances shall be free of debris, rubbish and any other dirt accumulation.
- Notice boards, lecterns and the insides of fire hose cabinets, including the glass, shall be clean.
- Bulletin Boards / Boards should be cleaned with EXPO Cleaner.
- Boot trays shall be free of dirt and debris and shall be cleaned every time the floors are cleaned.

4.4.13 **Garbage collection**

- Ashtrays and wastepaper baskets shall be emptied, cleaned and put back in place. The bottoms of ashtrays shall be dry before they are put back in place.
- Wastepaper baskets and rubbish containers shall be emptied and the insides cleaned.
- Waste container bags shall be replaced and the outsides of the containers shall be clean.

4.4.14 **Dusting**

- Dust the desks and the rest of the office furniture, using a damp cloth.
- Remove dust and dirt on chairs and armchairs with a vacuum cleaner.
- Furniture and other hardwood surfaces shall be polished using a water-resistant product that resists finger marks (furniture cleaner/polish)
- Wipe the glass tops of desks and tables with a cloth.
- Dust all engravings, plaques and horizontal and other surfaces.
- Dust radiators, window ledges, doorsills, frames, louvers, skirting boards and partition edges.
- Extract dust from ventilation grills.
- Dust and clean surfaces and accessories more than three (3) metres high off the ground.

4.4.15 **Cleaning of stains**

Walls, doors, frames and partitions shall be immaculate.

4.4.16 **Damp wiping**

Mirrors, ashtrays and other glass objects shall be wiped with a damp cloth.

4.4.17 Washrooms, baths and showers

- **Garbage collection**

Wastepaper baskets and waste containers shall be emptied, waste container bags shall be replaced, as necessary, and exterior and interior surfaces shall be wiped appropriately.

- **Supplies**

All dispensers shall be refilled.

- **Sanitary napkin receptacles**

- All waste bags for sanitary napkins shall be replaced.
- All containers must be free of odours, smudges, stains and marks.
- **Patrol**: Inspect the space and take corrective action on all surfaces using the appropriate technique (wall, furniture, floor, sanitary equipment, etc).

- **Sanitary fixtures**

- Sinks and exposed plumbing shall be free of dust, traces of dirt and stains.
- Toilet tanks, toilet seats, toilet bowls and urinals shall be cleaned thoroughly using a toilet **brush**.
- Plumbing accessories as well as counters shall be free of stains, soap accumulation, dust and mildew.
- Baths and showers shall be thoroughly cleaned and disinfected.
- Bath and shower walls must be free of soap residue and shall be cleaned and disinfected.
- Bath and shower curtains shall be cleaned, disinfected and free of soap residue.

- **Dispensers, walls, toilet stall partitions, doors, shelves, mirrors and ledges**

- All dispensers, shelves, ledges and shelf brackets shall be free of smudge marks, dust and stains.
- All mirrors shall be clean.
- Walls, toilet stall partitions, doors and intersections shall be free of dirt, streaks, graffiti and mildew.

4.4.18 Floors

Floors shall be maintained as described under the headings "Maintenance of floors" (4.4.1 to 4.4.8) and "Disinfection of areas where there is a high risk of spreading contagious diseases" (4.4.35).

4.4.19 Cleaning of stairwells

- **Sweeping and dusting**

- Staircase landings, stair steps and step corners shall be free of dirt, dust, debris and rubbish.
- Stair railings, ledges, mouldings, radiators, windowsills and screens shall be free of dust.
- **Cleaning and polishing**
 - Glass, wood and metal surfaces shall be clean and free of any marks or dirt.
 - Banisters and other surfaces shall be clean and polished.
 - Walls shall be free of marks up to head height.
- **Wiping and stripping**

Staircase landings, stair steps, stair risers, walls and skirting boards shall be clean and free of water and splash marks. The floors shall be maintained as described under the heading Sanitary Maintenance of Floors. (4.4.1 to 4.4.8)

4.4.20 **Sand-filled cylindrical ashtrays**

- **Debris**
 - All debris shall be removed from the ashtrays.
 - There shall be no debris in the lower part of the ashtrays.
- **Cleaning and polishing**

Inside parts of ashtrays shall be properly cleaned and the chrome parts, including the bases, shall be cleaned and polished.

4.4.21 **Water fountains**

- Porcelain and metal or enamel surfaces shall be clean and spotless.
- All other surfaces shall be free of dirt, stains and streaks.

4.4.22 **Cleaning of elevators**

- Floors, corners, sills and sliding door tracks shall be clean.
- Floors shall be polished and not slippery.
- Floors shall be clean and dry.
- Inner walls shall be free of dust.
- Rails and skirting boards shall be clean and polished.
- Doors and frames shall be free of smudges and other marks.

4.4.23 **Clocks, engravings and plaques**

- Plate glass shall be clean and free of streaks.
- Edges shall be wiped and free of dust.

4.4.24 **Lockers**

- Tops of lockers shall be free of dust.
- Front surfaces shall be free of stains, splash marks and dust.
- Interior of the lockers must be free of dirt, dust or any rubbishes.

4.4.25 **Horizontal or vertical blinds**

- All slats shall be free of dust on both sides.
- Frames, windows and adjacent surfaces shall be free of dust.

4.4.26 **Fans and ventilators**

- Fans and ventilators shall be dusted.
- Fan housings shall be wiped clean.

4.4.27 **Exhaust fans**

Wall surfaces exhaust fans shall be free of dust.

4.4.28 **Areas where walls and ceilings meet**

The intersections between walls and ceilings shall be free of spider webs.

4.4.29 **Cleaning of windows, partitions and plate glass** **S/O**

4.4.30 **Compactor room**

- Floors and walls shall be clean and free of debris and garbage.
- Compactor appliances shall be clean and free of smudge marks.

4.4.31 **Garbage chutes**

- Garbage chutes shall be cleaned once a month according to the Manager's recommendations.
- Garbage chutes shall be cleared of rubbish, boxes, bags and any other objects obstructing the operation of the chutes, when necessary.

4.4.32 **CONTRACTOR's assigned area and storage spaces**

- All floors shall be clean.
- All equipment and walls shall be free of dust and stains.
- Mop pails and carts shall be emptied, cleaned and odour-free.
- There shall not be any papers, garbage or waste containers in the storage area reserved for cleaning products and equipment.
- Damp mops and dust mops must be cleaned at the end of each day.

4.4.33 **Clarification regarding the cleaning of Hotel services.**

The work required for the **hotel service** is described in the Technical Specifications by Prototype (section 7.6) and the section 6.

Additional clarifications regarding the nature of these services follow below:

- **BED:** Remove and change all bedding (sheets, mattress cover, pillowcase, blankets), vacuum the mattress and the box spring, clean and disinfect the pillow and mattress cover. Clean sheets and blankets shall be positioned such that no folds are visible.
- **SOILED BED LINEN:** Sheets, pillows, blankets and mattress covers must be counted and placed in batches in accordance with the standard. They must be taken to the designated area to be exchanged for clean ones.
- **TOWEL SETS:** Towels must be changed after use. They shall be placed on towel racks with no visible folds. Wet towels shall be disposed of in the same way as bedding.
- **WARDROBE, BED AND DESK DRAWERS:** All such items must be free of dust, dirt and any exterior or interior marks.
- **Walls, dividers, doors, shelves, ledges, mirrors and other accessories :** must be free of dust, marks, graffiti and stains.
- **The floor :** must be maintained as described under Sanitary Maintenance of Floors.

- **ELECTRONIC APPLIANCES:** Electronic appliances, such as microwave ovens, refrigerators, toasters and coffee-makers, must be cleaned inside and outside

Note 1: For all accommodation buildings the CONTRACTOR must in addition with the tasks over, take the soiled bed linen and towels, counted and write on a formulary the number of each item and put the soiled linen in bags to be picked up by the cleaning shop. When the clean linen arrives from de cleaning shop, each item in the bags must be verified and places on the shelves.

4.4.34 **Light fixtures**

When cleaning light fixtures, the power must be turned off and hands should be dry. Use of metal (eg, aluminium) stepladders is forbidden. Take off the protector cover and clean both sides. Vacuum the light fixture and clean all interior and exterior parts of the equipment with a moist duster (very little water) or a moist sponge. Ensure that bulbs and fluorescent tubes are cool before cleaning. Ensure that all parts are dry before turning the power back on. After cleaning, the equipment must be free of dust, dirt and insects.

4.4.35 **Disinfection of areas where there is a high risk of spreading contagious diseases**

High standards of hygiene must be maintained in areas such as bathrooms, showers, athletic changing rooms, swimming pools, parks, dental clinic and hospital environments, by cleaning and disinfecting with a germicidal detergent. Floors, walls, shower curtains, soap dishes, floor drains and non-slip carpets must be free of soap residue, garbage and any other dirt. A disinfecting solution will be poured into floor drains to control odours and bacteria which flourish there.

4.4.36 **Carpet cleaning**

METHOD

Cleaning of textile floor surfaces (carpets) shall be performed using appropriate methods; namely, the following: Lift soil using an industrial system, dampen, brush and shampoo using a low speed single-brush system and an industrial strength detergent. Vacuum and remove waste water, rinse thoroughly to speed drying.

STANDARD

During cleaning of textile covered floor surfaces (carpets), the surfaces shall be thoroughly dry before repositioning furniture. Moreover, the CONTRACTOR shall take care to slide pieces of cardboard or plastic under metallic furniture legs for a few hours to avoid staining or corrosion caused by residual humidity in recently washed carpet fibres. In addition, no other furniture or accessories shall be placed on this furniture. Upon completion of the work, all items shall be repositioned in their initial location.

4.4.37 **Patrols**

In addition of regular cleaning, in some areas, patrols must be carried out to ensure that cleanliness is being maintained.

The tasks that must be performed during the patrols are as follows:

Check and fill dispensers;

Collect and dispose rubbish;

Clean sanitary accessories and all other surfaces;

Sweep, wash and disinfect all floor surfaces.

SECTION 5

SPECIFIC TERMS

5.0 **SPECIFIC TERMS**

5.1 **CLARIFICATION**

- 5.1.1 The technical specifications provide merely a minimum data base designed to guarantee the cleanliness of the buildings. The prototypes indicate the purpose of the spaces (toilet, office, conference room, etc). The tasks and their frequency indicate the quality required.
- 5.1.2 Independently of the specifications and frequencies, the CONTRACTOR is responsible for maintaining the premises as a whole in a state of cleanliness which meets normal standards. The CONTRACTOR shall adjust his work plans according to the season and frequent alternations to the spaces concerned. A reduced workload should be anticipated during refitting, while it will be necessary to accommodate a requirement for extra work following the retrofit in order to clean the space thoroughly prior to re-occupation.
- 5.1.3 No compensation will be paid during the term of this contract for a temporary increase in the workload (retrofit, construction, repairs) except if exceptional situation occur.
- 5.1.4 Adjustments will be granted for the following events such as: (ex: strikes, demonstrations, vandalism, flooding, ice storms) based on the hourly rate.

5.2 **WINTER SEASON**

- 5.2.1 During the winter season, normally from **November 1st to April 30th**, the CONTRACTOR shall clean, at his cost, all floors in all the area listed in the contract 5 DAYS a week. This obligation is valid even if some prototypes in the technical specifications stipulate that the floors must be washed once a week.
- 5.2.2 By these means, we expect the CONTRACTOR to keep the floors clean and free of salt, dirt and debris.

The CONTRACTOR will need to adjust his routes to cover the winter workload. No compensation will be paid under this contract to compensate for this extra workload.

5.3 **WORK SCHEDULE, LOGS AND TIME SHEETS**

- 5.3.1 If the manager requires, the CONTRACTOR shall change the timetable as well as the shifts of his employees on five (5) days' prior notice.
- 5.3.2 Each of the CONTRACTOR's employees shall, on entering and leaving the building, sign the daily attendance log.

Any employee who leaves work for whatever reason shall sign the log and enter his time of departure. If he returns to work, he shall sign the log again.

- 5.3.3 The CONTRACTOR shall plans his work sheets for routine and periodic work be performed days/evening on Monday to Friday.
- 5.3.4 The contractor shall, at the Manager's request submit duplicate copies of this employee's attendance sheets as an attachment to his regular invoices.
- 5.3.5 **Regular schedule Monday to Friday:** Day schedule must begin at 08h00 to finish at 16h00

5.3.6. Regular schedule Monday to Friday: Night schedule must begin at 16h00 to finish at 24h00

5.3.7 On statutory holidays, only work performed 7 days a week or work performed over a weekend are required.

5.4 **TASKS AND AREA THAT REQUIRE DAY TIME MAINTENANCE**

See complementary information at section 7.

5.5 **TASKS AND AREA THAT REQUIRE MAINTENANCE ON WEEKENDS AND STATUTORY HOLIDAYS**

See complementary information at section 7.

5.6 **WORK MONITORING**

5.6.1 **By the CONTRACTOR**

- 5.6.1.1 The CONTRACTOR, in the person of his foreman, is responsible for daily inspections of the work to be done.
- 5.6.1.2 The CONTRACTOR shall establish an inspection procedure. He shall produce a written report, using a form. He shall seek the Manager's approval for this inspection procedure and the form to be used with the Manager. All area shall be inspected on a weekly basis.
- 5.6.1.3 The CONTRACTOR shall provide copies of his inspection reports at the Manager's request.
- 5.6.1.4 The CONTRACTOR shall carry out jointly with the Manager such inspections as are requested by the Manager.
- 5.6.1.5 In addition to these daily inspections, the CONTRACTOR, or the liaison officer who is not part of the sanitary maintenance team, shall meet with the Manager every month to discuss the quality of the work and any improvements to be made and draw up a report as stipulated by the provisions of these specifications.

5.6.2 By building inspectors

- 5.6.2.1 The building inspectors shall conduct regular inspections in a sampling of areas.
- 5.6.2.2 If the results of these inspections are unsatisfactory, the Manager may require that a joint inspection be carried out to ascertain the quality of the work.
- 5.6.2.3 The Manager, or his representative, shall be the sole judge of the quality of services provided.

5.6.3 Rectifying reported irregularities

- 5.6.3.1 If the work has not been carried out as stipulated and the Manager demands that the work be done as stipulated as soon as possible, he may ask the CONTRACTOR to have the staff still present finish the work or ask the CONTRACTOR to promptly bring in staff for this purpose. The CONTRACTOR must be able to send in staff as soon as he has received the request, and no later than three hours after receiving the request.
- 5.6.3.2 While rectifying the situation, the CONTRACTOR shall make a special effort not to disrupt building activities taking place in the sanitary maintenance work area.
- 5.6.3.3 Any work to be done over again shall be performed at the CONTRACTOR's expense.
- 5.6.3.4 At the sole discretion of the Manager, the CONTRACTOR may be granted a period of time in which to do any work that was not done during the regularly scheduled time.

5.7 CHECKS OF DOORS, WINDOWS AND TAPS

The CONTRACTOR shall make the necessary arrangements at all times to ensure that no doors or windows are left unbolted or open while an employee is absent (except in special cases as requested by the Manager). Care shall also be taken to ensure that any taps left on are turned off. The CONTRACTOR shall comply with all of the Manager's instructions.

5.8 SECURITY

The CONTRACTOR shall make the necessary arrangements to ensure that no doors are left unlocked and no lights left on when the work is finished, unless the premises are occupied by building staff.

Special security measures are in effect in certain areas. The Manager shall instruct the CONTRACTOR as to the procedure to be followed on entering and leaving such areas.

5.9 GARBAGE

5.9.1 **Non-recyclable garbage**

All garbage shall be taken daily to the central garbage depot specified by the Manager. It is the CONTRACTOR's responsibility to check with the services concerned and to comply with their schedules for having garbage destroyed or removed from the premises.

The CONTRACTOR shall notify the Manager if he notices that the garbage compactor container is filled to capacity (up to the safety limit) so that it may be emptied promptly.

The CONTRACTOR shall also report to the Manager any breakage or malfunctions he notices in the building sanitary maintenance equipment.

5.9.2 **Recyclable garbage**

The CONTRACTOR shall empty the recyclable garbage recovery containers, daily, and deposit the garbage in the areas specified by the Manager. Cardboard shall be folded and disposed of according to the recycling policy instructions in force.

5.9.3 **Garbage outside containers**

Piles of paper or any other documents that are not inside garbage containers may be removed only if they have "To Be Thrown Out," "Garbage," "Waste," "À jeter," "Vidanges" or "Rebuts" written on them.

5.10 **SET-RATE WORK REQUEST**

In his bid, the CONTRACTOR shall provide costs of set-rate work requested in the present proposition. The cost of this work may be shown on a unit basis or calculated in square metres, as described on the cost breakdown form. Such work shall be performed by members of his staff who do not belong to regular sanitary maintenance teams.

The Manager could require that set-rate work and additional work be done on any day, evening, night, weekend or statutory holiday, and this shall not affect the bid rates.

5.10.1 **Billing**

- A work order shall be submitted for any set-rate work.
- It is the CONTRACTOR's responsibility to make sure that set-rate work is carried out promptly, no later than 24 hours after receipt of the request.
- The purchasing office will pay only for work duly authorized by the Manager.
- Set-rate work shall be billed separately from regular work.
- The CONTRACTOR may be required to provide a report of the hours worked by his employees.

5.11 **CLEANING PRODUCTS, SANITARY SUPPLIES AND GARBAGE BAGS**

To promote sustainable development, DND requires that the CONTRACTOR provide and use cleaning products, sanitary supplies and garbage bags that are environmentally friendly.

These products or product lines must be approved and be ECO-LOGO-certified.

5.11.1 **Cleaning products**

The CONTRACTOR must provide all of the equipment and products required to properly carry out the cleaning duties.

The CONTRACTOR must provide the complete list of ECO-LOGO-certified cleaning products that he intends to use. The products must be accompanied by their material safety data sheets.

All cleaning product containers must be labelled. The Manager reserves the right to have products he deems unsuitable changed. The Manager can also require that certain products be used for specific tasks.

5.11.1.1 **Forbidden products**

- ✓ No acid-based cleaners shall be used unless authorized by the Manager;
- ✓ No products containing abrasive powders shall be used;
- ✓ The Manager must approve all maintenance products before they are used. No substitute products shall be permitted without authorization.

5.11.1.2 **Cleaning product laws and regulations**

- ✓ The CONTRACTOR is expected to comply with the applicable internal and governmental occupational health and safety laws and regulations;
- ✓ All of the products used or stored on-site must be accompanied by their material safety data sheets. The products must be clearly identified;
- ✓ The CONTRACTOR must ensure that all of the employees receive occupational health and safety training in order to meet WHMIS requirements;
- ✓ The CONTRACTOR must keep a clearly identified inventory of the products stored (name of product, manufacturer and quantity of product stored);
- ✓ The CONTRACTOR must have an emergency plan for all product spills;
- ✓ Absorbent products must be available at all times in the event of an emergency. These products must be placed in the main storage area and be clearly identified.

5.11.2 **Provision of sanitary products and dispensers**

The CONTRACTOR must provide and install sanitary products (paper towels, toilet paper, hand soap and odour controllers) that are ECO-LOGO-certified.

The sanitary products must be compatible with the dispensers that are already installed or that may be installed by the CANADA.

In the event the CONTRACTOR does not wish to use the systems already in place,

the Manager reserves the right to ask the CONTRACTOR to provide and install new dispensers at the CONTRACTOR'S expense.

5.11.2.1 Hand soap

The CONTRACTOR must provide ECO-LOGO-certified liquid hand soap that is pH-neutral (pH 7), smells good, is gentle on the hands and is non irritating.

5.11.2.2 Antibacterial and disinfecting soap

The CONTRACTOR must provide antibacterial and disinfecting soap in designated areas.

5.11.2.3 Dispenser Maintenance

In the event the soap dispensers become clogged, the CONTRACTOR will clean them. The non-functioning dispensers shall be replaced by the CONTRACTOR. No container that has previously served another purpose may be used.

5.11.2.4 Odour controllers

The CONTRACTOR must provide and install, at his own expense, odour controller dispensers in all washrooms, bath/shower rooms, garbage rooms and locker rooms. At no time shall deodorizer blocks be permitted. The device must contain an odour neutralizer that provides ongoing odour protection.

5.11.2.5 Paper towels

Paper towels must be of good quality and be ECO-LOGO-certified. The paper must be made of 100% recycled fibres and be made using a chlorine-free bleaching process.

5.11.2.6 Toilet paper

The toilet paper must be white, two-ply, and made of 100% recycled fibres. It must be manufactured using a chlorine-free bleaching process and be soft and unscented.

5.11.3 Garbage bags

To promote sustainable development, the CONTRACTOR must provide and use garbage and recycling bags that are made of 100% recycled plastic. In addition, the bags must be 100% biodegradable in accordance with OXO-Biodegradable standards.

The garbage and recycling bags must be certified biodegradable in under seven (7) years in a landfill.

The CONTRACTOR shall provide documentation from the manufacturer regarding the manufacture of the garbage bags and must provide the certification regarding the biodegradability of the bags.

The CONTRACTOR shall receive authorization from the Manager before using the entire range of garbage bags.

5.11.4 **Non-compliance clause on cleaning products, sanitary supplies and garbage bags**

In the event the CONTRACTOR uses cleaning products, sanitary products and garbage bags that are not ECO-LOGO-certified or uses products that have not been approved by the Manager, the CONTRACTOR shall be considered non-compliant and will be fined.

5.12.4.1 **Calculation of fine for non-compliance with respect to cleaning products, sanitary supplies and garbage bags**

The fine that will be imposed is equivalent to 5% of the regular monthly invoice (total before taxes). This penalty will be applied for every month that the CONTRACTOR is deemed non-compliant.

5.12 **EQUIPMENT**

5.12.1 **Condition of equipment**

The CONTRACTOR's equipment shall be in a good condition and appropriate for the requested work. The Manager reserves the right to refuse all equipment judged unappropriated. All devices and equipment shall not have more than two years of wear. The invoice will be required in the event of a doubt.

In the event of theft, loss or damage to the equipment, the CONTRACTOR shall replace it.

The CONTRACTOR shall equip all of his items of electrical equipment with seven-metre long power cords with sufficient capacity, ground wires and three-prong plugs. The CONTRACTOR shall ensure that all power cords are in good condition and not frayed.

5.12.2 **Power requirements**

All electrical equipment shall be industrial-grade equipment and run on 115-125 V and a maximum of 15 A. Greater capacity equipment may be used if the necessary electrical circuits are available. This information may be obtained from the Manager. Such equipment must have non-locking type 5-20P plugs for 20 A and 120 V or 6-20P plugs for 20 A and 230 V.

Electrical extension cords shall be three-wire type including ground wire. The wire size shall be determined according to the following table so as to avoid voltage drops.

AMPERAGE	NORMAL VOLTAGE	MAXIMUM DISTANCE	MINIMUM WIRE SIZE
15 A	115-125 V	15 m	NE 14
15 A	115-125 V	30 m	NE 12
20 A	115-125 V	15 m	NE 12
20 A	115-125 V	30 m	NE 10
20 A	230 V	15 m	NE 14
20 A	230 V	30 m	NE 12

5.12.3 **Prohibited**

Machines with combustion engines are prohibited inside the building unless the CONTRACTOR has obtained written authorization from the Manager.

5.13 **INCANDESCENT LIGHT BULBS AND FLUORESCENT TUBES**

In the order to avoid delays and reduce the risk of accidents, employees of the CONTRACTOR must report all defective light fixtures to the person designated by the manager.

5.14 **CONTRACT OBLIGATION TO SUPPLY AND INSTALL WEATHER CARPETS**

Between **November 1 and April 30**, the CONTRACTOR shall provide and install, at his own expense, good quality absorbent carpets with rubber edges in the lobbies, entrances, elevators and other places. The Manager may require additional carpets. In each year of the contract, the carpets shall be new and of a colour selected by the Manager. We estimate at 200m² the surface area of carpet to be replaced and installed each year. The installation must be done with two-sided tape.

5.15 **CLEANING RESTRICTED AREA**

The CONTRACTOR, accompanied by a guard or person in charge of the building, shall carry out sanitary maintenance in specified area at the Manager's request.

5.16 **EXTERIOR CLEANING**

The CONTRACTOR, shall empty basket and change garbage bags and remove, as required, all paper, cigarette butts, garbage and other debris from the vicinity of the outside entrances of each sector (2 meters) every morning before 10h00 am.

5.17 **SPECIAL SANITARY MAINTENANCE**

When meetings or conferences are held, the CONTRACTOR, in addition to performing the regular or occasional sanitary maintenance work stipulated in the technical specifications, shall, at the request of the Manager or his authorized representative, carry out sanitary maintenance work required in the areas used for the conferences and meetings.

5.18 **COMMUNICATION**

All of the CONTRACTOR's employees shall be able to communicate fluently in oral French.

SECTION 6

HOTEL SERVICE AND HEAVY CLEANING (ON REQUEST)

6.1 **HOTEL SERVICE AND HEAVY CLEANING ON REQUEST**

6.1.1 The CONTRACTOR must supply the personnel, equipment, and sanitary products and supplies for performance of the tasks involved in hotel service and heavy cleaning on request for all prototypes of hotel services.

6.1.2 Hotel service and heavy cleaning of rooms described in the specification by prototype (section 7.6) shall be performed at the Manager's request, seven (7) days per week including statutory holidays.

6.1.3 **List of units requiring hotel service**

On demand, at the beginning of each WEEK, the manager shall provide the CONTRACTOR with a list of forecasted service needs for the week. Every morning at 07:45 am, a draft list of spaces including the type of hotel service to be carried out will be given to the CONTRACTOR for planning and execution of the work. This official list will be reviewed, by the Manager, and corrected at 12:45 to add or remove spaces. Also each Friday at 15:00 the manager shall provide the CONTRACTOR a list of forecasted service needs for week-end and statutory holidays. Only the housekeeper or the foreman are allowed to get those lists.

6.1.3.1 **Hotel service – routine (daily)**

The CONTRACTOR must provide the required personnel on site to carry out the hotel service request. The work requested by the manager must be carried out between 10h00 am and 15h30 pm. Although identified priority rooms and/or dormitory must be clean no later than 13h00. The EXACTA report will identify units who is discharge (discharge cleaning) with the type of service needed (routine cleaning). Keys of room/dormitory must be picked up and place in the barrack warden box. All furniture must be move (including bed) when the floor is sweep and wash in a room/dormitory.

The CONTRACTOR **must carry out** all tasks related to the requested hotel service **within the same day.**

Note 1: When more than 100 vacated units per day must be cleaned, the Manager may grant an additional (48) hours to complete the work.

Note 2: For periodic hotel service work (heavy cleaning) the Manager may grant an additional (48) hours to complete the work when there are more than 50 units per day to clean.

The time granted should not disrupt operations under any circumstances.

6.1.3.2 **Poster (shut - do not disturb) on a bedroom door**

Should a customer places a poster (SHUT) on the door handle, the room will not be cleaned and you will be reimbursed 25% of the amount normally paid for cleaning daily room.

6.1.3.3 **Rooms inspection**

Rooms inspection is the entire Housekeeper responsibility. Priority building are 117, 532, 511 and 510 and the others buildings. Following the inspection by the housekeeper the building manager makes is own inspection. If there is a refusal for

cleaning, denoted points should be corrected. If there is a second refusal, denoted the points should be corrected again and the cleaning of the room will not be paid.

6.1.3.4

Emergency service

The CONTRACTOR must provide the required personnel on site to carry out **EMERGENCY** requests within two (3) hours of receipt of an oral or written request for the Manager.

6.1.3.5

Hotel service – weekends and statutory holidays

On weekends and statutory holidays, the CONTRACTOR shall provide the personnel required to carry out all the hotel service tasks requested. The work must be between 10h00 am and 13h30 pm. In addition, a person other than room attendant should be identified in order to perform inspections on weekends and holidays.

ASSIGNMENT AND REPLACEMENT OF PERSONNEL FOR HOTEL SERVICE

The CONTRACTOR shall recruit, select and assign personnel and provide a list of employees assigned to hotel service and heavy cleaning. Employees must have security clearance as set out in the contract.

6.2 **PENALTIES FOR NON-COMPLIANCE WITH DEADLINES**

When the CONTRACTOR cannot fulfil the request for hotel service and heavy cleaning on schedule, he shall reimburse the Canada for all its costs thereby incurred, including the daily rate for rental of the room, costs of relocating users in another type of room and any other relevant expenses, such as hotel room rental and personal transportation.

6.3 **TRAINING, GENERAL KNOWLEDGE AND EXPERIENCE**

The CONTRACTOR must at all times supply personnel who meet the minimum standards for training, qualifications and experience in a hotel setting comparable to the one covered in the contract.

6.5 **DRESS**

The CONTRACTOR shall ensure that the personnel provided for hotel service and heavy cleaning on request wear the uniform provided by the CONTRACTOR. This uniform shall consist of a smock, a coverall or a shirt and trousers. The employees must wear the identification badge provided by the Manager (if applicable).

6.6 **WORK REQUEST – HOTEL SERVICE**

CONTRACTOR will, in tabular form (see example below), lists of hoteliers to perform services. This list will include the type of cleaning and the price it connected (unit price as quoted by the CONTRACTOR).

This list will serve both work order and billing. CONTRACTOR must sign the form to indicate that the services were rendered and must be approved by the manager.

6.7 **BILLING FOR HOTEL SERVICE ON REQUEST**

Hotel service will be billed at the end of each month, according to the number of units requested by the Manager. The CONTRACTOR shall invoice according to the unit price bid for each type of room to be cleaned.

6.8 **SPECIAL REQUIREMENT OF HOTEL SERVICES**

A housekeeper should be named and assigned permanently to 532. This person will have the responsibility to ensure at all times the smooth running of hotel service including training of attendant rooms.

The rates in the bid shall not be adjusted according to the differences in surface area, furniture and configuration between the various spaces in which hotel services are required.

In addition, the bid price for different types of rooms at the unit price shall include the cleaning maintenance of washrooms, baths and showers (1070S prototype) which are integrated into a room space.
