## AMENDMENT 004

This amendment is being raised to post the questions and answers, modifications to specifications and drawings, and the site visit attendance sheet for solicitation 5P201-18-0090/A.

### QUESTIONS AND ANSWERS

- Q1. I believe there is an error in the specifications in regards to the supplier for the bear proof trash can. Équiparc confirmed with us that they never fabricated the cover and the bear proof container.
- A1. Equiparc enterprise can supply the trash can enclosure (wood and steel structure) which holds the container. The contractor is required to build and supply the galvanised steel container with the Parks Canada's bear proof cover. The contractor must provide a shop drawing for approval. Further clarification will be provided in an addendum for the container (See folder DSP 4 – 5P201-18-0090 for document).
- Q2. On the drawing S100, is the type E footing existing or needs to be built? There is no type E footing. Please clarify.
- A2. There is no type E footing to build. The type B footing in the footing schedule is cancelled.
