This amendment is issued to solicitation W3508-180441/A to answer the following questions and make the following changes:

Question 1 – Regarding specification .11 (a)

- .11 Shredder must be able to handle a wide range of products, including:
(a) All ranges of plastics

Any round plastic items over 9" diameter will row on top of the shredder knives without the help of a ram hopper which is not specified. Is this acceptable?

Response - Yes. Since there is ever little round stock of shredded items the person operating the machine can just adjust stock type to reduce rolling.

Question 2 – Regarding specification .11 (a) (i)

- .11 Shredder must be able to handle a wide range of products, including:
(a) All ranges of plastics

- (i) 18" x 36" x 48" hollow with max 3" thickness of walls

Dimensions of 18"x36"x48" are specified - is this a plastic box? If so, can it be broken down prior to shedding?

Response - No this is not a box but the rough dimensions of the largest hard plastic container that could be shredded.

Question 3 – Regarding specification .14

- .14 Maximum dimensions of shredded product is 1 ½ "x 1 ½ ".

Will a shredder that produces 1 ½" x various lengths depending on the material be acceptable?

Response - Yes length can vary.

Question 4 – Regarding specification .12

- .12 Shredder cutting chamber must be able to handle products 48" wide x 18" thick x 5' length.

Can you please confirm what this item is – is it a pallet?

Response - Product size 18"x36"x48 not a pallet but chamber must be larger than max product.

Question 5 – Regarding specification .15

- .15 Maximum dimensions of the shredder system, including conveyor belt, hopper and collection point is 10' high x 6' wide x 18' long.

Can the floor space dimensions be increased to 12'h x 16'w x 19'l?

Response - Yes 12'h x 16'w x 19'l will also work

Under Annex A – Requirement and Annex D – Mandatory Technical Evaluation Criteria, delete the following:

- .14 Maximum dimensions of shredded product is 1 ½" x 1 ½".
