PART 1 - GENERAL INFORMATION

This bid solicitation cancels and supersedes previous bid solicitation number W0138-17A003/A dated 2018-04-20 with a closing of 2018-06-05 at 02:00 PM. A debriefing or feedback session will be provided upon request to bidders/offerors/suppliers who bid on the previous solicitation.

1.1 Security Requirements

There is no security requirement

1.2 Statement of Work

The Work to be performed is detailed in Annex A

1.3 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing or by telephone.

1.4 Trade Agreements

The requirement is subject to the provisions the North American Free Trade Agreement (NAFTA) and the Canadian Free Trade Agreement (CFTA).

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003](#) (2017-04-27) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of [2003](#), Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days

Insert: 90 days

2.2 Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than 7 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Quebec.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Due to the nature of the bid solicitation, bids transmitted by epost Connect service will not be accepted.

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (4 hard copies)

Section II: Financial Bid (2 hard copies)

Section III: Certifications (1 hard copies)

Section IV: Additional Information (1 hard copies)

Canada requests that bidders follow the format instructions described below in the preparation of hard copy of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](#) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment.

3.1.2 Exchange Rate Fluctuation

[C3011T](#) (2013-11-06), Exchange Rate Fluctuation

3.1.3 SACC Manual Clauses

Section III: Certifications

Bidders must submit the certifications and additional information required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

- The Bidder must confirm that they are able to meet all the requirements of the Request for Proposal (RFP) including the provision of **non-standard tools**.
- The Bidder must provide with the bid the technical sheets of the proposed Tool Box and Tool Control System. These technical sheet must be **standard existing documents**. The technical sheets must not be written documents specially drafted for this Request for Proposal.
- The bidder must demonstrate to have been in the hand tools industry for at least 10 years.
- The bidder must demonstrate a minimum of 1 year experience in the provision of tool control systems

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Required with the Bid

Bidders must submit the following duly completed certifications as part of their bid.

5.1.1 Integrity Provisions - Declaration of Convicted Offences

In accordance with the Integrity Provisions of the Standard Instructions, all bidders must provide with their bid, **if applicable**, the declaration form available on the [Forms for the Integrity Regime](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html) website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

5.2 Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

5.2.1 Integrity Provisions – Required Documentation

In accordance with the section titled Information to be provided when bidding, contracting or entering into a real procurement agreement of the [Ineligibility and Suspension Policy](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>), the Bidder must provide the required documentation, **as applicable**, to be given further consideration in the procurement process.

5.2.2 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list available at the bottom of the page of the [Employment and Social Development Canada \(ESDC\) - Labour's](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#) website (<https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#>).

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

6.1 Security Requirements

6.1.1 There is no security requirement applicable to the Contract.

6.2 Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

6.3.1 General Conditions

[2010A](#) (2016-04-04), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

6.3.2 Supplemental General Conditions

4001 (2015-04-01), Hardware Purchase, Lease and Maintenance apply to and form part of the Contract.

6.4 Term of Contract

6.4.1 Period of the Contract

The period of the Contract is from date of Contract to 1 year after the acceptance of the deliverables inclusive.

6.4.2 Delivery Date

All the deliverables must be received on or before 120 days after contract award date.

6.4.5 Delivery Points

Delivery of the requirement will be made to delivery point specified at Annex "A" of the Contract.

6.5 Authorities

6.5.1 Contracting Authority

The Contracting Authority for the Contract is:

Name: Frédéric Hamann

Title: Supply specialist

Public Works and Government Services Canada

Acquisitions Branch

Telephone: 418-649-2975

Facsimile: 418-648-2209

E-mail address: Frederic.hamann@pwgsc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

6.5.2 Technical Authority (will be complete at contract award)

The Technical Authority for the Contract is:

Name: _____

Telephone: _____

Facsimile: _____

E-mail address: _____

The Technical Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority, however the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

6.5.3 Contractor's Representative

Name: _____

Telephone: _____

Facsimile: _____

E-mail address: _____

6.5.4 Procurement Authority (will be complete at contract award)

The Procurement Authority for the Contract is:

Name: _____

Telephone: _____

Facsimile: _____

E-mail address: _____

The Procurement Authority is the representative of the department or agency for whom the Work is being carried out under the Contract. The Procurement Authority is responsible for the implementation of tools and processes required for the administration of the Contract. The Contractor may discuss administrative matters identified in the Contract with the Procurement Authority however the Procurement Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of Work can only be made through a contract amendment issued by the Contracting Authority.

SACC Manual clause [A2001C \(2008-05-12\)](#), Foreign Nationals (Foreign Contractor)

6.7 Invoicing Instructions

1. The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

Invoices must be distributed as follows:

- a. The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.
- b. On request, one (1) copy must be forwarded to the Contracting Authority identified under the section entitled "Authorities" of the Contract.

6.8 Certifications and Additional Information

6.8.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire period of the Contract.

6.9 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Québec.

6.10 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

ANNEX A - STATEMENT OF WORK

1. OBJECTIVE

- 1.1. This Statement of Requirements (SOR) is for the acquisition of one automated tool kit, including tools.
- 1.2. The goal of this acquisition is to modernize tool control by automating tool control functions in order to minimize administrative overhead for Royal Canadian Air Force (RCAF) technicians.
- 1.3. This tool kit acquisition is a prototype that will be evaluated for up to one year by 425 Escadron d'appui tactique (425 ETAC). The assessment of the tool kit will be presented to the Commander of the RCAF for potential future implementation RCAF wide.

2. INSTRUCTIONS

- 2.1. The specifications of the automated tool kit are described in detail for the: tool box (including drawers), control system (software, computer, interface), and tools. Each section describes requirements for the same automated tool kit.
- 2.2. Delivery of one automated tool kit is required to be delivered to 425 ETAC in Bagotville, QC 120 days after contract award.

3. DEFINITIONS

- 3.1. *Automated Tool Kit*: an assembly that includes the Tool Box, tool control system, and tools;
 - 3.1.1. *Tool Box*: a robust industrial platform that contains the foam drawer liners and tool identification / location system;
 - 3.1.1.1. *Tool Identification / Location System*: a marking system of the tool serial number on the tool, and in the tool cavity, to indicate the location of said tool within the tool kit.
 - 3.1.2. *Tool Control System*: an electronic system used to control, monitor, report and record use by authorized users of all tools in the automated tool kit. The system shall be automated with an on-board computer, software, and user interface.

4. GENERAL SPECIFICATIONS

- 4.1. The automated tool kit's serial number will be: AP-8. Tool box serial number AP-8 must be clearly identified on the outside of the tool box on the top left hand corner. See Annex A photo 1 for an example.
- 4.2. User support for software and mechanical problems must be available (see para 11 "Maintenance and Support of Tool Control System").

N° de l'invitation - Sollicitation No.

5. AUTOMATED TOOL KIT

- 5.1. Must have a tool control system including an onboard computer, software and user interface (see para 6 "Tool control system");
- 5.2. The automated tool kit must have an electronic locking mechanism with a mechanical back-up in event of electronic failure:
 - 5.2.1. Electronic: preferred to be operated via a magnetic card reader (see para 6.5 "Magnetic cards"); and
 - 5.2.2. Mechanical: must be operated via a key and lock system, which functions at all times (regardless of electronic system status).
- 5.3. The automated tool kit shall include a tool box (see para 7 "Tool kit and drawers" and photo 1)
- 5.4. Must have a rigid work surface on the top of the tool kit;
- 5.5. Must include all tools as listed in Annex B (see para 8 "Tools");
- 5.6. Must have a battery operated system;
 - 5.6.1. Have an automatic charging system; and
 - 5.6.2. Have an 110VAC/230VAC back up
- 5.7. Be resistant to hydraulic fluids, aviation oils and fuels. The RCAF will provide Material Safety Data Sheets (MSDS) for typical aviation products upon request.

6. TOOL CONTROL SYSTEM (COMPUTER, SOFTWARE, AND INTERFACE)

The tool control system must include a computer, software and a user interface with meets the requirements below.

- 6.1. The tool control system must allow parallel use by at least six users. It must also be able to establish and control tool kit use through the following four user access levels:

6.1.1. **Level 1 – Users**

- 6.1.1.1. Must be able to open a tool kit which is assigned "Closed (Certified)" (see para 6.2)
- 6.1.1.2. Must be able to borrow / sign-out serviceable tools; and
- 6.1.1.3. Must be able to assign Tool Kit Status as "Closed (Quarantined)" (see para 6.2)

6.1.2. **Level 2 – Maintenance Supervisor**

- 6.1.2.1. Must include the Level 1 attributes;
- 6.1.2.2. Must be able to assign Tool Kit Status as "Closed (Awaiting Certification)" (see para 6.2).

6.1.3. **Level 3 - Tool Control Attendant**

- 6.1.3.1. Must include the Level 1 and level 2 attributes;
- 6.1.3.2. Must be able to assign Tool Kit Status as "Closed (Certified)" (see para 6.2);
- 6.1.3.3. Must be able to assign Tool Status:
 - 6.1.3.3.1. Removed (Authorized) with subcategorization;
 - 6.1.3.3.2. Serviceable, following replacement or inspection.
- 6.1.3.4. Must be able to change Tool Kit Inventory list; and
- 6.1.3.5. Must be able to produce and export all available reports.

6.1.4. Level 4 – Administrators

- 6.1.4.1. Must include level 1, 2, and 3 attributes;
- 6.1.4.2. Must manage personnel access list, assignment of user level to profile, and programming/reprogramming of magnetic cards;
- 6.1.4.3. Must be able to assign “Closed (Certified)” to a “Closed (Quarantined)” Tool Kit (see para 6.2).

NOTE: The titles and labels attributed to the above access levels are used for explanation in this document. Other means of identifying the following access levels is acceptable, provided the following minimum requirements are met.

6.2. The software system must efficiently control and report on:

6.2.1. Tool Kit Status, available at all times;

- 6.2.1.1. Open: where the system identifies which authorized user has opened it;
- 6.2.1.2. Closed (Awaiting Certification): Level 2 and above user confirms that all tools are accounted for in the tool kit or have an authorized removal;
- 6.2.1.3. Closed (Certified): Level 3 and above user certifies that all tools are accounted for in the tool kit or have an authorized removal.
- 6.2.1.4. Closed (Quarantined):
 - 6.2.1.4.1. When assigned;
 - 6.2.1.4.2. When a tool inspection/calibration date is overdue the tool kit will remain locked and only accessible to a Level 3 or above user.

6.2.2. Tool Status, available at all times, must include the following information as a minimum:

6.2.2.1. Serviceable and :

- 6.2.2.1.1. in tool kit;
- 6.2.2.1.2. borrowed (see para 6.2.3);

6.2.2.2. Unserviceable and :

- 6.2.2.2.1. Removed (authorized);
 - 6.2.2.2.1.1. Broken;
 - 6.2.2.2.1.2. Inspection or calibration;
 - 6.2.2.2.1.3. Reported as lost tool;
 - 6.2.2.2.1.4. Permanent Change (pending inventory change)
- 6.2.2.2.2. Preventive Maintenance Due (i.e.: inspection, calibration);

6.2.2.3. Next preventive maintenance action;

- 6.2.2.3.1. Due date; and
- 6.2.2.3.2. Type of preventive maintenance (inspection or calibration).

6.2.3. When a tool is assigned Serviceable and Borrowed, the following details are required to be recorded against the Tool Status prior to unlocking the Tool Kit:

- 6.2.3.1. Technician (user) identifier;
- 6.2.3.2. Aircraft tail number (i.e. 742) or Off-Aircraft Maintenance;
- 6.2.3.3. Maintenance Work Order number (i.e. : 123ABC or ABC123);
- 6.2.3.4. NOTE: System must be accessible for use by multiple aircraft technicians, respecting criteria of para 6.2.3.

6.3. Real Time Reporting :

- 6.3.1. Must display Tool Kit and Tool Status (para 6.2) on the integrated display;
- 6.3.2. Must have a capability to export Tool Kit and Tools Status (para 6.2) - i.e via a USB or network cable connection.

NOTE: If WIFI connectivity is available it must be able to be disabled/enabled and must not be the sole source of export ability; and

- 6.3.2.1. Export format must be compatible with at least Microsoft Office 2013.

-
- 6.4. User Interface. The tool control system must include a user interface that includes an integrated screen with a minimum dimension of 10" diagonal. The user interface must also include a touch-screen or a permanent keyboard in order to meet all requirements described in para 6.
 - 6.5. Magnetic Cards. The company shall provide 150 magnetic cards which can be initialized, programmed and reprogrammed, as required, by a Level 4 User to control access rights as described in para 6.1.

7. TOOL BOX AND DRAWERS (photos 2 & 3);

- 7.1. The tool box must be a rolling cabinet that meets the following requirements:
 - 7.1.1. Be mobile/moveable – i.e. Have wheels
 - 7.1.2. Have lockable casters
 - 7.1.3. Have ball bearing sliding drawers
 - 7.1.4. Be a maximum of 36" wide; and
 - 7.1.5. Be lockable and sealable for transport, such that no tools can exit the closed tool kit.
- 7.2. Each drawer must contain high density POL resistant foam insert to hold tools in place (para 5.7);
- 7.3. Each tool will have only one place in the tool kit;
- 7.4. Each foam inserts must have cutouts shaped uniquely to each tool;
- 7.5. The foam inserts must be a contrasting color to the bottom of the drawer such that it is immediately visually clear when a tool is removed from the drawer (see Annex A photo 2 for an example);
 - 7.5.1. The contrast colors for the foam/drawer must be one of the following acceptable combinations: blue/yellow, black/white, blue/orange, black/red, blue/white, black/yellow;
- 7.6. The foam inserts must be removable/replaceable from the drawers;
- 7.7. The foam inserts must be snug fit to drawers;
- 7.8. The tool serial numbers provided in Annex B must be etched in the tool cavity (see Annex A photo 3 for an example); and
- 7.9. The tool box must have a safety system that prevents tipping over by allowing only one drawer to be open at a time.

8. TOOLS

- 8.1. Tools must be provided by the contractor IAW Annex B;
 - 8.1.1. **Company must be able to provide/manufacture non-standard tools from existing RCAF drawings (Annex C);**
 - 8.1.2. Where Annex B references a drawing « DWGxxx » in the part number column, company must referred to Annex C for the appropriate drawing.
- 8.2. Ratchets must have rivets instead of screws;
- 8.3. Must be laser engraved IAW Annex B the tool list “tool serial number column” (photo 4 shows an example of our current etching method);

- 8.3.1. Must be identified as per this example : AP8-140 (both the tool and its drawer's location will have the same number);
8.3.2. Sub assembly (i.e. screwdriver bit) must be identified : AP8-140A and so on;
8.3.3. For tools that have more than one part, each part will be laser etched on all its components (see photo 5 for clarity).

8.4. A complete paper and electronic list of tools contained in the tool kit, including the company's part numbers, must be provided by the contractor with the tool kit at delivery;

9. WARRANTY

- 9.1. Company must provide documentation outlining the warranty for the tools.
- 9.2. Standard tools must have a lifetime warranty.
- 9.3. Non-standard tools must have a warranty of at least one year.
- 9.4. Drawers in the tool kit (including ball bearings) must have a lifetime warranty.
- 9.5. The tool control system must have a warranty of at least one year.

10. TOOL REPLACEMENT

- 10.1. The Company must offer tool replacement.
 - 10.1.1. Damaged tools during proper use must be replaced without fees (under warranty);
 - 10.1.2. Lost tools and tools damaged by inappropriate use must be replaced at the price detailed in Annex B;
 - 10.1.3. If the replacement tool has a different shape than the original tool the company must provide a new foam insert for the applicable drawer (see paras 7.4 and 7.5).
- 10.2. The maximum delay for replacement of a tool, for delivery in Canada, is:
 - 10.2.1. 10 calendar days for a standard tool;
 - 10.2.2. 20 calendar days for a non-standard tool.

11. MAINTENANCE AND SUPPORT OF TOOL CONTROL SYSTEM

11.1 Maintenance and Technical support for the first year of the contract

The contractor must provide, at no cost, maintenance and support services for a period of 12 months following the acceptance of the Automated Tool Kit. This support will include a help line and on-site repair services. The contractor must provide support from Monday to Friday, 8:00 a.m. to 17:00 p.m., except on holidays observed by the contractor.

11.1.1 Help line

The contractor must respond to requests within 1 working days.

The service includes:

- i. Determining the nature of the problem;
- ii. Working with RCAF-Bagotville to identify the problem; and
- iii. Providing and managing the resolution of the problem.

11.1.2 Maintenance and repair services at the RCAF-Bagotville

For issues that cannot be solved through the helpline, the contractor will need to travel to RCAF-Bagotville, within 7 working days. The maintenance and repairs services include firmware updates (if necessary), parts, labour, travel and living expenses, and any other associated fees associated.

12. DELIVERY AND SITE ACCESS

Delivery: the automated tool kit is required to be delivered to 425 ETAC in Bagotville, QC 120 days after contract award.

Before delivering the equipment, the supplier must contact the Technical Authority to determine the delivery date.

Delivery will be in an area that does not require a security clearance. However, the supplier may need to be escorted during delivery.

13. INSTALLATION AND CONFIGURATION

At the time of delivery the Contractor must unpack, assemble, install and configure the Automated Tool Kit.

14. ACCEPTANCE

Acceptance must follow the installation and configuration of the Automated Tool Kit. Acceptance must be made by the Technical Authority and a Level 4 Administrator.

During the acceptance process, each function of the Automated Toolkit must be tested to demonstrate that it meets the specifications of the Statement of Work. Canada will have the right to reject any work that is not in accordance with the requirements of the Contract and require its correction or replacement at the Contractor's expense. No payment for the equipment is required under the contract if the equipment is not accepted.

15. LANGUAGE REQUIREMENT

English or French mandatory
