Amendment #002 is to address a question, to change Annex B – Basis of Payment and to further extend the closing date till August 2nd, 2018.

Question #1

With respect to your answer to Question # 3 in Amendment #001, we are requesting that VOC's be removed from the scope of work for only "**Tissue**". The answer provided in amendment 001 implies that you need VOCs in sludge, sediment and water – all of which is a standard and reasonable request. But VOCs in tissue (e.g., fish tissue) will not be needed for your program outlined in amendment 001, nor is it an industry practice to test for VOCs in tissue.

Would PSPC please revisit Question #3 to have VOC's in tissue removed from the scope of work?

Answer #1

VOC's in "Tissue" is not required.
