This amendment has been raised to amend Annex A – Statement of Requirement

Annex A – Statement of Requirement

Please Delete:

1.29 Units must have an operator's cushioned seat and backrest. Seat is required to swivel.

1.30 Units must have an operator seatbelt.

Please Insert

1.29 Units must have an operator's cushioned seat and backrest

Questions and Answers:

- There are many trucks in this product class with a 48V operating system. There are also trucks which operate on an 80V operating system, which consumes significantly less energy from the battery than the 48V system. This extends runtime and overall battery life.
- Can submissions for a machine with an 80V operating system be accepted?
- If so, how would they be evaluated? 48V machines and batteries cost less, but would not last as long, whereas an 80V machine and the accompanying battery would have a much longer expected life.

The 48V operating system is used throughout TEME fleet. Batteries must be 48V.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
