Suppliers may register for a PBN in the Supplier Registration Information (SRI) service online at the Buy and Sell internet site at: <https://buyandsell.gc.ca>. In order for suppliers to be sourced by government buyers, they must complete the registration process and activate their account in the SRI service.

Section 3 **STATEMENT OF WORK**

Training and Recruitment Services to Support the Canadian Food Inspection Agency's HOPE Peer Support Program

Background

The HOPE Peer Support Program (PSP) was launched in June 2015. The Peer Supporters received training prior to the initiation of the program but not since. The Canadian Food Inspection Agency (CFIA) is looking to support and re-engage its existing Peer Supporters by providing them with training opportunities to not only help them build on their competencies but to also sustain and strengthen the program. In addition to the training component, there are gaps in certain areas of the country where we need to recruit Peer Supporters. The recruitment of Peer Supporters would involve sending an expression of interest to all CFIA employees, screening of candidate applications, conducting face-to-face interviews, reference checks and the delivery of training to successful candidates.

The Canadian Food Inspection Agency (CFIA) employs approx. 7,000 persons with expertise in a variety of different subject areas. The CFIA workforce is comprised of veterinarians, inspectors, systems specialists, support staff, financial officers, research scientists and laboratory technicians. CFIA staff work in four main areas: field offices, which include, regional offices, offices in non-government establishments (such as processing facilities) and laboratories and research facilities.

CFIA personnel are required to respond to food safety related emergencies wherein they could be exposed to situational stress which taxes one's emotional and physical well-being.

The CFIA recognizes the importance of employees' health and wellness as well as the need to promote foster and maintain the health and well-being of its employees. It is for this reason that the CFIA provides confidential help to employees who are in need of assistance to resolve personal problems through an Employee and Family Assistance Program (EFAP).

In June 2015, the CFIA launched the HOPE Peer Support Program (PSP) whereby employees whom had had lived experience with mental health challenges and have found a path to recovery, are helping other employees through non-clinical support. We currently have 33 Peer Supporters available for employees to reach out to throughout the country.

The CFIA's HOPE Peer Support Program (PSP) provides employees with confidential, voluntary, non-clinical, mental health support that utilizes the wisdom that comes from lived experience. The PSP is complimentary to, and not a replacement for, professional medical and clinical care. The PSP is available to all CFIA employees who are struggling with mental health challenges/addictions, and/or employees who are emotionally affected by a family member or loved one with a mental health challenge or illness. Peer Supporters must be positioned to maintain confidentiality of shared information by peers, unless a breach of that confidentiality is warranted such as when there is 1) Imminent threat of harm to oneself; 2) Imminent threat of harm to others; or 3) Suspicion of, or known, child abuse or serious neglect.

In April 2016, a Statement of Sensitivity was completed to address the confidentiality concerns of the

Peer Interaction Database which houses the data from the peer interactions (such as their Branch, language preference, type of interaction; personal or work-related, etc) and ensure the protection of employee's confidentiality when collecting the data.

The PSP Guidelines (attached as a reference) state that all Peer Supporters are required to take refresher courses or additional workshops, at a minimum, every two years. The courses are intended to provide them with tools to help them in understanding constraints of breach of confidentiality, enhancing the peer-to-peer relationship, communication skills, self-care strategies, and crisis management.

We have reached our three year anniversary and require training as a refresher and re-engagement of our existing Peer Supporters from a consultant who is an expert in the field of Peer Support. In addition to training our existing Peer Supporters, the consultant is required for the provision of training to any new Peer Supporters who are recruited. The consultant is also required to help with recruitment on a national basis in response to CFIA's requirements described further in the scope of work.

A contract for this type of work is required because the CFIA does not have qualified Peer Support experts with the background and education to train Peer Supporters and assess the competencies required to become a successful Peer Supporter. It is critical that the right people (Peer Supporters) are recruited to ensure the health and safety of the Peer Supporter and CFIA employees. It is also critical that the Peer Supporters receive appropriate training to better prepare them in their role while maintaining their own health.

Scope of Work

The existing Peer Supporters successfully completed their training in 2015 using the Mental Health Commission of Canada (MHCC) Standards of Practice, officially certifying CFIA employees as qualified Peer Supporters. The intent was to provide refresher training every 18-24 months upon launch of the program. The type of training required must be in line with the MHCC's Standards of Practice. The work required is described below.

- review of basic strategies for effective peer-to-peer interactions
- crisis intervention
- importance of self-care
- confidentiality, and grounds for breaching

2. Team building

- opportunity for sharing war stories, and the kind of experiences that peer supporters have had since program launch;
- a chance for peer supporters to provide feedback on the PSP, what is working and where

- improvements could be made; and
- possible activity to help build team spirit.

3. PSP Outreach and Promotion

- brainstorm ways in which peer supporters can help to promote the PSP;
- sharing best practices for PSP promotion; and
- how to be a true ambassador for the PSP.

4. Program evaluation

- looking at challenges for sustaining the program; and
- how peer supporters could help to get feedback from employees about the value of the support they've received

Training for newly recruited and existing Peer Supporters, including but not limited to development of training and facilitating training sessions:

1. Help Peer Supporters understand how to leverage their lived experience to inspire hope in others.
2. Help build a community of practice, and a collective ability to share experiences/learning.
3. Help Peer Supporters understand and adopt a rigorous "Code of Conduct" that will, most importantly, protect the confidentiality of Peers.

Recruitment

Targeted recruitment of Peer Supporters (including expression of interest, screening candidates, interviews, reference checks, etc.) will have to be conducted based on a gap analysis that has already been completed.
