Amendment 001

Amendment 001 is being issued to address the following Questions:

- 1- Question 1) Reference: table 9, on page 22 (and also the table in page 14 and 15 in annex A), Question: on title there is Class 1B, but in size column there is Class 1. Class 1B is loose fit and class 1 is tight fit. Can you confirm the tolerance and advise which one in that table is correct (1B or 1)?

Answer 1) The taps in these tables are for a fine tolerance 5H-4h fastener and threaded hole fit. So it should be a class 1 tight fit.

- 2- Question 2) Reference: criterion 1.2 on page 11 "1.2 All items shall be supplied by the same supplier;" Question: Does it mean that the tender will be awarded to one contractor or that all taps and all gauges should be from the same manufacturer? If latter is true, We would like to ask to change it to "all gauges shall be supplied by the same manufacturer and all taps shall be supplied by the same manufacturer". The reason is that most manufacturers of gauges do not manufacture taps and most manufacturers of taps do not manufacture gauges. This would make the process competitive and let us offer Canada the best quality/price.

Answer 2) We are aware that the taps and gauges are not going to be manufactured by the same manufacturer. The intent of this requirement was to have one supplier who can source the taps and gauges, as this supplier could also be the manufacturer of the gauges.

All other terms and conditions remain the same
