It is the Bidder's responsibility to ensure that its bid is delivered on time to the appropriate address as identified on the cover page.

Amendment 02

This amendment is being raised to distribute questions and answers.

A) QUESTIONS & ANSWERS

Q1 With regards to off-site disposal of surplus uncontaminated excavation material, is Mannix Pit a suitable location? If not, is it the intent that the material be disposed of outside the Park boundaries?

A1 Off-site disposal of uncontaminated surplus excavation material is to be completed at Mannix Pit in a location and manner as directed by Parks Canada at the time of disposal. The contractor shall plan for all material to be disposed of in Mannix Pit to be neatly stockpiled into one consolidated pile. Material is to be made available for inspection by Parks Canada prior to removal to Mannix Pit. Any material suspected of contamination is to be removed from the Park.

Q2 Is any of the campground available for worker travel trailers between September 25 and May 25? The special provision do say that a workers' accommodation camp will not be permitted, but what about a couple of campsites?

A2 Banff National Park offers various campground options throughout the year. Tunnel Mountain Village 2 and Lake Louise Trailer are two such offers available 12 months a year depending on availability. Contractors planning to use the campgrounds for accommodations are encouraged to visit the Parks Canada website or Visitor Centres to review campground rules; no exemptions from those rules will be granted.

Q3 Section 03 35 05 – Concrete Floor Hardener. Item 2.1.2. We would like to request that our LIQUI-HARD be reviewed for alternate material approval.

A3 The product that is being suggested is acceptable, however, the curing agent must be compatible with this floor hardener product.

All other terms and conditions remain unchanged.
