1.2 Summary

The Canada Revenue Agency (CRA) has been running Kantech access card system and DSC intrusion alarm system independently of each other with the alarm system being monitored by an outside service provider. The CRA needs to integrate the two systems and have the monitoring of the alarm systems done internally through the access card system.

This integration will allow CRA to do the monitoring internally. The integration are for the following regions across Canada: Atlantic, Quebec, Ontario, Prairies, Pacific, and National Capital Region (Headquarters (HQ)).

The contract will be for a period of three (3) years from contract award with 3 weeks from start to finish for each site. The contract will include a 1 year option to extend the period of the contract and options to add any additional panels/sites as needed.

This requirement has a security requirement.

1.3 Glossary of Terms

TERM	DEFINITION
CRA	Canada Revenue Agency
Day/Month/Year	For purposes of technical evaluation, one (1) month shall equal a minimum of 16.67 billable days (a day equals 7.5 hours) and one (1) year equals a minimum of 200 billable days. Any additional billable days within the same year will not increase the experience gained for the purposes of evaluation.
Project	A set of activities required to produce certain defined outputs, or to accomplish specific goals or objectives, within a defined schedule and resource budget. A project exists only for the duration of time required to complete its stated objectives.

Solicitation	An act or instance of requesting proposals/bids on specific products and/or services.

1.4 Debriefings

Bidders may request a debriefing on the results of the solicitation process. Bidders should make the request to the Contracting Authority within ten (10) business days of receipt of the results of the solicitation process. The debriefing may be in writing, by telephone or in person.

1.5 Canadian International Trade Tribunal

As a general rule, a complaint regarding this procurement process must be filed with the Canadian International Trade Tribunal (the Tribunal) within 10 working days from the date on which a bidder becomes aware, or reasonably should have become aware, of a ground of complaint. Alternatively, within that time frame, a bidder may first choose to raise its ground of complaint by way of an objection to the CRA; if the CRA denies the relief being sought, a bidder may then file a complaint with the Tribunal within 10 working days of that denial. More information can be obtained on the Tribunal's Web site (www.citt-tcce.gc.ca) or by contacting the Registrar of the Tribunal at 613-993-3595.

Bidders are hereby advised that the Bid Receiving Unit of CRA is open Monday to Friday inclusive, between the hours of 0730 and 1530, excluding those days that the federal government observes as a holiday.

2.4 Communications - Solicitation Period SACC A0012T (2014-03-01)

All enquiries must be submitted to the Contracting Authority no later than seven (7) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a "proprietary" nature must be clearly marked "proprietary" at each relevant item. Items identified as proprietary will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

2.5 Applicable Laws SACC A9070T (2014-06-26)

Any resulting contract shall be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

The Bidder may, at its discretion, substitute the applicable laws of a Canadian province or territory of its choice without affecting the validity of its bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of its choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidder.

2.6 Terms and Conditions

By submitting a bid, the Bidder hereby certifies compliance with and acceptance of all of the articles, clauses, terms and conditions contained or referenced in this Request for Proposal (RFP) and Statement of Work (SOW). Any modifications or conditional pricing by the bidder, including deletions or additions to the articles, clauses, terms and conditions contained or referenced in this RFP and/or SOR document will render the bid non-responsive and the bid will receive no further consideration.

Part 3 Proposal Preparation Instructions

3.1 Bid – Number of Copies CRA MODA0055T (2007-11-30)

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (3 hard copies and 1 soft copy on CD or DVD)

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability in a thorough, concise and clear manner for carrying out the Work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

Section II: Financial Bid (1 hard copy and 1 soft copy on CD or DVD)

Bidders must submit their financial bid in accordance with the format outlined in Appendix 3: Financial Proposal. The total amount of Applicable Taxes must be shown separately.

If there is a discrepancy between the wording of the soft copy and the hard copy, the wording of the hard copy will have priority over the wording of the soft copy.

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Section III: Certifications (1 hard copy)

Bidders must submit the certifications required under Part 5.

3.2 Bid Format and Numbering System CRA MODA0054T (2007-11-30)

Canada requests that bidders follow the format instructions described below in the preparation of their bid.

- a. use 8.5 x 11 inch (216 mm x 279 mm) paper;
- b. Use recycled-fibre content paper and two-sided printing. Reduction in the size of documents will contribute to CRA's sustainable development initiatives and reduce waste;
- c. avoid the use of colour and glossy formats
- d. use a numbering system corresponding to that of the bid solicitation;
- e. include the certification as a separate section of the bid.

Part 4 Evaluation and Selection

4.1 General

A committee composed of representatives of CRA will evaluate the proposals on behalf of the Agency. The services of independent consultants may be called upon to assist in the evaluation of, or in the validation of, specific aspects of the solution proposed. CRA reserves the right to engage any independent consultant, or use any Government resources, which it deems necessary to evaluate any proposal.

Proposals will be evaluated in accordance with the evaluation criteria identified in Appendix 1 and in conjunction with the Statement of Work (SOW). Bidders are encouraged to address these criteria in sufficient depth in their proposals to permit a full evaluation of their proposals. The onus is on the Bidder to demonstrate that it meets the requirements specified in the solicitation.

Bidders are advised that only listing experience without providing any supporting information to describe where and how such experience was obtained will not be considered to be demonstrated for the purpose of the evaluation. The Bidder should not assume that the evaluation team is necessarily cognizant of or knowledgeable about the experience and capabilities of the Bidder or any of the proposed resource(s); as such, any relevant experience must be demonstrated in the Bidders' written proposal.

4.2 Steps in the Evaluation Process

The selection process to determine the successful Bidder will be carried out as follows:

Notwithstanding Step 1 below, in order to expedite the evaluation process, CRA reserves the right to conduct Step 2 - Evaluation of Financial Proposals concurrently with Step 1. Should CRA elect to conduct Step 2 prior to the completion of Step 1, the information in the Financial Proposal will not be disclosed to the team evaluating the mandatory section until the completion of Step 1. However, if the Contracting Authority is able to ascertain that a proposal is non-responsive by virtue of incomplete information or an error in the financial proposal, the Contracting Authority will advise the team evaluating the mandatory section that the proposal is not compliant and should no longer be considered. The concurrent evaluation of the financial proposal does not in any way construe compliance in Steps 1 despite the statement "All bids meeting the minimum thresholds in Step 1 will proceed to Step 2".

Bids will be ranked in accordance with the Selection Methodology.

Step 1 – Evaluation against Mandatory Criteria

All bids will be evaluated to determine if the mandatory requirements detailed in Appendix 1 "Mandatory Criteria" have been met. Only those bids meeting ALL mandatory requirements will then be evaluated in accordance with Step 2 below.

Step 2 – Evaluation of Financial Proposals

Only technically compliant bids meeting all of the requirements detailed in Steps 1 will be considered at this point.

Prices submitted will be evaluated to determine the bid evaluation price as defined in Appendix 3: "Financial Proposal". Once the bid evaluation prices are determined under Step 2, the proposals will proceed to Step 4.

Bidders must provide a price, percentage, or weight, as applicable, for each item identified in the format specified in Appendix 3: Financial Proposal. Ranges (e.g., \$10-\$13) are not acceptable.

Step 3 – Basis of Selection

Mandatory Technical Criteria:

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

Step 4 – Conditions Precedent to Contract Award

The Bidder recommended for award of a Contract must meet the requirements provided in Part 5 “Certifications and Additional Information” and Part 6 “Security, Financial and Other Requirements” of this RFP.

Step 5 – Contract Entry

The Bidder(s) with the lowest priced responsive bid and meeting all the requirements listed above will be recommended for award of a contract.

Part 5 Certifications and Additional Information

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue, whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml)" list at the time of contract award.

F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

The Contractor will integrate the two systems to run on the CRA network resulting in the removal of the internet line to an outside monitoring station. The CRA will do alarm monitoring internally. The integration are for the following regions across Canada as per Appendix A below: Atlantic, Quebec, Ontario, Prairies, Pacific, and National Capital Region.

3.0 BACKGROUND

The CRA has been running Kantech access card system and DSC intrusion alarm system independently of each other with the alarm system being monitored by an outside service provider. The CRA needs to integrate the two systems and have the monitoring of the alarm systems done internally through the access card system at the Surrey, BC site and Sudbury, ON site..

4.0 TASK

The Contractor must provide the following services for the integration of the access card and intrusion system:

- Supply and install KT-4401's at each site and program keypads;
- Connect the Maxsys and Kantech system using the KT-4401;
- Program all intrusion system points into the Kantech system for each site as per Appendix A;
- Verify that all points are viewed on the Kantech system when activated and provide a commissioning report for each site;
- Program "pop ups" for alarm points;
- Provide two training sessions in English on the intrusion and Kantech systems to our monitoring room employees located in Surrey, BC and Sudbury, ON;
- The system must be able to be armed/disarmed at the keypad, by virtual keypad;
- Officers must be able to produce alarm reports from the Kantech system.

5.0 CONSTRAINTS

- The Contractor will not be permitted to remove, or copy the data base or any information contained in the data base from the CRA premises;
- The Contractor will need to ensure that the intrusion system is active at all times during silent hours during the length of the project;
- Access to CRA space may be restricted at certain times.

6.0 CLIENT SUPPORT

CRA will:

- Provide the alarm point description for each site;
- Provide access to the site;
- Provide all contact information for the programming of the pop ups.

7.0 DELIVERABLES

- The Contractor will submit a plan outlining the actions and timelines to integrate each site while ensuring that intrusion system is active at the end of each business day and provide detail on the final cut over;
- The Contractor will provide a commissioning report for each site that the system has been fully tested and is completely operational;
- The Contractor will provide the CRA with a fully integrated access card and intrusion alarm system that will be monitored from our Surrey, BC and Sudbury, ON sites.
