Amendment 001

This amendment is raised to extend the bid closing date to 2018-08-23 and to publish questions and answers.

Question 1: The specification calls for a 2B finish on the stainless steel, however can the flats and angles be of a mill finish?

Response 1:

Yes, the flats and angles can be of a mill finish.

Question 2:

My purchaser found some 304L # 2B, with # 4 polished on one side. No 316 though, is this acceptable?

Response 2:

All stainless must be 316.

Question 3:

I would like to kindly mention that 2B finish is just for sheets which are the only cold rolled item, and other items (angle and flat bar) are hot rolled, and HARP has a lower quality than 2B finish, we would be appreciated if you would kindly change the requirement to "2B finish for sheets in item #1" instead of all items since 2B finish is irrelevant to line items 2-5.

Response 3:

Item Number 1: Stainless Steel stays 2B finish.

Item Number 2-5: Stainless Steel can be mill finish.

All other terms and conditions remain unchanged.
