**2. Question and Answer:**

**Question 1:**

In the technical evaluation criteria, it is stated that bidders must submit all work experience in the format of Table 1; later it is specifically noted that resumes are to use this format. The Table 1 format seems to relate to project experience but not to any normal way of presenting a resume; for example items (c) and (d) are difficult to address and item (e) would appear unnecessary. Can Transport Canada please clarify its expectations for the information to be include in resumes?

**Answer 1:**

Transport Canada expectation is that resumes will include information as required in Table 1 where the work or project experiences will be provided to demonstrate compliancy to mandatory or rated criteria
