Signature	Date

This solicitation amendment 004 is issued to:

1. Extend the bid closing date to September 18, 2018.
2. Answer questions from the bidders

The following questions have been submitted. They are listed in the order in which they were received and are a continuation from Amendment 003. The responses are provided as indicated.

Q2. Mandatory Evaluation Criterion M1 ("M1 Criterion"). Prior to the cancellation and retendering of this solicitation, the M1 criterion required that a proponent "must demonstrate that they have 10 years' experience in designing, manufacturing and commissioning class society approved offshore electro-hydraulic crane systems".

The M1 Criterion now states that a proponent "must demonstrate that they have designed and built three (3) different offshore electro-hydraulic crane systems in the past 10 years".

Please clarify if this is a printing or technical error?

R2. To clarify, in reference to Annex K Mandatory Technical Evaluation Criteria, M1 is not a printing or technical error.

Q3. Mandatory Evaluation Criterion M2 ("M2 Criterion"). Prior to the cancellation and retendering of this solicitation, the M2 criterion required that a proponent "must demonstrate that they have at least three (3) years of experience designing, manufacturing, and commissioning cranes of similar complexity of no less than 75% of the lifting capacity required by the SOW".

The M2 Criterion now states that a proponent "must demonstrate that they have experience designing, building and commissioning at least one (1) Class society certified, personnel lifting, offshore electro-hydraulic knuckle boom crane of no less than 75% of the safe working load of 7030 kg at a radius of 5 meters or greater in the past 10 years".

Please clarify if this is a printing or technical error?

R3. To clarify, in reference to Annex K Mandatory Technical Evaluation Criteria, M2 is not a printing or technical error.

Q4. Point Rated Evaluation Criterion R3 ("R3 Criterion"). We ask if the R3 Criterion for compliant crane project management experience is correct, as the maximum R3 Criterion applicable to proponents is 9-10 cranes per year, or less than one crane per month.

Please clarify if this is a printing or technical error?

R4. To clarify, in reference to Annex L Point Rated Technical Evaluation Criteria, R3 is not a printing or technical error.

All other Terms and Conditions remain the same.
