**This amendment is raised to make the following changes in the request for proposal (RFP).**

**Delete de section 4.1.1.1 Mandatory Technical Criteria in its entirety**

**Add;**

**4.1.1.1 Mandatory Technical Criteria**  
**Pre-Award Sample and Supporting Documentation**

As part of the technical evaluation, to confirm a Bidder's capability of meeting the technical requirements, one (1) pre-award sample of the item and test results must be included with the bid.

Fabric requirements - One (2) metres in length, full width must constitute a pre-award sample.

The Bidder must ensure that the required pre-award sample is manufactured in accordance with the technical requirement and is fully representative of the bid submitted. Rejection of the pre-award sample will result in the bid being declared non-responsive.

A tolerance of +/- 10% can be accepted at the pre-award sample for the weight but must be +/- 3% at the pre-production sample.

The Bidder must deliver the required pre-award sample and test results at no charge to Canada and must ensure that it is received with the bid at time and place of bid closing. Failure to submit the required pre-award sample and test results within the specified time frame will result in the bid being declared non-responsive. The sample submitted by the Bidder will remain the property of Canada.

Laboratory analysis of the product offered showing complete test results of physical properties (except for the color) detailed in the technical requirement of the Annex B must be provided with the pre-award sample. Testing must be performed by an independent accredited laboratory establishment and must be in accordance with the test methods detailed in the Annex B. The laboratory report and test results must be dated within 12 months of the Request for Proposal posting date.

The pre-award samples will be evaluated for quality of workmanship and conformance to specified materials and measurements. (Except for substitutions as indicated below)

If the tenderer is unable to provide a sample in the desired color in time, he can use a different color, he must enclose with the pre-award sample, a letter indicating the substitution of color and a statement which, should it win the contract, the color would be strictly in accordance with the technical requirements.

The requirement for a pre-award sample and test results will not relieve the successful bidder from submitting sample and test results as required by the contract terms or from strictly adhering to the technical requirement of this Request for Proposal and any resultant contract.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.**
