This amendment has been raised with the following changes:

**AMENDMENT #003:**

**ADDENDUM #003:**

The following changes to the tender documents are effective immediately and will form part of the contract documents:

***BIDDERS' QUESTIONS & ANSWERS***

**Q1:** I noticed this Note on Drawing E106 that the existing Device is to remain (Typical) does this mean that all Fire Alarm Devices shown on the drawings are to remain existing and to just change out the Fire Alarm Panel and just provide a New Addressable Loop?

“The Initiating Riser Diagram Conflicts will comment above Note 1. Indicates Existing FA Devices to be replaces with New”

Is this Reference just in regard to the Fire Alarm Conduit that is to remain and not the devices?

**A1:** The solid conduit note refers to the conduit which is to remain. The device will be replaced as per The Initiating Riser Diagram Note 1. Indicates Existing FA Devices to be replaces with New. And the new device will go in the same location as the existing device.

**END OF AMENDMENT**
