E. Question et Answer

Question 1:

Would you be able to confirm the pricing portion of the line item detail?

In the Unit Price there are two columns, one is Destinations and the other is Plant. There RFQ indicates pricing must included freight. Can you explain what the "Plant column" is to indicate?

Answer 1:

The section that you are referring is the Line Item Detail section, from page 3 to 108 inclusively. Disregard the "Destination" and "Plant" columns, no prices should appear in this section. The information required in the Line Item Detail section, should comprise the proposed part number, the proposed COF/CAGE, and the delivery offered. No prices is required in that section.

Follow the instructions in Part 3A – Offer preparation instructions (here attached). You must quote your prices in Annex "A1" only. All delivery charges must be included in the firm unit prices.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED

PART 3A - OFFER PREPARATION INSTRUCTIONS

3.1 Offer Preparation Instructions

Prices must appear in Annex A1 – Pricing Schedule only. No prices must be indicated in any other section of the offer.

Canada requests that offerors follow the format instructions described below in the preparation of hard copy of their offer:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the RFSO.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](https://www.tbs-sct.gc.ca/pol/doc-eng.aspx?id=32573) (<https://www.tbs-sct.gc.ca/pol/doc-eng.aspx?id=32573>). To assist Canada in reaching its objectives, Offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

Offerors must submit one (1) copy of the tender document in its entirety, duly completed and signed.

- a) Proposed products must be indicated in the Line Item detail section as follows:

PROPOSED PARTS#: _____
PROPOSED NSCM: _____

- b) Proposed delivery per item must be indicated in the Line Item Detail section in column entitled "Del. Offered" in calendar days or weeks. The delivery period start from the effective date of a Call-up.

Section II: Financial Offer

Offerors must submit a copy of the Annex A1 – Pricing Schedule with the proposed prices.

- a) Offerors must submit their financial offer in accordance with the Basis of Payment.
- b) Offerors must quote firm unit prices in Canadian dollars and Applicable Taxes excluded. All delivery charges must be included in the firm unit prices.
- c) The price offered per item must be per unit of issue, quantity one (1).

3.1.1 Pricing – Multi-Item

Offerors do not have to quote a price for every item in the Annex A1 in order to be evaluated. However, for each item for which a quote is being provided, the Offeror must provide a firm unit price for both destinations and both Periods of the Standing Offer.

3.1.2 Electronic Payment of Invoices - Offer

If you are willing to accept payment of invoices by Electronic Payment Instruments, complete the following to identify which cards will be accepted.

The Offeror accepts any of the following Electronic Payment Instrument(s):

- ☐ () VISA Acquisition Card;
- ☐ () MasterCard Acquisition Card;
- ☐ () Direct Deposit (Domestic and International);
- ☐ () Electronic Data Interchange (EDI);
- ☐ () Wire Transfer (International Only);
- ☐ () Large Value Transfer System (LVTS) (Over \$25M)

If the above is not completed, it will be considered as if Electronic Payment Instruments are not being accepted for payment of invoices.

Acceptance of Electronic Payment Instruments will not be considered as an evaluation criterion.

3.1.3 Exchange Rate Fluctuation

The requirement does not offer exchange rate fluctuation risk mitigation. Requests for exchange rate fluctuation risk mitigation will not be considered. All bids including such provision will render the bid non-responsive.

3.1.4 Equivalent Products

1. Products that are equivalent in form, fit, function and quality to the item(s) specified in the Request for Standing Offer will be considered where the Offeror:
 - (a) designates the brand name and model and/or part number and NSCM/CAGE of the substitute product;
2. Products offered as equivalent in form, fit, function and quality will not be considered if:
 - (a) the offer fails to provide all the information requested to allow the Standing Offer Authority to fully evaluate the equivalency of each substitute product; or
 - (b) the substitute product fails to meet or exceed the mandatory performance criteria specified in the Request for Standing Offer for that item.
3. In conducting its evaluation of the offers, Canada may, but will have no obligation to, request offerors offering a substitute product to provide technical information demonstrating the equivalency (e.g. Drawing, specifications, engineering reports and/or test reports), or to demonstrate that the substitute product is equivalent to the item specified in the Request for Standing Offer, at the sole cost of offerors, within three (3) business days (or other delay specified herein) of the request. If the offeror fails to provide the requested information within the specified delay, Canada may declare the offer non-responsive.

Offerors must submit the certifications and additional information required under Part 5.
