SOLICITATION AMENDMENT IS RAISED TO ANSWER THE FOLLOWING QUESTIONS:

Question 1:

Is a squaring guide larger than 600 mm required as it is not noted on the Bid? Typically most CNC shear users will need at least a 1500 mm long squaring guide. If so, please advise the length of the squaring guard required and whether one or two units are required? (since we can cut on both sides of the shear most users will order two squaring guides)

Response 1:

This was not identified as a technical requirement in section 2. You can list this as an option and it might be considered for future upgrade to the machine. (Will not be evaluated in this solicitation.)

Question 2:

Will NRC offload the machine from the Truck and place it in the correct and final location when it is delivered? Or, is the vendor responsible to provide the offloading and placing of the machine?

Response 2:

NRC will offload the machine from an open truck and place it to at the final location. (Must be on open truck or trailer).

****ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED****
