Amendment 003 has been raised to answer the following questions:

Question 3:

What packager is currently being used by CSC?

Answer 3:

A TCGRx brand autopackager is currently in place and used in 3 CSC regions.

Question 4:

Does the solution have to produce a multi-dose cellophane pouch?

Answer 4:

The TCGRx system currently in use uses a multi-dose cellophane pouch. The current RFP does not specify a requirement for this for the winning bidder

Question 5:

Regarding Part 1 1.1 Security Requirements, the RFP states "the Bidder must hold a valid organization security clearance as indicated in Part 6 - Resulting Contract Clauses". We investigated the timeline to obtain this certificate and it looks like it appears it would take up to 6 months as stated here <https://www.tpsgc-pwgsc.gc.ca/esc-src/organisation-organization/enquete-screening-eng.html#s4>

Can you confirm this is the correct timeline and if this is required to submit a bid for this RFP, or if it is required prior to installation, or other.

Answer 5:

Article 1.1.1 of the RFP states that security requirements need to be met "Before award of a contract". Article 1.1.2 states that the bidders must obtain security promptly, which means they need to start the security process now. Bidders must be sponsored by PSPC contracting authority; instructions are here: <http://www.tpsgc-pwgsc.gc.ca/esc-src/organisation-organization/enquete-screening-eng.html>. Yes, the process may take up to 6 months, which is why the process should be started at the RFP stage.

All other terms and conditions of the RFSO remain unchanged.
