INVITATION to Tender

Roof repairs – buildings 13 and A-15 CFF Laval Complex (CSC), Laval (QC)

This amendment 005 of the solicitation is raised for:

This addendum replaces a note on the plans, attached. In the breakdown of its price, the contractor must include this unit cost slip for this element of building 13. The rest of the costs, for the other elements, are fixed.

Unit price for replacement work on the damaged wood bridging, as indicated in the structural documents in the amount of _____ \$ per m². The actual quantities of wood bypass to be replaced will be established on site during construction. In this case, the monetary adjustment will be proportional (in plus or in minus) with the unit price listed above, considering the difference between the amount of wood decking established on site and that indicated in the structural drawings. This unit price is valid for the entire duration of the contract, and includes the removal of the existing bridging, the supply and installation of the new bypass, and any other costs associated with it, but does NOT include allowances for overhead, administration costs and the profits of the Contractor and subcontractors in relation to the works.

(attached plans)

Addition of pictures following the site visit.

All other terms and conditions to the original solicitation remains unchanged.
