### **Solicitation Amendment 001**

This amendment is issued to change the delivery date, extend the solicitation period and post questions and answers.

#### **Delete the following, 6.4.2 Delivery Date**

All four new Main Engine Preheat Systems for the CCGS Earl Grey **must** be received within four weeks of contract award.

#### **Insert the following, 6.4.2 Delivery Date:**

All four new Main Engine Preheat Systems for the CCGS Earl Grey **must** be received within eight weeks of contract award.

#### **Questions and Answers:**

1. The RFP indicated a society classification or Transport Canada certification for these heaters. Our supplier has an ABS Design Assessment Certificate for their product, and we were curious whether this would be acceptable in the eyes of CCG?
  - a. CCG requires the equipment to be supplied with either a Marine Classification Society type approval certificate or inspection certificate. Example of a type approval certificate being a generic certificate saying that ABS, Lloyds or DNV approves the design and use of a piece of equipment, and models are periodically inspected at the factory by class. If the product does not come with a type approval the bidders will have to include in their bid to have a class surveyor inspect these units and supply them with individual inspection certificates for each unit.

#### **ANNEX C Mandatory Evaluation**

6. Delivery (DDP Incoterm 2010) –delivery within 8 weeks of contract award.
