Amendment No. 002 - This Amendment is being issued for the following:

1. Extend the Solicitation closing date to the 26th of September, 2018

2. To respond to questions put forward by the vendors as follows:

1. When reviewing the solicitation, I did not see the survey area boundaries defined, or specific locations. Can the technical POC for the work please provide the boundary for the survey in a shape file?

Answer: Provisional Survey Instructions and other details are located at:
ftp://ftp.nrcan.gc.ca/ess/sgb_pub/ORO/201814063

2. Would it be possible to get a digital boundary file of the area of interest to be surveyed?

Answer: Provisional Survey Instructions and other details are located at:
ftp://ftp.nrcan.gc.ca/ess/sgb_pub/ORO/201814063

3. Also, although I did visit the FTP site identified in Annex A, I don't see the technical specifications clearly identified. There is a lot of information from 2017 for what appears to be largely a topographic survey – I'm not sure if that's the correct objective of the project?

Answer: See amendment 001
Provisional Survey Instructions and other details are located at:
ftp://ftp.nrcan.gc.ca/ess/sgb_pub/ORO/201814063

4. Statement of work indicates mandatory zones (1 to 4) and Optional Zones (A to E). Can these be provided preferably in shp or kml format.

Answer: See amendment 001
Provisional Survey Instructions and other details are located at:
ftp://ftp.nrcan.gc.ca/ess/sgb_pub/ORO/201814063

5. The Statement of work doesn't mention any details as to system requirements, point densities etc. Is there Scope of Work with these details.

Answer: Not specified. Data must be "suitable for creating a minimum of 0.60 metre contours/isobaths"
Provisional Survey Instructions and other details are located at:
ftp://ftp.nrcan.gc.ca/ess/sgb_pub/ORO/201814063

6. We're currently reviewing RFP NRCAN-5000040735-001, and are curious if you would be able to consider a one week extension?

Answer: Yes

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
