Insert: Annex F – Table 1; Equipment Inventory EN Amend 003

This solicitation is also hereby amended to provide the following questions and answers:

Q1. Why are you including tow license electricians in your tender package? Usually the tenders call for a generator technician and license electrician is called in when he is required.

A1. There is a requirement for a licensed electrician under the Basis of Payment, the rate varies depending if it's within working hours or not, we are not requesting two license electricians. Under the Basis of Payment, we may request a license electrician for service calls.

Q2. What technical certification papers does the license mechanic require in order to show that they have the proper certification to do the job?

A2. Copy of Electrical Generator System Certificate, License Mechanic, copy of the manufacturer generator training certificate or equivalent. The bidders should state how many years of experience the technician has, we need a minimum of 2 years' experience.

Q3. I see that you have some information regarding the generators in each location but I did not see the various filter numbers for the different brand name generators. Is it possible to provide the various filter numbers for each of the generators?

A3. The successful bidders will have to get filters based on the make/model/serial number, from the manufacturer distributor.
