Amendment 001 is raised to answer the question and incorporate the change below:

Question: In Annex "B" Table B you are requesting a price per ton for the material that is to be disposed of. In column D it states "700" in the estimated quantity. Please confirm that this is supposed to be 700 tons and not 0.70 tons? Is it the intent that this material be taken to the landfill separately? This would increase the collection time and therefore the cost substantially.

Answer: The estimated quantity for recycling is 1.5 tons/year. The basis of payment below has been amended as follows:
