ADDENDUM

Project Title:	Addendum No:
DI Conduit Replacement & Expansion	8
Project Location:	Project Number:
CSC Drumheller Institution, Drumheller, Alberta	R.078549.001
Consultant's Name:	Date:
DGH Engineering Ltd.	September 27, 2018

The following changes in the bid documents are effective immediately.
This addendum will form part of the contract documents.

General Comments

1 This Addendum addresses a bidder's question received on September 26th, 2018.

Q1. There are a few but most notably the type of conduit listed on the drawings (Schedule 40) does not match what is listed in the specifications EB-1.

The specifications appear to contradict themselves as section 26 05 34.2.1.1 calls for underground conduit to match CSA C22.2 no 211.2 but section 33 65 73.2.1.1 calls for EB-1 conduit which falls under specification CSA C22.2 no 211.1.

Does the engineer want Schedule 40 pipe or EB-1 pipe?

The way we read the specification it is EB-1 pipe.

A1. To clarify Section 33 65 73, Clause 2.1.1, Type EB1 Rigid PVC (CSA C22.2 no. 211.1) shall be used in the concrete-encased duct banks where runs of conduits are strictly underground. Where conduits transition from underground to above-grade, use Schedule 40 Rigid PVC as per Section 26 05 34, Clause 2.1.1. For all conduits that run strictly above-ground, such as on the breeze-way and in the crawlspace, Rigid Galvanized Conduit (CSA C22.2 no. 211.2) is to be used as per Section 26 05 34, Clause 2.1.2.
