- 1.1 The Bidder must have the legal capacity to enter into legally binding contracts. If the Bidder is a sole proprietorship, a partnership or a corporate body, the Bidder shall provide a statement indicating the laws under which it is registered or incorporated together with the registered or corporate name and place of business and the country where the controlling interest/ownership of the organization is located as per Appendix E of this RFP.

### **2.0 ACCEPTANCE OF TERMS AND CONDITIONS**

- 2.1 Agriculture and Agri-Food Canada will only consider Proposals which accept Agriculture and Agri-Food Canada's terms and conditions.
- 2.2 The General Conditions attached in Appendix A and those set out in Part 3 of this RFP shall form part of any Resulting Contract.

- 3.1 The cost to prepare the Proposal will not be reimbursed by Agriculture and Agri-Food Canada.

### **4.0 ENQUIRIES - SOLICITATION STAGE**

- 4.1 All enquiries or issues concerning this solicitation must be submitted in writing to the Contracting Authority named at Part 3, section 5 of the RFP. It is the responsibility of the Bidder to obtain clarification of the requirements contained herein, if necessary prior to submitting a proposal.

- 4.5 Meetings will not be held with individual bidders prior to the closing date/time of this RFP, unless otherwise specified.
- 4.6 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B)

## **5.0 RIGHTS OF CANADA**

- 5.1 Canada reserves the right to:
  - 1. Accept any Proposal in whole or in part, without prior negotiation;
  - 2. Reject any or all Proposals received in response to this RFP;
  - 3. Cancel and/or re-issue this RFP at any time;
  - 4. Ask the Bidder to substantiate any claim made in the Proposal;
  - 5. Enter into negotiations with one or more Bidders on any or all aspects of their Proposals;
  - 6. Award one or more Contracts;
  - 7. Retain all Proposals submitted in response to this RFP.

## **6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES**

- 6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:
  - 1. documentation (such as billing records) that shows that the Bidder has recently provided and invoiced another customer (with whom the Bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the Bidder may black out the customer's name and personal information on the invoice submitted to Canada);
  - 2. a signed contract between the Bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the Bidder to the resource is equal to or less than the price bid;
  - 3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
  - 4. details regarding the salary paid to and benefits provided to the individuals employed by the Bidder to provide services, where the amount of compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the Bidder to submit information (either the information described in the

examples above, or other information that demonstrates that it will be able to recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the Bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the Bidder does not demonstrate the Bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

## **7.0 MANDATORY CLAUSES**

7.1 Where the words “**must**”, “**shall**” or “**will**” appear in this RFP, the clause is to be considered as a mandatory requirement.

## **8.0 DEBRIEFING**

## **9.0 OFFICE OF THE PROCUREMENT OMBUDSMAN**

If you have issues or concerns regarding the solicitation, you have the option of raising them with the department or with the Office of the Procurement Ombudsman (OPO). The Office of the Procurement Ombudsman was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at [boa.opo@boa.opo.gc.ca](mailto:boa.opo@boa.opo.gc.ca). You can also obtain more information on the OPO services available to you at their website at [www.opo-boa.gc.ca](http://www.opo-boa.gc.ca).

## **10.0 OPTIONAL SITE VISIT**

It is recommended that the Bidder or a representative of the Bidder visit the work site. Arrangements have been made for a tour of the work site. The site visit will be held at the St-Jean sur Richelieu Research and Development Centre located at 430 Gouin blvd., St-Jean sur Richelieu, QC. **on October 04, 2018 @ 9:00 AM (local time).**

Bidders will be requested to sign an attendance form.

Bidders who do not attend or send a representative will not be given an alternative appointment but they will not be precluded from submitting a bid.

Any clarifications or changes to the bid solicitation resulting from the site visit will be included as an amendment to the bid solicitation.

**PART 2: PROPOSAL PREPARATION INSTRUCTIONS & EVALUATION PROCEDURES**

**1.0 APPLICABLE LAWS**

- 1.1 The Contract shall be interpreted and governed, and the relations between the parties, determined by the laws in force in the Province of Quebec.
- 1.2 In their bid submission, bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their proposal, by deleting the Canadian province specified in the previous paragraph and inserting the Canadian province or territory of their choice. If no change is made, the bidder acknowledges the applicable law specified is acceptable to the Bidder.

**2.0 SUBMISSION OF PROPOSAL**

- 2.1 Proposals must be submitted in hard copy as described in Article 3.0.  
  
Due to the nature of this RFP electronic transmission of proposal by such means as electronic mail or facsimile to the Department of Agriculture and Agri-Food is not considered to be practical and therefore will not be accepted.
- 2.2 The proposal **MUST** be delivered to and received by the Contracting Unit **no later than the date indicated on the cover page of this RFP**. The outside of the envelope containing the proposal should include the RFP number found on the cover page of the RFP.
- 2.4 The onus for submitting proposals on time at the specified location rests with the Bidder. It is the Bidder’s responsibility to ensure correct delivery of their proposal to the Contracting Authority.
- 2.5 The Bidders are advised that, due to security measures for building visitors, arrangements should be made in advance with the Contracting Authority for any planned in-person delivery of a proposal. Failure to do so may result in late receipt of a proposal.
- 2.6 Proposals submitted in response to this RFP will not be returned.

**3.0 PROPOSAL PREPARATION INSTRUCTIONS**

- 3.1 The proposal **must** be structured in **THREE SEPARATE ENVELOPES** as indicated below:

5.1 The Bidder may revise his/her tender by facsimile, or email, provided it is received before the RFP Closing Time. Any change resulting in an increase in the RFP price must be supported by a suitable increase in the security deposit.

However, any indication of price modification shall not reveal the amount of the original or the revised total price. Price modifications should only include the amount of the increase or decrease of the bid. Any indication of the old or the new total price will get the Proposal discarded automatically.

#### **6.0 CERTIFICATION REQUIREMENTS (Section 3)**

In order to be awarded a contract, the certifications attached in **Appendix "E"** will be required. The certifications should be submitted with the proposal. Canada may declare a bid non-responsive if the certifications are not submitted or completed as required. Where Canada intends to reject a proposal pursuant to this paragraph, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time frame period will render the proposal non-responsive.

Compliance with the certifications the Bidder provides to Canada is subject to verification by Canada. The Contracting Authority shall have the right to ask for additional information to verify that the Bidder is compliant with the applicable certifications before and after award of a contract. Any certification made by the Bidder that is determined to be untrue, whether made knowingly or unknowingly, or any failure to comply with the certifications or comply with the request of the Contracting Authority for additional information, will render the bid non-responsive.

#### **7.0 EVALUATION PROCEDURES**

7.1 Proposals will be evaluated in accordance with the Evaluation Procedures and Criteria specified in **Appendix D.**

- 7.2 An evaluation team composed of representatives of the Department of Agriculture and Agri-Food Canada will evaluate the Proposals on behalf of Canada.

## PART 3 - EXECUTION

### 3.1 Clearing during a snowfall

#### 3.1.1 General

- a) The surfaces to be cleared are shown in Annex A with the areas estimated as follows:

Total = 6,900 m<sup>2</sup>

***Note: This is a rough estimate. The bidder is responsible for determining the exact area to be maintained.***

- b) Note that accumulations of snow caused by wind, whether associated with a snowfall or not, are to be considered a snowfall for the purposes of this contract.
- c) The Contractor is responsible for keeping up to date on weather forecasts and for checking, on a regular basis, the surfaces to be cleared in order to ensure that the obligations under the contract are met.
- d) The Contractor is responsible for supervision and planning and must not wait to be contacted by the Project Manager to mobilize workers, except in the event of additional work to be performed upon request.
- e) In the absence of any notice to the contrary from the Project Manager, snow banks can be tolerated on the edges of areas to be cleared up to a maximum height of 90 cm. At no time shall the snow pile up in such a way that access to fire hydrants is blocked. The Contractor is fully responsible for the immediate removal of snow and ice for public safety and the unhindered flow of vehicular traffic.

#### 3.1.2 Performance: Clearing during a snowfall

**Note: The fire hydrant must remain visible AT ALL TIMES.**

**a) Clearing during the non-busy period**

Clear the target surfaces as many times as required to ensure that the site is accessible and safe.

At 7 a.m., the snow accumulation must be less than 10 cm from Monday to Friday on regular business days.

Pile up the snow so that there is the least possible hindrance to the movement of vehicles and pedestrians.

**B) Clearing during busy periods (from 7 a.m. to 4:30 p.m.)**

Clear the target surfaces as many times as required to ensure that the snow accumulation is always less than 10 cm.

Do not build up snow banks in front of or behind parked vehicles.

**3.2 Snow removal after the snowfall ends**

**3.2.1 General**

The surfaces to be cleared are shown in Annex A.

- Note that accumulations of snow caused by wind, whether associated with a snowfall or not, are to be considered for contract purposes as though they were caused by a snowfall.
- The Contractor is responsible for keeping up to date on weather forecasts and for checking, on a regular basis, the surfaces to be cleared in order to ensure that its contract obligations are met.
- The Contractor is responsible for supervision and planning and must not wait to be contacted by the Project Manager to mobilize workers, except in the event of additional work to be performed upon request.
- In the absence of any notice to the contrary from the Project Manager, snow banks can be tolerated on the edges of areas to be cleared up to a maximum height of 90 cm. At no time shall the snow pile up in such a way that access to fire hydrants is blocked or illegal crossing of the fences is facilitated.

**3.2.2 Performance: Snow removal after the snowfall ends**

- a) Wait for the non-busy period that follows the end of a snowfall and then remove the snow from the surfaces, so that at 7:00 a.m. they are entirely free of snow.

- b) Snow removal involves clearing all the surfaces shown in Annex A one last time, without regard to the depth of the accumulation on the ground.
- c) Vehicles that are parked during the non-busy period must be bypassed.
- d) Snow within one metre of every fire hydrant (see Annex A) must be cleared and a one-metre-wide access path must be created to the nearest road.

### **3.3 Salt spreading**

#### **3.3.1 General**

- a) All the costs associated with supplying and spreading chemical de-icers are included in the lump sum contract price for the entire term of the contract (see Annex C).
- b) Spreading services are an integral part of the services included under this contract, and these shall be provided without additional cost, including between snow falls.
- c) The spreading of chemical de-icers also extends to situations involving ice pellets, freezing rain and surfaces that become icy due to cold temperatures, whether or not there has been any rain.
- d) When the weather forecasts predict ice pellets or ice storms, the Contractor shall, without delay, proceed with preventive spreading of chemical de-icers, so as to prevent ice formation in compliance with the requirements under this contract.

#### **3.3.2 Products**

Unless there is notice or authorization to the contrary from the AAFC Project Manager, the required product shall be:

Product: Salt (sodium chloride)

### **3.4 Transport of snow**

Zones are identified for use as a snow depot. When full, the snow must be transported away from the site. The work must be conducted outside busy periods. Snow cannot be removed to or deposited on neighbouring properties.

Definition of "full":

For zone A: when snow occupies more than one third of this section of the parking lot.

For zone B: when snow spills onto the sidewalk.

For the two other zones, there is enough space for the season, unless the snow encroaches on parking areas. In this case, the snow shall be transported away from the site.

## **PART 4 - ADDITIONAL WORK REQUIRED**

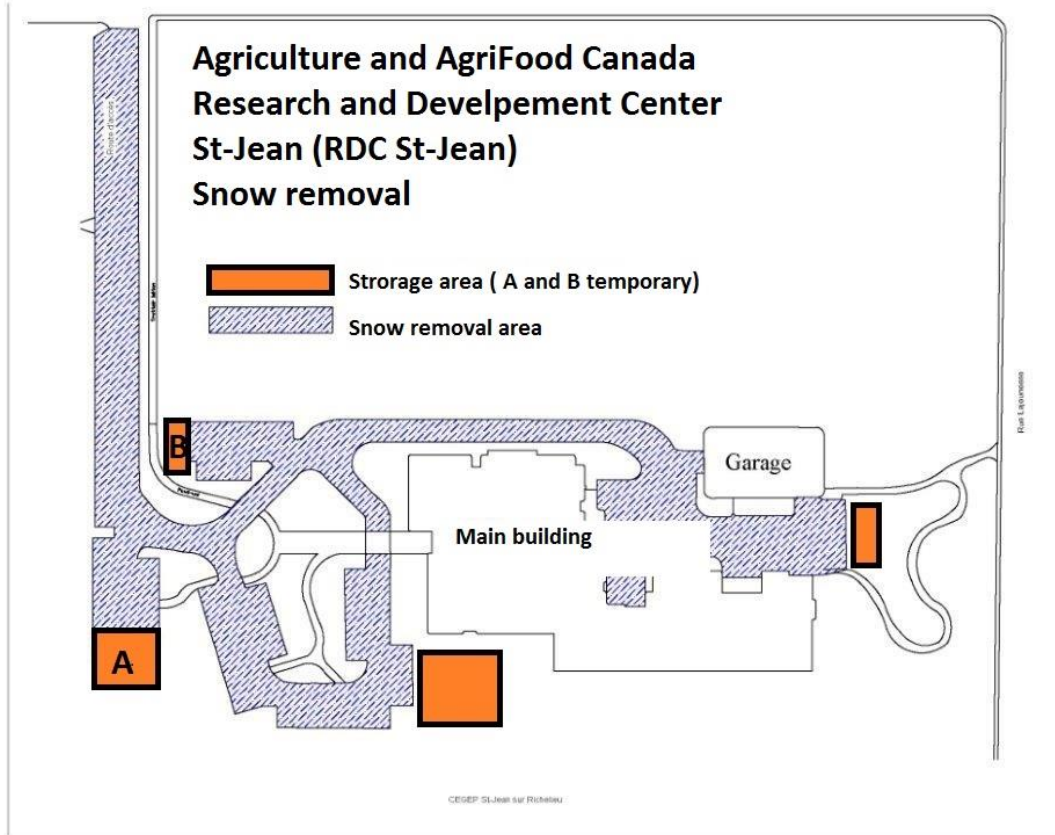

### **4.1 General**

Supply, upon request by the AAFC Project Manager, all work, products, equipment and material necessary to perform the services requested as “additional work” that may, from time to time, be required at the sole discretion of the Project Manager.

The Contractor shall be available for the “additional work” requested within four hours following the request by the AAFC Project Manager.
