ADDENDUM NO. 1

Subject: ITT Invitation to Tender No. FP802-180122

Title: New Tower Installation

Location: Lancaster, ON

Closing Date: Thursday October 4 , 2018

Closing at: 2:00 PM, Eastern Standard Time (EST)

Invitation to Tender No: FP802-180122

Dear Sir/Madam:

Further to the above-mentioned Invitation to Tender, this **Addendum no.1** is to advise potential bidders of the following Question & Answer 1 to this tender call to date:

Question 1: Request for clarification : Please confirm if the new concrete foundation has to be anchor into the existing helipad.

If so, please provide details on how you want the new foundation to be anchored.

Answer 1:

It is the responsibility of the successful contractor to complete the design of the foundation in consideration of the loads and geotechnical information provided (reference section 310099).

The decision regarding anchoring is to be determined by the Engineer retained by the successful Contractor to complete this portion of the work and work is to be executed by the Contractor in accordance with their design.

Drawing titled “Proposed Construction” is provided to convey system requirements such as location and elevation only.

Bidders may assume a reinforced concrete slab on grade having surface dimensions of (3.05 x 3.05 x 0.90m) for the purposes of initial estimation and project costing; however, the final constructed elements may differ in accordance with the Engineer’s stamped design.
