## SOLICITATION AMENDMENT # 002

This solicitation amendment is raised to:

1. Address the following questions submitted during the solicitation period as per RFP; and
  2. Amend the RFP: Mandatory Criteria and ANNEX A: STATEMENT OF WORK.
- 

### 1. QUESTIONS AND ANSWERS

Q7. For type C First Aid Kit, one of the components is a stretcher, was this an error?

A7. As per the Canada Occupational Health and Safety Regulation, Part XVI, Schedule II, a type C First Aid Kit must come with a stretcher.

Q8. Re M26, the minimum required is 6 cm and maximum 5.5cm, these may have been reversed.

A8. Please refer to amendment M1 below for changes to the dimensions.

Q9. Regarding the container:

- 1) A soft-shell padded container made of fabric?
- 2) What colour?
- 3) A screen print of a cross on one side?
- 4) With glow-in-the-dark tape?
- 5) Different dimensions for each model: A, B and C?
- 6) Does the 10-lb weight include the content?
- 7) Do you have a photo of what you currently have?

A9. Regarding the container:

- 1) The container may be made of fabric.
- 2) The Agency does not require a specific colour.
- 3) A screen print of a cross on one side is not required.
- 4) Glow-in-the-dark tape is not required.
- 5) There are no specific dimensions for each model. The kits must be able to hold the items mentioned in M8, M9, and M10.
- 6) The weight includes the content.
- 7) The Agency cannot provide photos.

Q10. Regarding the splint sets:

- 1) Do the splints have to fit inside the kit?
- 2) What are the dimensions of the splints?
- 3) Are they wooden?
- 4) If there is a new, malleable, padded product that can be cut into different dimensions and that is more comfortable when a fracture is immobilized, can it be submitted?

A10. Regarding the splint sets:

- 1) The splint sets must fit inside the kit.
- 2) There are no mandatory dimensions.
- 3) They can be made of wood, but must meet the mandatory criteria.
- 4) Yes, but it must meet the mandatory criteria.

Q11. What is the difference between dressings: combination, dressings: compress, and dressings: gauze sterile?

A11. Please refer to the details provided in amendment 001.

Q12. What are the dimensions of the plastic bags?

A12. There is no size requirement, but the bags must fit in the first aid kit.

Q13. Aside from the dimensions, what is the difference between bandages: adhesive strips and self-adhering gauze bandage? Is it the same product?

A13. It is not the same product. Another term of an adhesive strip bandage would be a bandage and an example of a self-adhering gauze bandage would be a bandage roll or conforming stretch gauze bandage

Q14. Should the blankets: bed type be in the kit or in a separate plastic bag?

A14. The blankets: bed type can be either in the kit or in a separate plastic bag.

Q15. One-size, disposable nitrile gloves do not exist. Gloves are available in small, medium, large, or extra-large, which are the most common sizes.

A15. Please refer to the M3 modification below for the modified dimensions.

Q16. I notice that there is no "bandage roll," which is always part of a first aid kit.

A16. Another term for the self-adhering gauze bandage is a bandage roll or conforming stretch gauze bandage

## 2. AMENDMENTS TO THE RFP

### M1. At Appendix 1: Mandatory Criteria

**DELETE:**

M26.	<p>The Self-adhering gauze bandage must:</p> <p>1) Be minimum 6 cm to maximum 5.5 cm in size.</p> <p>In order to demonstrate compliance with M26, the Bidder must provide an image and detailed description of the proposed Self-adhering gauze bandage.</p>
------	--

**INSERT:**

M26.	<p>The Self-adhering gauze bandage must:</p> <p>1) Be minimum 6 cm to maximum 5.5 m in size.</p> <p>In order to demonstrate compliance with M26, the Bidder must provide an image and detailed description of the proposed Self-adhering gauze bandage.</p>
------	---
