# ARTIFICIAL INTELLIGENCE

## Invitation to Qualify

**This Amendment 006 is issued to respond to questions from industry.**

### QUESTIONS AND ANSWERS

Section 2.1.1 of the Terms & Conditions provides that “Canada retains all rights to any Canada Content, including all derivatives and cognitive insights that may be discovered from the use of artificial intelligence technology”:

**Question 029:**

- A) Can you clarify what restrictions arise from this provision, and whether it limits a supplier's ability to use or commercialize the developed artificial intelligence technology outside this agreement?
- B) Is the Canadian government open to negotiating a clause which would give the supplier a license back to the cognitive insights that may be discovered from the use of artificial intelligence technology?
- C) In section M1 of the evaluation criteria, it states we must have at least one reference per project. We were wondering what that specifically means, is that referring to internal or external references?

**Answer 029:**

- A) *As each client's AI requirement may differ with regards to IP rights and ownership, future solicitations under the established source list will outline the IP requirements for each individual solicitation.*
- B) *The decisions related to IP ownership, rights and licensing will be determined at the individual solicitation process for each client.*
- C) *Suppliers are requested to provide a reference for the customer for which the work was performed.*
