

**Amendment 1
(Q & A #1)**

**Request for Standing Offer (RFSO) for Vehicle Inspections, Maintenance and Repair Services
AAFC Morden Research and Development Center**

**Buy and Sell Reference Number: PW-18-00847197
Solicitation Number: 01R11-19-S010**

This solicitation amendment has been raised to answer a question asked by a potential bidder during the tendering period. The following question has been asked and answered as follows.

QUESTION 1

I am looking at the maintenance and repair tender and there is only one spot to pricing for the 3 different maintenance packages. Pricing varies depending on vehicle, a uplander van package would be different than a dodge 3500 package. Can you clarify?

ANSWER 1

The intention of this solicitation is to identify one supplier who will provide regular inspections and subsequent maintenance and repairs for our fleet of light-duty vehicles located at Morden, Manitoba. One ton trucks and larger farm trucks are not included in this Request for Standing Offer as identified in Appendix B, Statement of Work, Item 1. Objective.

We understand that different vehicles have different maintenance packages, however, we also realize that routine maintenance and inspections serve to identify deficiencies which then would likely be addressed by the same service provider. Service providers should keep this in mind when offering their pricing for the Check Lists.
