Solicitation Amendment No. 003 is being issued to address the following questions:

A) Questions and Answers

Amendment:

A) Questions and Answers

- Q1:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 2 - Capacity:
What is the actual maximum load weight that will be handled by this forklift?
Also, what is the capacity (maximum load weight) required at the top beam / level?
- A1:** 5,000 lb capacity will provide us with the weight capacity necessary to move all potential equipment in our labs.
The top beam level would have to be high (5,000 lb capacity should accommodate this) as we have to move our stainless steel volumetric large measures from the mezzanine.
- Q2:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 3 - Battery:
Please elaborate on what "auxiliary counterweight spacer platform" means.
- A2:** "Auxiliary counterweight spacer platform" means that we need a space (either as a tray or platform) at the back of the forklift to add additional weight as a counter balance.
- Q3:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 3 - Battery:
What does "25 and up battery compartment" mean?
- A3:** A "25 and up battery compartment" means a 25" wide or depth battery compartment (not the height).
- Q4:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 4 - Mast:
Not clear whether the Maximum fork height needed is 183" or 200" or 250"?
Why is there such a vast range (from 80 to 200") for Maximum Lift Height?
Is the Overall lowered Height required to be between 80 to 90"?
- A4:** The height has to be 183" or higher not exceeding 200" with a load. Without a load, it would be 250" max.
Overall lowered height has to be minimum 80" as per Peter's last response to this question.
- Q5:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 10 – Operator Compartment:
Is this an additional display requirement?
Or are you asking for the standard display to be mounted high up?

Solicitation No. - N° de l'invitation

CCC No./N° CCC - FMS No./N° VME

-
- A5:** It would be a replacement of the standard indicator or an additional display mounted up higher so that we can see the display as we operate without taking eyes off of load.
- Q6:** With respect to Annex "A" - Requirement, Section 2.4 - Minimum Mandatory Technical Specifications, Sub-section 11 – Directional Control:
What does "seat side directional control" mean?
- A6:** "Seat side directional control" means that the controls for the forks must be beside the seat. Not to the left of the driver or above high as in some existing models.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
