PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003 \(2018-05-22\)](#) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of [2003](#), Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days

Insert: 90 days

2.2 Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated in the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to PWGSC will not be accepted.

2.2.1 Improvement of Requirement during Solicitation Period

Should bidders consider that the specifications or Statement of Work contained in the bid solicitation could be improved technically or technologically, bidders are invited to make suggestions, in writing, to the Contracting Authority named in the bid solicitation. Bidders must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular bidder will be given consideration provided they are submitted to the Contracting Authority at least 14 days before the bid closing date. Canada will have the right to accept or reject any or all suggestions.

2.3 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

2.4 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than then (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.5 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Quebec.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](#) (<https://www.tbs-sct.gc.ca/pol/doc-eng.aspx?id=32573>). To assist Canada in reaching its objectives, bidders should:

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

The mandatory technical criteria are detailed under Annex "C".

4.1.1.2 Point Rated Technical Criteria

The point rated technical criteria are detailed under Annex "C".

4.1.2 Financial Evaluation

4.1.2.1 SACC Manual Clause [A0220T \(2014-06-26\)](#), Evaluation of Price.

4.1.2.2 For Financial Evaluation purposes, see Annexe "D" for the calculation.

4.2 Basis of Selection - Highest Combined Rating of Technical Merit and Price

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. obtain the required minimum of 216 points overall for the technical evaluation criteria which are subject to point rating.

The rating is performed on a scale of 360 points.

2. Bids not meeting (a) or (b) or (c) will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70 % for the technical merit and 30% for the price.
4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70 % .
5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30 %.
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.

7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 60/40 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$45,000 (45).

Basis of Selection - Highest Combined Rating Technical Merit (60%) and Price (40%)				
		Bidder 1	Bidder 2	Bidder 3
Overall Technical Score		115/135	89/135	92/135
Bid Evaluated Price		\$55,000.00	\$50,000.00	\$45,000.00
Calculations	Technical Merit Score	$115/135 \times 60 = 51.11$	$89/135 \times 60 = 39.56$	$92/135 \times 60 = 40.89$
	Pricing Score	$45/55 \times 40 = 32.73$	$45/50 \times 40 = 36.00$	$45/45 \times 40 = 40.00$

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

Failure to provide this certification completed with the bid will result in the goods and services offered being treated as non-Canadian goods and non-Canadian services.

The Bidder certifies that:

() a minimum of 80 percent of the total bid price consist of Canadian goods and Canadian services as defined in paragraph 5 of clause [A3050T](#).

For more information on how to determine the Canadian content for a mix of goods, a mix of services or a mix of goods and services, consult Annex 3.6.(9), Example 2, of the [Supply Manual](#).

If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

STATEMENT OF WORK

QUEBEC COLLEGE-LEVEL EDUCATION

Summary

This Statement of Work (SoW) describes the three (3) service components the contractor shall deliver to Royal Military College (RMC) Saint-Jean under this contract, namely:

1. Accredit and administer all college-level courses given at RMC Saint-Jean because RMC Saint-Jean is not certified by the Quebec *Ministère de l'éducation et des Études supérieures du Québec* (MEESQ) as a college-level educational institution (section 3);
2. Provide educational support services for all RMC Saint-Jean students enrolled in college-level courses (section 4); and
3. Provide educational services for certain college-level courses at RMC Saint-Jean, and technical support services for the laboratories which may be used during some courses (section 5).

1. Context

- 1.1. Royal Military College Saint-Jean (RMC Saint-Jean), which is located in Fort Saint-Jean in Saint-Jean-sur-Richelieu, administers college-level courses in English and French which meet the requirements by the MEESQ. Mandated by the Canadian Armed Forces, this training prepares students for university programs at the Royal Military College of Canada, RMC Saint-Jean, or any other university program. As a result of the differences in students' educational path, some will not obtain a diploma of college studies (DCS) from the MEESQ.
- 1.2. RMC Saint-Jean can accommodate approximatively 285 college-level students¹ a year (with opportunity for growth up to a maximum of 350 students). Two college-level programs are offered: natural sciences and humanities. One school year consists of two 15-week sessions, and exam periods may be added. Both of these programs lead to a DCS recognized by the MEESQ.

¹ In this document and in all those related to the current call for submission, the term "student" should be interpreted as it follows: "Any member of the Canadian Armed Forces (CAF) admitted in a post-secondary programme recognized by the MEESQ. This mainly includes, but not exclusively, the officer-cadets accepted under the Regular Officer Training Plan (ROTP)."

Some or all of the contractor's services under this contract may no longer be required during the year, for example after the public service hires staff, all or part of a section is reorganized or removed. RMC Saint-Jean will notify the contractor at least 90 days before making any changes.

3. Accreditation and administration of educational programs

1.3 Price indexation

1.3.1 Price indexation

The firm prices and the daily or per diem rates of ALL services on Schedule "B", Basis of Payment, will be changed annually, beginning on the first day of Year 2, by an amount determined on the basis of percentage increase or decrease in the average annual index of the Consumer Price Index, Training and Reading for Quebec (the annual index applies, not the monthly), published by Statistics Canada in the Catalog number 62-001-X, Table 9.5, according to the following formula:

$$\text{Indexation} = (A/B - 1) \times 100$$

In the cases where:

A = Average monthly CPI training and reading for Quebec for the 12-month period ending 3 months prior to the current contract year, with a precision of two decimals.

B = Average monthly training and reading CPI for Quebec for the 12-month period ending before the end of Contract Year 2, with a precision of two decimals.

Exemple:

At year 2 of the market beginning on August 1, 20XX, Year 1 rates in Appendix "B" would increase by 2.40% based on the following assumptions:

A = The average annual index for the 12-month period ending April 20XX (three months before the current contract year = 145.3)

B = The average annual index for the 12-month period ending April 20XX (one year before the current contract year = 141.9)

$$\text{Indexation} = (A / B - 1) \times 100$$

$$\text{Indexation} = (145.3 / 141.9 - 1) \times 100$$

Indexation: 2.40%

1.3.2 Annual indexation

The Contractor must notify the Contracting Authority in writing of the applicable Annual Price Index (IAP) no later than January 30th before the beginning of the New Year. The Contracting Authority will, in turn, verify the information and amend the contract accordingly to reflect firm prices and revised hourly labor rates. Until the indexing of firm prices and hourly labor rates is effected by a contract amendment, the firm prices and hourly rates that were in effect in the last twelve months will be used, the changes needed being paid or credited by the contractor shortly after completion. The same process will apply to each optional period, if Canada invokes it.

1.3.3 Termination of a price indexation index

If any of the price indexation indexes mentioned in the contract are no longer available, or if its reference base should be modified by Canada, the parties agree to negotiate to establish a replacement index.
