QUESTIONS AND ANSWERS

Q1 There is a difference between the French version, page 8 of 24 and the English version page 8 of 23.

R1 See Amendment 001 of the Request for Proposal. Article 4.1.1.1 has been modified.

Q2 **Please clarify this task : At 1.0 SCOPE Important Note:**

- *All data (disconnect and reconnect) must be supplied and installed by the Contractor; and*
- Connection to the access control system must also be done by the Contractor.

The system control access at the Supreme Court of Canada (SCC) is managed by an integrator with whom SCC has a contract. That same integrator will probably respond to your RFP. They will therefore be privileged by being the only one able to connect (cad programmer and integrate the readers with the system control access). We don't agree with asking the Contractor for a price for this task.

In previous similar RFP's, generally the scope of connecting is excluded from the RFP. These costs are assumed by the occupant in an effort to ensure all Bidders are on equal footing.

A2 At Annex A SOW - 1.0 SCOPE Important Note: - Connection to the access control system must also be done by the Contractor

Delete: Connection to the access control system must also be done by the Contractor

Insert: Contractor must work with the SSC appointed Security System Technician on the day of the install to ensure both the turnstile and Card access are working effectively.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
