F5211-180561

Wharf Demolition, North Harbour, St. Mary's Bay, NL / Démolition d'un quai, North Harbour (baie St. Mary's), T.-N.-L.

Question #1

Please note I believe there is an error in the Flotation Boom spec

The statement "Closed cell polyethylene flotation log enclosed in a UV stabilized reinforced **polyethylene** pocket" should read "Closed cell polyethylene flotation log enclosed in a UV stabilized reinforced **PVC** pocket"

Response #1

In the Specification under Section 31 23 29 Containment Boom, Part 2 – Products, 2.1 Materials

Revise 2.1.1.1 To read

"Closed cell polyethylene flotation log enclosed in a UV stabilized reinforced Polyvinyl chloride pocket."
