***AMENDMENT 002 IS RAISED TO POST ANSWERS TO ENQUIRIES FROM  
POTENTIAL BIDDERS (Q&As):***

**Q1:** CAT 5 Items A1 & A2: Due to the possible restrictions of table support beams would a trackless keyboard tray that can still articulate above and below the work surface be acceptable?

**A1:** Acceptable as long as the range of ergonomic adjustments are within the requirements as stated in the SA.

**Q2:** NON-SA Item WA3. Would the CA accept a tolerance of +/- 1"H?

**A2:** Yes, a tolerance in height of +/- 1" is acceptable.

**Q3:** NON-SA Item A8: Wire management that supports both the horizontal and vertical run of wires can be provided. Would the TA please further explain what "Z-wire management" is? Is this in relation to a specific application or manufacturer's term? An image for clarity would be appreciated.

**A3:** It is not necessary that of z-wire management. Wire management system must conceal wires running from the base cable pathway up to desk height and above or from desk height cable pathways to above.

**Q4:** NON-SA Item L1. : Please clarify if the under cabinet light is to fit under a 30"W surface or be 30" itself. If the latter, would the CA consider a tolerance of +/- 6".

**A4:** L1 is intended to fit under the 30" wide WS3 (overhead storage) and above the 60"W WA3 (tackboard), therefore the overall length of the light is intended to be 30" in length also. Only a shorter length up to -6" is acceptable (to be installed centred to WS3 above).

***All other terms and conditions remain the same.***
