## AMENDMENT 002 RECONSTRUCTION OF WHARF CARLETON-SUR-MER

The purpose of Amendment 002 is to provide answers to the questions asked.

Please apply the following changes to the Invitation to tender (ITT):

1) Questions and Answers 4 to 6

---

### 1) Questions and Answers:

#### QUESTION 4

DRAWING 04 / 36 Note on section 102/2/4 :

- A. Existing sheet pile must be painted from elevation +0.5m. A major part of sheet pile is under water from this level.
- B. Moreover, there will be plate and concrete installation on that wharf face.
- C. Could you be more precise?

#### ANSWER 4

DRAWING 04 / 36 Note on section 102/2/4 :

- A. Work must be done considering tides and curing time for paint.
- B. Refer to description of items for payment regarding this point.

#### QUESTION 5

Drawing 05/36 – Note on section 103 /2/5:

- A. Existing sheet pile must be painted from elevation +0.5m. A major part of sheet pile is under water from this level.
- B. Moreover, there will be plate and concrete installation on that wharf face.
- C. Could you be more precise?

#### ANSWER 5

Drawing 05/36 – Note on section 103 /2/5:

- A. Same as question 4
- B. Same as question 4

#### QUESTION 6

Drawing 19/36 – Elevation / rebar and detail 120/17/9:

- A. Left hand side detail, U bars are not welded to 16 X 50 plates. They are on right hand side detail. More info please.
- B. Left hand side detail, 5 vertical 20M bars are welded to U bars, so it might be difficult to install plates with studs and J-bolts through U bars and vertical bars. More info please.
- C. Right hand side detail, 3 20M vertical bars are not welded to U bars. More info please.
- D. Left hand side and right hand side details, it is asked for a 22 X 60 mm hole, but rods and bolts are 25mm Ø. More info please.

- 
- E. Right hand side-hand side detail, it is asked to shop weld 25 mm Ø rod to 9.5mm plate, so it might be difficult to install plates with studs and J-bolts through U bars and 3 20M vertical bars, because no adjustment would be possible. More info please.
  - F. Left hand side and right hand side hand side details. It is asked to grind flush with plate. Do we understand that 25mm nuts and 100X100X6.4 plates must be taken off and that rod shall be grinded to 9.5mm plate?
  - G. Left hand side detail, stud shop welded. Right hand side stud not welded. More info please.
  - H. On elevation view, J bolts and rods are spaced 500mm c/c. In both details at bottom of drawing, they are spaced 750mm. More info please.
  - I. We would like to know about metal finishes for that drawing and other drawing generally speaking.

#### ANSWER 6

##### Drawing 19/36 – Elevation / rebar and detail 120/17/9:

- A. It's a typo, U bars shall be welded to flat bars and to 20M rebar for both details. Studs shall be welded for both detail. This point will be shown on drawing on addendum.
- B. Studs and J bars are staggered and will not interfere with U bars. It is a detail that have been use in many projects by various contractors without any problems. It will be accepted to replace studs by bent rods, in a way to be hooked to U bars.
- C. See first item
- D. Replace 22 X 60 holes by 27 X 60 holes.
- E. Welding should apply to studs and not for J Bolts.
- F. Yes
- G. See point #1
- H. Spacing will be 500mm
- I. Black steel for inside fabricated metal and painted for plate (see description of item for payment). For other item, refer to applying detail and specification.
