ANNEX « A » STATEMENT OF WORK

Introduction

The Department of Canadian Heritage (PCH) is seeking professional Canadian artists who work with large-scale outdoor formats, including interactive and light installations. PCH wishes to showcase Canadian artistic excellence to enrich the visitor experience in Canada's Capital Region. This is an opportunity for artists to present their art in highly visible locations in downtown Ottawa and Gatineau.

Objectives

PCH is inviting artists to submit **up to three existing artworks** to be retained as part of a pre-qualified artwork inventory. This inventory will remain active from January 2019 to December 2020, with a possibility of a one-year extension.

Once the artworks are pre-qualified, PCH may then select one or more for exhibition for a determinate period. This may be as part of a major event held in Canada's capital or as an autonomous installation for an extended duration (e.g., 1 to 2 years).

Artistic Considerations

The artwork should create a compelling visual experience that would encourage visitor engagement—from inspiring contemplation to providing photo opportunities—and transform the space where it is installed. The various sites considered for installations typically feature both urban and natural elements, providing opportunities for artworks of diverse styles, forms, materials and themes.

- The artwork must be of a suitable scale for an outdoor public space.
- The artwork should offer a strong visual presence both in the daytime and evening.
- The artwork may integrate the use of light.
- The artwork may include interactive elements, such as voice, sound, lights, and games.
- The artwork must be in excellent condition and have few or no maintenance requirements.

Process

The proposed artworks will be pre-qualified by a jury of experts to form an artwork inventory that will remain active for a period of two (2) years with the possibility of a one-year extension under the same conditions. When appropriate, pre-qualified artworks will then be chosen from the inventory to be exhibited for a determinate period.

All artists will be notified of the results of this Call for Proposals by email. Artists whose proposals have been pre-qualified for the inventory will then be called upon only if the artwork has been selected for exhibition. Should the artist agree with the conditions of the proposed exhibition (i.e., site, duration, event), PCH intends to enter into a contracting agreement that could range in value from \$4,000 to \$20,000 excluding applicable taxes. Value will be negotiated with the artist based on CARFAC (Canadian Artists Representation / Le front des artistes Canadiens) fee schedule and in accordance with project requirements and duration.

Note that pre-qualification in the inventory does not mean that the artwork will necessarily be exhibited. See further details under Selection Criteria below.

Eligibility Requirements

Applicants must be a Canadian artist or design professional 18 years and over with Canadian citizenship or permanent residency status.

Submission Requirements

Artists may submit proposals for **up to three existing artworks**. A separate and complete submission package must be provided for each proposed artwork. Each submission package must contain the following components:

- One file (e.g., Word or pdf) no larger than 2 MB that includes the following documents:
 - 1) Cover page including your name, coordinates (address, telephone, email) and artwork title
 - 2) Description of the artwork, including:
 - a) Statement about the artwork (200 words maximum)
 - b) Images of the artwork (photographs, renderings, sketches)
 - c) Dimensions and materials
 - d) Installation methods
 - e) Suitable outdoor conditions for installation:
 - Will the artwork sustain winter conditions?
 - What is the estimated length of time that the artwork will sustain the outdoors?
 - f) Maintenance methods for the duration of the exhibition
 - g) Dates of availability (e.g., from January to December 2019)
 - 3) Brief curriculum vitae (two pages maximum), detailing the experience as artist
- Up to three (3) high quality images of the proposed artwork provided separately in JPEG or PNG format not exceeding 1.5 MB per image
- Completed and signed Offer of Services Form (see Annex « C »)

Technical Requirements

Proposed artworks must meet the following requirements, which will be evaluated as a first step by a technical committee in order to proceed to jury evaluation. Proposals that do not meet the stated requirements will not be considered further.

- 1) The artwork must already exist and be of a suitable scale for an outdoor public space.
- 2) The artwork must be able to withstand outdoor conditions and have few or no maintenance requirements.
- 3) The artwork must be freestanding and independently operational at all times.
- 4) The artwork and its elements must be safe for the public at all times.
- 5) The artwork must not include closed or confined spaces.

Selection Criteria

The jury will assess the following rated requirements. In order to be retained for the inventory, proposed artworks must achieve a minimum level of 60% of the available points in each of the rated categories. *See Annex « B » for the detailed evaluation ratings.*

- 1) Creativity and quality of design (40 points)
- 2) Visual presence and visitor engagement (40 points)
- 3) Respect for Installation Guidelines for Public Art Projects – *see section below* (20 points)

Note that pre-qualification is pass/fail. Once pre-qualified, all artworks retained in the inventory will be given consideration for each project. The selection of artworks will be made by a PCH internal committee who will consider the jury's initial scores along with operational requirements, namely, suitability for the designated site, weather conditions, duration of installation and/or proposed event.

Location

Specific sites are not identified as part of this Call for Proposals.

Installation Guidelines for Public Art Projects

The proposed artworks must meet the following requirements:

- 1) The artwork and all of its components must be designed with materials that withstand continuous use and outdoor conditions such as rain, high wind and extreme temperatures for the duration of its installation. Artworks that are intended to be exhibited year-round or during winter months must also be able to withstand snow, freezing rain, and weight of snow. PCH accepts no liability for normal deterioration of the artwork and its elements, or for manufacturing defects. All risks and liabilities are the responsibility of the artist.

- 2) The artwork and all of its components must be freestanding and independently operational at all times. Any attachment to trees, park furniture or any other permanent structures is prohibited.
- 3) The artwork and all of its components must not pose any safety issue for the public. PCH reserves the right to restrict public access without prior notice. Hazardous materials are prohibited.
- 4) The artwork and all of its components where applicable, must minimize its environmental impact. For example, light-based artworks should use sustainable materials such as LED lighting or solar technology.

Note: Depending on the nature of the artwork, more specific instructions may form part of the contractual agreement between PCH and the artist.

Public Safety

The artwork installation must meet the highest standards for safety and be secure at all times for visitors. It should limit the possibility of falls from any part of the artwork or due to icy surfaces during winter, cuts from sharp edges, falls from tripping or climbing, or any other situation that could cause injury or threaten an individual's life or health. Care should also be taken to ensure that visitors feel they are in a safe and secure environment. Both day and night, time visibility for all areas and components of the installation should be considered, and there must not be closed or confined spaces.
